## commissionaires

WARNING  
TICKETS  
by - S/SGT - Johnston

Those yellow slips issued by the Commissionaires are for the express purpose of getting a message to you.

If the message is not clear drop in to the NCO I/C of the Commissionaires - Office E107.

Recipients of these slips must take the warning seriously as it is a prelude to POLICE FINE TAG ACTION.

When in doubt, always ask one of the Commissionaires on duty or check with the sergeant.

Those who are taking a chance by parking in reserved stalls must realize that the stall owner will not give warning - his action is to call police immediately. He has the prerogative of Tow-Away action which involves further costs to the offender.

Reports on parking availability at NAIT show that the far south lot - south of Princess Elizabeth Avenue - (far southwest corner) has on an average of 50 - 75 stalls open at all times. Students can park right away if they would check this lot.

Students and staff must not park - or attempt to park - in the Visitors stalls - 106 street - the REASON being that these stalls would continually be filled with STAFF and STUDENTS. If one has to be refused - then all must be refused. Visitors are considered to be only those persons doing business with NAIT ADMINISTRATION and Alberta Public Works offices.

The Commissionaires wish to thank those who are considerate and courteous with parking problems - and hope this year more will follow this fine co-operative example.

## DEAR DEBB,

Dear Readers:

I have received a lot of comments and criticisms from those of you who know me, but no letters. Thanks for the response group!

It's a good feeling to know that all's well at last.

Ah contentment.

Love Debb

P.S. See you on Valentines Day.

## Letters to the Editor

Dear Editor:

I used to have respect for this school, but now I don't think I do. All I want to say is that there are a few demented people in this school. On Sat., Jan. 25th, about 2:30, my friends and I came back to change after playing floor hockey. What we saw was quite a sick sight. My friend's pants had been taken from the locker and stuck in the toilet. Then they crapped in the toilet and flushed it. It was just a big joke to them. They didn't even think about taking the wallet and keys, which would have made the whole thing more understandable. The guy who did this is probably laughing now, and all I can say is up yours!

STAFF AND STUDENTS MAY NOW GO FROM THE ACTIVITIES CENTRE INTO J-WING BY SIMPLY SHOWING THE COMMISSIONAIRE THEIR ID CARD. ENTRY TO THE ACTIVITIES CENTRE VIA GROUND LEVEL FROM THE J-WING DOES NOT REQUIRE THE SHOWING OF AN ID CARD. THIS APPLIES ON:  
FRIDAYS - 6:00 to 11:00 pm  
SATURDAYS - 8:00 am to 11:00 pm  
SUNDAYS - 8:00 am to 11:00 pm

Dear Editor:

I would like to air out a beef about Student stores. Are they ever open? What the hell is going on? When it finally is open, students are jammed in to that little cubby hole which is not improved by the junk on the floor. Service is lousy - especially this last week - and forget about a smile, its more likely to be a growl. Who are student stores for? And if everyone is gone, why are the lights on? (conserving energy and so on). Or why not a list of times its open or is it too much trouble?

Oh well, maybe the work is just too difficult for them to handle.

## NOTICE

deadline february 25, 5pm for  
all technology copy & pictures  
for open house issue march 14.

With a little help from our friends Nugget will be publishing an open house issue on march 14. Twenty thousand copies will be distributed within NAIT during open house so help yourself to some free advertising. Get all copy (type-written, double-spaced) into Nugget or student services offices by 5pm, Feb. 25th. Likewise, all pictures (any size, glossy, high-contrast) Please try not to copy the registrar's calendar.

No paper next week so wait for the Valentines Special, Feb. 14th.

NAIT staff & students.

dental assisting technology is now accepting appointments for  
Intra Oral procedures, including polishing & topical applications of Fluoride.

-children and young adults only will be accepted for treatment with precedence given to children of staff

it's fun!  
painless!  
healthy!

and students attending NAIT. Since this procedure is limited to prophylaxis (cleaning) that does not involve scaling, it will be necessary for those over the age of 16 to be screened.

Screening appointments will be scheduled during the common hour on Wednesdays. Please feel free to drop in to the dental assisting lab - Room F-207.

- for appointment call 535 grey 381 or 477-4231 phone

## we're all getting into a new kind of bag!

MONTREAL (CUP) - For hundreds of thousands of Canadians the energy crisis may soon strike home in a totally unexpected

way. At the heart of the energy crisis is a claimed shortage of crude oil supplies. This shortage has forced a cut in production of polyethylene film. The end result: a "baggie" short-

age. Users are "scrambling for supplies" says a Montreal manufacturer of the film. The manufacturer expects a cutback of between 40 and 50 per cent in production in 1974.

## NUGGET HERE

The NUGGET is published weekly by concerned members of the NAIT Students Association. The staff does not intend to print all articles submitted by NAIT staff, students and other occasional unreliable sources but it is more than willing to look them over. Opinions expressed in the paper are not necessarily those of the administration or Students' Association. Staff always comes and goes, so new members are always welcome.

Our office is located in Room E-128 and the doors are open more often than not, so please feel free to drop in and get familiar with the operations. We'll gladly show you around. If you are shy, then phone us at 477-4329 on the black phones or 423 on the grey phones. If you are afraid that we'll recognize your voice, then write us a letter. Address it to:

The Nugget,  
c/o Student Services,  
NAIT  
11762-106 Street,  
Edmonton, T5G 2R1

Advertising and copy deadline is 4:30 pm Friday previous to publication. Circulation is 5,000 copies and advertising rates are available; contact Publications, 477-4328 or 430 grey

january 31 -

february 7

## You don't have to break a promise

The weatherman *promised* a gorgeous snowfall. You *promised* your guy to join in the fun. Now "that time" of the month has *promised* to ruin everything.

There's no reason why you should have to break your date. Just depend on internally worn Tampax tampons for the comfortable sanitary protection you need. There's an absorbency-size that's right for you—Regular, Super or Junior.

Modern, active girls always make plans for good times. And if there's a chance to have fun, you don't have to miss it. Tampax tampons *promise* you that.

The internal protection more women trust

MADE ONLY BY

BARRIE, ONTARIO

**ARIES** - Friendship is the important area in your life right now. Friends provide a variety of interesting propositions and you may find yourself in the position of having too much of a good thing. Take care of appearance and attitude in public. You are being sized up for more important things.

**TAURUS** - You will be extra lazy where work is concerned but fortune seems to be smiling in your direction and you can't seem to do anything wrong. At the mental level you can learn and retain knowledge for later purposes. Use this opportunity to your best advantage.

**GEMINI** - Many, many changes are due, some planned, some entirely unexpected, but most of them are pleasant. You have an opportunity to get rid of old problems and start new projects. People in authority will help you gladly now. Generally the pathway is straight, all you have to do is keep your balance.

**CANCER** - There are clashes and mutual attractions. Everyone seems to be trying to straighten you out or run your life for you. Action in anything involving the opposite sex. Listen to your own conscience. Don't let others confuse you with facts.

**LEO** - You will spend much of your time this week helping others. Your particular abilities and talents are in demand. Partners will most likely be understanding. You can get what is needed and you can get results. Health is often a state of mind. Depression will upset yours now.

**VIRGO** - Heavy social activity is connected with the various departments of your life. Because of the many influences you could find yourself taking on a new life style. Do watch your temper and your health. Extra pressure is apt to cause tenseness or tiredness.

**LIBRA** - Some interesting and amusing incidents will be happening in and around your home this week. Don't be too surprised if other people act and express themselves in ways that benefit you. People do care, when they know what you need, you get results.

**SCORPIO** - You could find yourself having to repeat or redo many things if you aren't careful. The best solution is not only to plan but to write it down. Applies especially where short trips around town, shopping etc. are concerned. Try to avoid starting something new.

**SAGITTARIUS** - Should have a feeling of satisfaction and release now. The restrictions that have dogged your footsteps lately are lifting. Information you need and have been lacking will start coming in. Look for some interesting news in your correspondence.

**CAPRICORN** - Keep your eyes open for money-making opportunities. A lot will depend on your past personal efforts but you are at a new high where money is concerned. Add to your wardrobe as well, if you can put across the plus in your personality, you have it made.

**AQUARIUS** - This is a time for getting what you want. Make your plans, set your priorities and then go. Just about everything you try should turn out well and long range efforts will get off to an excellent start. A word to the wise - don't expend that extra energy all at once.

**PISCES** - As often happens the past has a strong influence on the present. The times when you put out for others should pay off in diamonds or the equivalent. You find others speaking unasked in your behalf. You get credit due. If you have a problem, think back the solution is within your grasp.

february 7 -

february 14

**ARIES** - You will probably spend a lot of money in the next week. Expenses will develop unexpectedly. It's not a time to be secretive so keep all you do above board. You receive publicity for what you do good or bad so you might as well grin and bear it.

**TAURUS** - You have the ability to top extra energy reserves now. Others will back your efforts willingly. Start putting plans into effect. You will find that when you find life interesting others find you interesting. Explore the possibilities. They are intriguing.

**GEMINI** - You may find yourself putting your foot into your mouth at times this week mainly because you are in too much of a hurry to get all the facts. Granted you are on the run but think first or don't answer until you know the right one. Someone who could turn out to be special will come to your attention.

**CANCER** - You could find yourself the arbitrator of a controversy. If so you will have to do your best, those involved won't take no for an answer. An old friend may be upset but hold your ground. You gain in respect and maturity. True friendship can stand many strains and survive.

**LEO** - Should be aiming high right now. There are opportunities for you to gain the positions you want. Processes are accelerating. You have to think on your feet to keep ahead. Extra attention will come your way from female acquaintance. Help given could prove valuable.

**VIRGO** - Confusing situation will cause complications at home but mostly you'll be getting lucky breaks all week. You attract attention. If you handle situations smoothly it's a plus factor, if not you still come out on top. Where money is concerned expect the unexpected.

**LIBRA** - Don't hang on to the past. Some of your current affairs have run their course. Let go gracefully. If you just look around you will see that many great things were built on top of old ashes. You have to get rid of useless things in order to grow. Positive attitude is best.

**SCORPIO** - Home ground where your worth is known and appreciated is best for you now. Confine your efforts to finishing up the tasks you have been putting off. You will accomplish a lot more and end up feeling satisfied instead of jittery. Know where you stand before you start.

**SAGITTARIUS** - Events involving close kin are exceptionally interesting right now. Observe but don't get too involved. Trying to pin down motives for the time being is a waste of time. Perception is likely to be clouded. Life itself is a lesson. You learn more by living than from books.

cont'd./page 7

## from the chaplaincy

Dear Student:

We want to welcome you to the New Year's Semester at NAIT.

You indicated on your application form that your Church relationship was United Church of Canada. We are the chaplains serving NAIT for the United Church, and are on duty each Wednesday from 11am to 1pm. You may arrange appointments through the receptionist in the Counselling office, or phone directly to our Church offices at 426-1860 or 426-1861.

We are planning a special series of Seminars on the following Wednesdays with respective topics as follows:

Wednesday, February 6th

"Values for Today's World"

Wednesday, February 13th

"Personal Problems in Living"

Wednesday, February 20th

"Today's World and the Christian Faith"

These seminars will take place in room E-123 at 1:15 pm. You are cordially invited to bring your friends whether or not they are of the United Church.

We will look forward to meeting you sometime during this special series together.

Sincerely yours,  
Rev. Hart Cantelon,  
Rev. Cyril Martin

Offices:  
Central United Church  
112 street & 109 avenue

## Jon Thibert will be missed by all

The tower is in mourning. One of the best instructors to ever set foot in NAIT's tower of learning is leaving.

Jon Thibert leaves today, for a job as Senior Account Executive for ITV (Independent TV), the brand new station that should be in operation by the 1st of September. He's been here for 6 years, teaching Advertising to the second year Marketing students.

A colleague of his said that things just won't be the same when he's gone, but he wants his name kept quiet, so I won't mention Bart Symons.

Jon was born in a place called Merlin, Ontario, many, many years ago (at least that's what he says). He went through school in that area, and attended Ryerson Institute of Technology from 1950 to '52. He enrolled in Radio and Television Arts, the start of a long and successful career.

Even as a boy, Jon wanted to get into the "electric media". While most kids his age were making mudpies or playing cowboys and Indians, he used to sit in front of the radio and listen to Ty Tyson (an old time Howard Cossell) describe all the action at the Detroit Tiger ball games. In high school he'd MC the dances and all the other things that high school kids used to do.

Upon graduating from Ryerson, Jon got a job with CHAT Radio and TV, in Medicine Hat, at that time a booming Metropolis.

He started out as nighttime disc jockey, which is where most young DJ's start, and he spun discs there for about 18 months. Then came "Good morning, from CHAT in the HAT" as he graduated to morning man. He worked at that for another 18 months. Jon did the play-by-play for the Medicine Hat Tigers in those days too. That was when good 'ol Bill Hunter was behind the bench for the Tigers.

In 1957 Jon got into sales advertising for CHAT, and became the local sales manager two years later.

TV became a part of his life in 1960, when he left the radio end of CHAT and became the local sales manager for CHAT-TV.

Two years later he became national sales manager and two years after that, operations manager.

From a DJ in '52 to bossman for the whole station in '64, Jon was going places fast. He stayed there though, for only 4 years as operations manager, before NAIT enticed him with what must have been an offer he couldn't refuse. He joined the Business Administration Department in January 1968.

And now he's leaving. After six years of teaching kids how to make it in advertising, he's leaving to see if he can make it in advertising.

Jon's job as Senior Account Executive will be to look after the advertising accounts for the station. He's really excited about his new job, and the entire concept of the station. They're doing everything different, and Jon approves of all the modernized changes. He thinks that ITV has unlimited possibilities and will soon become a major station in this area.

Even though he's looking forward to his new job, he feels badly about leaving in the middle of the year. He said that he's really enjoyed NAIT these few years that he's been here, and he's sorry to go. Jon's made a lot of friends throughout the Institute, and we're all sorry to see him leave, but at the same time we wish him all the luck and happiness in the world, at his new job.

Jon sums up his feelings best, in a quote he learned many years ago. "Whatever is, is; and therefore it's good in the long run."

## SEE HIM TO BELIEVE HIM!

Get set for a hilarious night of Hypnotic Hi-Jinks. Two hours of mirth provoking entertainment that's guaranteed to tickle your funny bone.

Byron Benson will make his 3rd appearance at the NAIT auditorium, Feb. 7th, 8:00pm. His show is funnier than ever and the students who attended his past performances will recall the hypnotic Pandemonium, both on and off stage.

The successful entertainer respects the maturity of today's audiences. "No longer are the public drawn to a performance because of a mystic type of black magic show. Yet, many performers dress the part and some even try to implant the impression that they possess a strange supernatural power."

He went on to say, "that today's public are sophisticated and they want the truth. They come to a theatre to relax, to

laugh and release tensions. They are not looking for false messages with their entertainment. This they can get for free at most political meetings. My Hypnosis show is designed to entertain and this is what I try to give my audiences, over two hours of solid fun packed entertainment."

You can't really class Byron as a rebel, but he's different. His show is unusual and his volunteers become the stars. He even breaks the laws of tradition, by not wearing the Symbolic beard. "The fact that you can grow whiskers doesn't make you a better Hypnotist," he said.

When you see his show, you'll share more than an evening of fine entertainment. You'll share and feel every emotion...warmth...laughter...tears...and more... Byron's show is excellent entertainment, don't miss it.

# his style

# old style

He opened up the north with baling wire, canvas and courage—and maybe the thought of Lethbridge Old Style Pilsner waiting when he made it back home. Alberta's original Pilsner has logged a lot of miles and quenched a lot of thirsts in nearly fifty years; and it tastes as good today as it did way-back-when. Slow-brewed and naturally aged for men who appreciate the down-to-earth flavour of an honest, old-time beer. Try it.

TRADITION YOU CAN TASTE • FROM THE HOUSE OF LETHBRIDGE

# 29 goal homestand

## Friday...

... was a good night for everyone; except the goalies, Pronghorns and Ookpiks.

NAIT's Ookpiks and U of Lethbridge Pronghorns skated thru a 13-4 win in one of the worst Alberta Colleges Athletic Conference (ACAC) games thus far.

The Oaks wouldn't have beaten anyone else but Lethbridge, the way they played. A second rate performance by both clubs made for some very dull hockey.

The goaltenders certainly had their problems.

NAIT's Gord McDermott failed to show for the second period and Rod Morrice left the Pronghorn net after nine goals and one and one-half periods.

Morrice let Harold Graham and Rick Moreau each beat him once, and George Matsuba and Dave McAmmond got by him twice, to open up a six-goal lead after only 17 minutes.

But, two minutes later, it was

6-4, Lethbridge getting four goals in 53 seconds from Guy Smith, Fred Hofforth and Mike Weisgerber with two. They made a new game out of it, faster than a shoreboat full of seamen on leave.

Doug Stoddart, Matsula and John Kleinscroth managed to beat Morrice once each before he skated off halfway through the second to let Peter Schalk take over. Schalk didn't do much better, letting in shots from McAmmond, Bob New and Kleinscroth before the period's end.

McAmmond added his fourth of the evening after six minutes of the third, to round off the scoring and a four goal effort. He also picked up two assists for a six point performance.

## Saturday...

... a lot of vehicles skidded off the Calgary Trail this past weekend. Maybe it's unfortunate the Old's bus wasn't one of them.

Bronco's only problem would then have been getting themselves out of the ditch rather than

getting out of the NAIT arena. The ditch would have been less embarrassing.

NAIT's Ookpiks humiliated the winless Broncos 16-1 in ACAC action on Saturday afternoon.

Olds played so bad, the only time they managed to score was on a one-on-one situation. It was Stan Hill vs. Ook goalie Dave Thompson on a penalty shot awarded to the Broncos. Hall had little trouble beating Thompson, which kind of makes you wonder why they had so much trouble the rest of the afternoon.

Thompson, in his first full

## Hoop Oaks im(pressed) everyone but Cougars

The hoop Oaks travelled down to cowtown last weekend, for games against SAIT and Mount Royal College.

In men's action, the Ookpiks out-pressed SAIT's Trojans in a 79-58 battle on Friday evening. The game was over, for all intent

game between the pipes, look impressive throughout, but he was never really tested.

A slow, rough first period saw NAIT begin their scoring spree with goals by George Matsuba, Dave McAmmond and Rick Moreau.

They got seven more the next period, from Fleuri Perron, John Kleinscroth, Dale Hegadoren, Perron again, Larry Rindero, Hegadoren's second and another from Matsuba.

The third opened up with the penalty shot, after which the Oaks charged back for six more goals. McAmmond got three, Rindero two and Hegadoren one.

Rindero and McAmmond each had a seven-point afternoon, adding four and three assists respectively.

and purpose, after 7 minutes. NAIT (press)ured SAIT into a 25-5 score, and never looked back. In fact, the whole first half was the best that the Oaks have played all season, racking up 48 points in a very im(press)ive showing.

They played a "basket ex-

change" game for the remainder, content to let SAIT score and then come back and get one themselves. Doug Carter and Larry Silvester worked the press very well together.

Scotty McEachern got 23 points in the win, Carter got 17 and Gawlik netted 15. Ed Benedet was the high Trojan scorer with 19.

Saturday afternoon, and it was NAIT vs the powerful Mount Royal Cougars. Mount Royal treated NAIT the same way NAIT treated SAIT, soundly beating them 81-57.

It was close, believe it or not. At least for a little while. Half-time score was 38-36 for the Cougars. The Oaks press didn't work so they switched to man-on-man which didn't really work either. The rubber floor in MRC's gym made the Oaks get tired a lot faster and sweat a little more than usual, which might also be reasons for the loss. Gawlik with 16, McEachern with 15 and Carter with 12, accounted for most of NAIT's scoring.

Cougar Dan Baker got himself 31 points in a fine effort.

The women split their weekend as well. They beat SAIT's Helenas 53-37 in one of their finer efforts this season.

The Ooksettes worked their plays well and took advantage of the opened key area. Fast breaks produced beautiful 2 on 1 situations where lay-ups were easily scored.

Jan Martschiniak had a great night, scoring 26 points. Josie Salt added 17.

On Saturday, the Cougarettes defeated our girls 51-42. For the first part of the game, fast break and passout routines worked well against the Mount Royal squad. Our girls were winning by 5 points at the half, they were doing so well.

But when they came out for the second half, MRC used a man-to-man switching defence. NAIT's offence became confused, resulting in fast breaks for the lady Cougars.

Sharon Haynes had an excellent defensive game in keeping the score somewhat respectable. Miss Martschiniak scored 17 points, Miss Salt added 12.

# For you, the Renter.

## It's your turn to benefit under the Alberta Property Tax Reduction Plan.

### AM I ELIGIBLE?

Yes, if you: Are under 65 years of age, have rented your principal residence(s) in Alberta for a minimum of 120 days in 1973, were a resident of the province on December 31, 1973.

### ARE THERE ANY EXCEPTIONS?

Yes. Under this section of the Alberta Property Tax Reduction Plan those in the following categories are ineligible.

—Senior Citizens (65 or over). Senior Citizens who rent their principal residence apply directly to the Alberta Department of Municipal Affairs for a Renter Assistance Grant.

—Students who rent from a university or college, i.e. reside in university or college residences. These residences have already received their benefit since they are not subject to the Education Foundation Levy.

—Residents of nursing homes or senior citizens' homes, public or private. These residences are in the same category as above.

—Members of the Armed Forces who do not live in residences subject to the Education Foundation Levy, i.e., if they live on a base or in a house provided by the Armed Services.

—Anyone who has already received a benefit from the Homeowners' Education Tax Refund or a benefit from the Renter Assistance Grant under the Alberta Property Tax Reduction Plan. This holds if your spouse has received either the Renter Assistance Credit or Grant or the Homeowners' Education Tax Refund in that tax year.

### WHAT IS THE MAXIMUM BENEFIT I CAN RECEIVE?

You may receive a maximum of \$100.00 under the Plan if you are eligible. The amount will either be in the form of a refund included in your Federal Income Tax Refund from the Department of National Revenue or a credit towards your Tax Payable for 1973. The form and amount of the benefit is determined by your taxable income for 1973.

### SUPPOSE MY RENT IS PAID FOR BY MY EMPLOYER?

Except in the case of Armed Forces personnel described above, you are still eligible for the benefit providing that the amount of rent that your employer(s) pay(s) is included as part of your income. Free rent received in return for services, such as caretaking, must be declared as part of your income but still entitles you to the Benefit.

### HOW DO I CLAIM?

You will receive a brochure in the mail. DO NOT LOSE IT. STUDY IT CAREFULLY. It will describe in detail all the points of which you should be aware when you apply. Your application form will arrive with your Income Tax Return. If you should lose your brochure you may pick another one up at any Treasury Branch. Remember, in order to receive benefit under this program, you must file a return for 1973, whether or not you have a taxable income.

Watch your mail for this brochure.

# Volleyball Oaks well on their way

The Nait Men's Volleyball Team travelled to Medicine Hat for the first ACAC competition. They met other colleges and institutions in the Round Robin competition.

The Oaks were successful in defeating all other teams without losing a single game. All members played excellently and represented NAIT in a sportsman-like manner. The team members are Harold Cox, Melvin Foht, Larry Gartner, Gary Huculak, Norman Jede, Bryan Pretula, Ken Prochinsky and Brian Wudarck.

Special mention must be made of spiker Brian Pretula, who completely dominated Mount Royal College in the final and decid-

ing game. Gary Huculak, Mel Foht, Norm Jede, Ken Prochinsky, through their defensive plays and hard field work, contributed to the overall success. Accurate positioning by Harold Cox and Gary Huculak helped carry Nait to victory.

NAIT's Volleyball Oaks are in top physical condition and ready to compete again on February 15th at Olds Agricultural College, for the second of three competitions. Coach, Karel Puffer said that if the team plays as well as they did in Medicine Hat, there is no team that will stop them in becoming representatives for Alberta in the 4- West Championship.

Good Luck in future games.

if the Oaks aren't tipping it, they're blocking it

The women's volleyball team had mixed success at the 1st volleyball competition held at Medicine Hat on Saturday.

They split their best-of-two series with the leaders, Medicine Hat, and Mount Royal, but they are in fourth place because they lost games to teams on the bottom of the ladder.

N.A.I.T. is only four points off first place with a 7-7 record and with a little more concen-

tration, could become contenders for the championship.

The most exciting series of the competition was when N.A.I.T.'s women split with the over-confident Mount Royal squad. Mount Royal won the first game comfortably. However, in the second, the Oaks came from behind to win an exciting match 15-11. Mighty Mount Royal had completely collapsed.

Coaches Connie Cissel and Bob Buchan are particularly pleased that N.A.I.T. was the only team to win against the traditional volleyball giants, Mount Royal and Medicine Hat.

After all three competitions have been completed, the top four teams will advance to the finals. At this point in time, it appears as though the women will make the playoffs, as they are improving with every game.

spiken' Gail Stewart

## horoscope, cont'd.

**CAPRICORN** - Your love life will take a definite turn in one direction or another this week. Devil may care attitude is a cheerful contrast from your usual reserve but you may get a few odd looks. Money position continues good. Go after what you want now.

**AQUARIUS** - You can provide friends with an opportunity to relax and recoup forces. A social gathering at your place could be the right thing and you will enjoy it as much as anyone. You have a knack for making the unusual work to your own advantage. Try something new.

**PISCES** - Accept some of the invitations you receive this week. There is a tendency to retreat from social contacts now but you benefit from mixing with others. Friends and neighbours will be of importance in your affairs. There are interesting sidelines to be investigated.

## Diving

NAIT Department of Physical and Leisure Education will offer one class in Springboard Diving to begin Wednesdays 12 to 1. The first class will be held February 6.

All those interested in learning to dive, or to improve their diving skills, are asked to see Miss Hanson before that time. If there is not sufficient interest the class will be cancelled.

Hope to see you all.

Barbara Hanson

Labatt's Blue smiles along with you.

## NAITSA Annual Meeting Feb. 13

At the last Students' Council meeting on January 23, NAITSA President Gary Everett announced that the annual meeting of the Students' Association would be held on February 13th. This meeting, to be held in the auditorium during the Wednesday Common Hour, will deal primarily with the fiscal year September 1, 1972 to August 31, 1973. The financial statements for that period will be presented by NAITSA Treasurer Ed Wychopen. An amendment to the constitution will also be proposed at the meeting.

Normally, the Annual Meeting is held in December, however this year the delay may well be worth it Mr. Everett stated. By the end of February it is planned that NAITSA'S present accounting procedures and records shall have been integrated to a computer program. In the future all invoicing, billing, journalizing, etc. will be handled on the computer.

To set up the computer program a very accurate financial position is necessary as a base. For this reason the accounting firm auditing NAITSA'S books have taken considerably longer this year to complete their analysis. Also, for the first time, the financial records of the Student's Store have been included in the overall audit.

Many reasons can be cited for the switch to computer-accounting, one being that partial and "running-total" financial statements will be more readily accessible. This will allow the Students' Council and the Executive to use a system of time-flow analysis to aid them in many of their decisions concerning future business transactions.

Secondly, the computer system will free the NAITSA Treasurer from many of the menial tasks which now form a greater portion of his work. These func-

tions include the day-to-day posting requirements necessary to such journals as accounts receivable, accounts payable, etc.

At this point, however, it must be remembered that the Treasurer no longer looks after just the administrative side of NAITSA affairs but now two business ventures (Students' Stores and Games Room) and a \$10,000 yearly newspaper operation. By relieving him of these duties he may now be able to sit down and help plan new business ventures, more efficient expense and budgetary controls, etc. After all, isn't our Treasurer on Students' Council to attempt to improve NAITSA'S financial operations, not maintain them at their existing level?

As was mentioned the second major item to be discussed at the Annual Meeting will be a proposed by-law amendment to the constitution of NAITSA. The present By-Law and its amendment are as follows:

Article 17 reads:

The By-Laws may be rescinded, altered or added to by an "Extraordinary Resolution" passed by a majority of not less than three-quarters (3/4) of such members entitled to vote as are present in person at a general meeting of which ten days notice specifying the intention to propose the resolution as an extraordinary resolution has been duly given. Such notice shall be given by posting notices on the School Bulletin Boards.

Amended to:  
The By-Laws may be rescinded, altered or added to provide that the motion to rescind, alter or add to is passed by a majority of representatives present and voting at a meeting of Students' Council except that:

a) any amendment involving a change in the total student fees must be proposed in the form of an "Extraordinary Resolution" at

a general meeting of which ten days notice specifying the intention to propose the resolution as an extraordinary resolution has been duly given.

Addition to Constitution:  
Article 4:

- (i) a written notice setting out in full the proposed such repeal, amendment or addition has been submitted to the Association Secretary at least (48) hours previous to a meeting of the Students' Council.
- (ii) the motion to repeal amend, or add to, is passed by a majority of representatives, present and voting, at three (3) consecutive meetings of Students' Council.

This amendment has become necessary in an effort to facilitate and streamline the many minor changes occurring in and around the operations and functions of the Students' Association. With NAITSA'S emergence into student service, and other, business ventures, a set of by-laws must constantly be revamped, repealed, and amended, to aid future student executives and councils in their decision-making processes. There must be an accurate, although not necessary stringent, set of guidelines for the students' association to follow in their endeavours.

new in the constitutional framework of organized societies, associations, or governments for that matter. Only after passage at third reading does any Bill in Canada's federal parliament go to the Senate for royal assent. It does not become law until this entire procedure is complete. Our city council uses the same system as do several student unions and associations throughout Alberta and the other provinces. The procedure could only work to disadvantage with the representatives of almost 2000 students acting incorrectly. This would seem very remote indeed.

For the most part any changes which must be made are minor and do not require the gathering of at least 200 members (which is no easy task, what with staggered classes and breaks). It is expected that the fifty eligible reps to Students' Council carry with them the majority feeling of the students they represent.

The greatest single issue which is most certain to affect all students is that policy regarding the level of student fees. A major portion of the proposed amendment relates to this instance. Should any change be considered in the total student fees, that change must be taken to the entire student body for ratification. Only at a meeting attended by at least 200 members can a proposal relating to fees be discussed and its passage or defeat depends entirely on the choice of those present and voting.

NOTE  
Please show your interest in the affairs of your students' association and attend this General Meeting February 13. As was pointed out earlier, this meeting cannot proceed without the presence of at least 200 members. Also, please bring your ID card with you.

### From the CIA with love . . .

OTTAWA (CUP)--The Ottawa diplomatic corps, an international community, is currently pondering one of President Nixon's latest decisions. Nixon announced from his San Clemente western White House last week that William J. Porter is to be appointed the new American ambassador to Canada pending U.S. Senate approval.

A diplomatic careerist, Porter was posted to many places around the world as a member of the American Foreign Service. Most recently, he acted as chief American delegate (under Henry Kissinger) at the Paris Peace Talks, 1971-73. He had previously headed the American 'rural pacification' program in South Vietnam, 1965-67. At that time, the American government had decided bombing the Vietnamese back to the stone age was not a sensible strategy and had brought in a team of experts under Porter to convince the Vietnamese the Americans would bring about true economic and social reform. That program failed, Porter resigned, and was posted to South Korea in 1967.

The Ottawa 'dip corps' is alive with theories about why Nixon chose this man for the Canadian posting. He replaces Adolph W. Schmidt who has been U.S. Ambassador to Canada since July, 1969. The Toronto Star sparked the speculation with their Jan. 9th story headlined "U.S. Ousts Porter: Posted to Canada." The Star alleged that Henry Kissinger is kicking Porter, number three man in the State Dep't, out of the way so he can promote one of his men to that spot.

Kissinger wants to move up Joseph J. Sisco, presently num-

four in the department. Sisco has been Kissinger's 'silent partner' in the Mid-East negotiations. "When Hank's in Cairo, Joe's in Tel Aviv."

The second level of speculation goes a little deeper: many of the smaller nations of the world are expecting Canada will be the 'next Vietnam'. They reason Canada has many of the basic resources needed by the U.S. business interests - thus the U.S. government - if they are to maintain military control of their empire.

Porter was head of the WHAM program in Vietnam - Win the Hearts and Minds of the people. Another example of CIA social engineering? Are they about to try it again in Canada? What does Porter's appointment mean for the Canadian people?

Porter spent his first eighteen years as a diplomat in the Arab countries, (Iraq 37-41, Lebanon 41-43, Syria 43-46, Palestine 46-47, Morocco 53-57, Algeria 61-65) and the rest of the time in Washington.

Amongst other things he was the head of a CIA bureau and political advisor to the Voice of America, a radio show for foreign broadcast, in the 'fifties; businessman, diplomat and CIA agent?

U.S. Senate approval of Nixon's appointment is expected early in February. There has been no official Canadian reaction to Porter's nomination except for the statement by the Canadian reaction to Porter's nomination except for the statement by the Canadian Ambassador to the United States, Marcel Cadieux: "He speaks French... He has always been very friendly... he is also quite a hockey fan."

### TORONTO'S POOR GET PRINT-OUTS INSTEAD OF HAND-OUTS

Toronto (CUP) For welfare recipients in Metro, 1984 is arriving ten years early: their personal life histories will go on secret file in a metro computer which will belch out everything from common law relationships to clothing needs.

The ghost of George Orwell's "Big Brother" must be roaming through Metro as the section of the bureaucracy putting together the new system is called the Management Information Section of Metro Chairman Paul Godfrey's office.

The computer system already handles the issuing of welfare cheques, pension data for all civic employees, and road survey information.

For those on welfare it will keep track of the following:  
name of recipient and all family members;  
all addresses;  
health of recipient and all family members;  
reports of previous work records;  
notes on educational level; marital status, including whether a single parent, divorced or widowed;  
a record of common-law relationships;

All sorts of social services being received in addition to routine cheques, such as homemaking and day care centres.

In return for storing the information, the computer will

set out budgets for the recipients based on the information stored in the memory banks.

The computer will tell recipients how much can be spent on rent, food and clothing and write the welfare cheque for whatever sum the computer calculates as appropriate.

There is no indication that this computer will be tied into the federal government's unemployment insurance computer in Belleville, Ontario, but Metro officials say one reason the welfare computer is being brought into existence is to cut down on welfare fraud.

Senior Metro officials say the computer is designed to contain a complete case profile on each welfare recipient.

But the file in the computer is to be confidential, according to Metro social services commissioner John Anderson.

Even members of Metro council will not have access to all information, reserved for employees of the welfare department.

The computer will also use files on any person receiving any sort of assistance from Metro.

This will include a new programme being phased in by Metro to assist the working poor by providing drugs prescribed by a doctor, surgical supplies, moving allowances, dental and optical services, art-

ificial limbs, vocational training, and funerals.

Once the new welfare scheme assisting the working poor is brought into effect, the total number of people on the Metro computer will number in tens of thousands.
