ISSUE 10, VOLUME XIII

EDMONTON, ALBERTA

"Garfield"

By Casey

Well, the large Cafeteria certainly looked different last Friday afternoon, November 12. As well it sounded fairly different, the reason being the appearance of the band "Garfield," from Toronto, at the NAITSA cabaret.

The band played from a large raised stage at the back of the room, behind them on the wall hung a backdrop displaying their name. The dance floor was smaller than usual, and immediately in front of the stage. A light show lit the band with different colors and from time to time stroked their movements into jerks.

The band specializes more in concert type shows and modifies their program for

cabarets. The music could still be danced to although some comments were heard from individuals who didn't entirely agree. Their music is all original and varies from smooth to light rock. The performance was definitely outstanding. A lot of good individual musical contributions were made by the band members who also functioned very well as a group. The sound was best at the closer tables and on the dance floor. Because of the low ceiling and crowds of people the higher frequencies did not carry well to the far end of the room. Those who sat at the back of the room missed out on the best sound. When the band finished their encore, at 9:30, most were

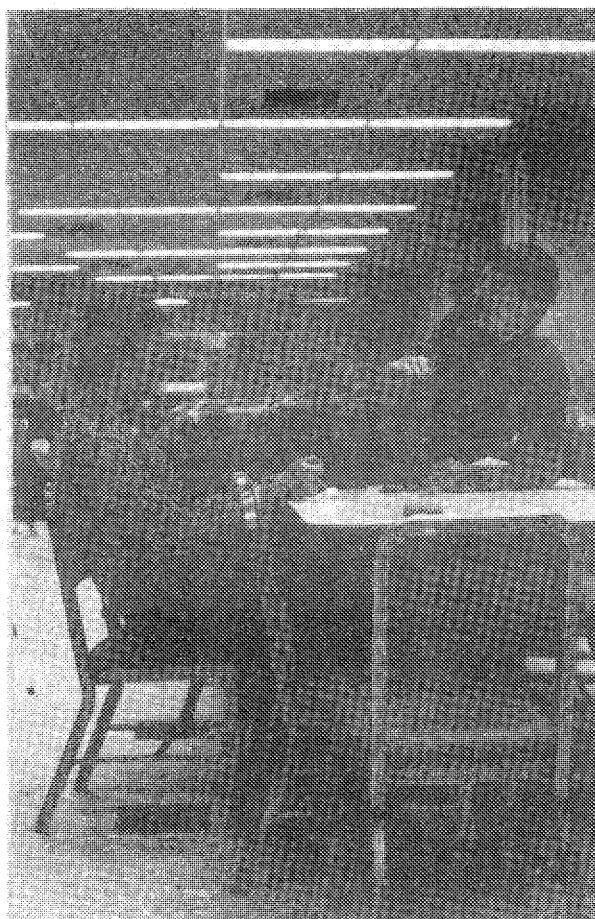

sad to see it end.

The people present seemed more enthusiastic towards the latter parts of the show than the beginning, likely because to most it didn't seem like the usual Friday cabaret music. A larger crowd than usual was present. The longer hours must have had something to do with this as the band was not well known here before that show.

The dance floor kept full most of their playing time and the dancers didn't take long to get up again for their

encore.

The show was the best seen here in a long time, and likely won't be outdone in a hurry. It would certainly be a treat to have them back again some time.

Convincer

Once again an able-bodied Nugget Newsmen risks life and limb to bring you the "best" (?) of news.

Straped into place I crashed head-on into a wall at the fantastic speed of "5" miles per hour. (More likely 2 - 3 m.p.h.)

Was I convinced? Will I wear belts? Do I fear death or asphalt? To sum it all up in one word - NO. And I probably never will be.

To briefly list all the reasons why I was not nor ever will be convinced as to the "good" points for belt adorning would require 40 refillable BIC pens, 20 reems of paper, 13 stereo's, the NAIT Secretarial floor (a guy needs relaxation), and much wasted time and effort.

All that I can say is that belt adornment is a private matter (like sex, it belongs behind closed doors).

Make up your own mind.

Commonwealth Cultural Travel

Project to India and Sri Lanka

A living experience with the cultures, customs and people of the Commonwealth will be shared for 37 days this winter by a group representing the Association for the Development of Commonwealth Cultural Knowledge Inc., a non-profit corporation based in Windsor, Ontario.

Behind the expedition is John Stevens, the association's Executive Director, who co-ordinated a contingent of 127 Canadians on a similar expedition in 1974. John is looking for at least 50 people from Canada, and the United Kingdom to qualify as members of the expedition.

Applicants will be screened on the basis of their genuine interest in furthering the development of Commonwealth Cultural Awareness. People who have experience in travel or interacting with groups, and those with amateur performing talents will get first priority. It is also necessary

that all participants be in good health.

Once accepted, expedition members will pay \$1,450, plus \$75 registration fee and \$5 for association membership. Then they will spend four days in London, England, experience in Sri Lanka (formerly Ceylon) for ten days, live on a train for 20 days as it travels throughout the Indian sub-continent, then stop for a tour of Amsterdam on the way home.

The adventure lasts from December 1 to January 6, and includes on-site lectures, yoga instruction, visits to the religious, cultural and historic places, visits to educational institutions and the Commonwealth Institute in London, and meetings with both dignitaries and the average citizens.

While the experience will further the participants' personal interest in Commonwealth peoples and cultures, they will also be training themselves to be

(Continued on Page 4)

Pub Time Trail Run

Affable members of the "Imbibing society", here is a rousing message for you. Our humble clan, the Activities Committee, has embarked upon a new proposal. They call it Pubtime (trail run), and it is allocated to be held November 26. The committee wishes to forego their cabaret drafted for that date.

Here, you have the opportunity to bring your own beer to wet your whistle in the comfortable surroundings of the North Lobby, alian "rug room".

Be with your friends and converse between the hours of 4:15 and 8:00 without the vexation of a grumpy waiter. Remember, that momentous date: November 26.

Testimonials For Seat Belts

In this following article the Nugget has found a few people who are in favor of wearing Seat Belts.

"As a passenger involved in a head-on collision on Groat Road in March, 1975, I firmly believe that the seat belt I was wearing at the time of the accident saved my life.

The driver of the other vehicle suffered multiple facial cuts as a result of striking the windshield. In all probability, these injuries could of been avoided if he had been wearing his seat belt."

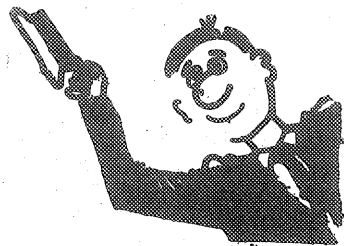

"It has long been a policy of B.C. Telephone for all employees to wear lap belts while travelling in company vehicles. Two employees of an associated company, Canadian Telephones and Supplies had their lives saved by this policy.

During the winter of 73-74 while travelling in a severe blizzard, their pickup truck collided with another truck stalled on the roadside. The impact was severe enough to drive the engine block back and beneath the seat. A 45 pound tool box in the rear of the truck came through the back of the cab and lodged between the two men.

The truck was a write-off by the company but neither man sustained any serious injury, because their seat belts prevented them from exiting via the windshield."

Note: Obviously the seat belt is not going to prevent injury or death in all cases but it definitely will help in most situations. The above testimonials were only a couple of the many provided. Editor.

Commissionaires Corner

Parking — Weekday Evenings

By S-SGT Johnston

Evening Course Students — First Come - First Served - After 1700 hours - (5 p.m.) all parking lots are open for free parking. EXCEPT - Main Parking Lot (106 Street - at the flagline) - Parking Stalls - ... "Reserved - 24 Hours"

Evening Instructors — Must have decal in front windshield to clearly show identification and ensure parking. Without a decal, Commissionaires on duty must refuse parking. Decal not valid before 1700 hours.

Evening Visiting Lecturers — Must present visiting Card to Commissionaire on duty or accept possible refusals to park.

Evening Support Staff — Caretakers, Commissionaires, etc., must park in west lot. Park in stalls vacated by day staff.

Evening Gourmet Diners — Must park in vacated staff stalls, automotive lot on 106 St.

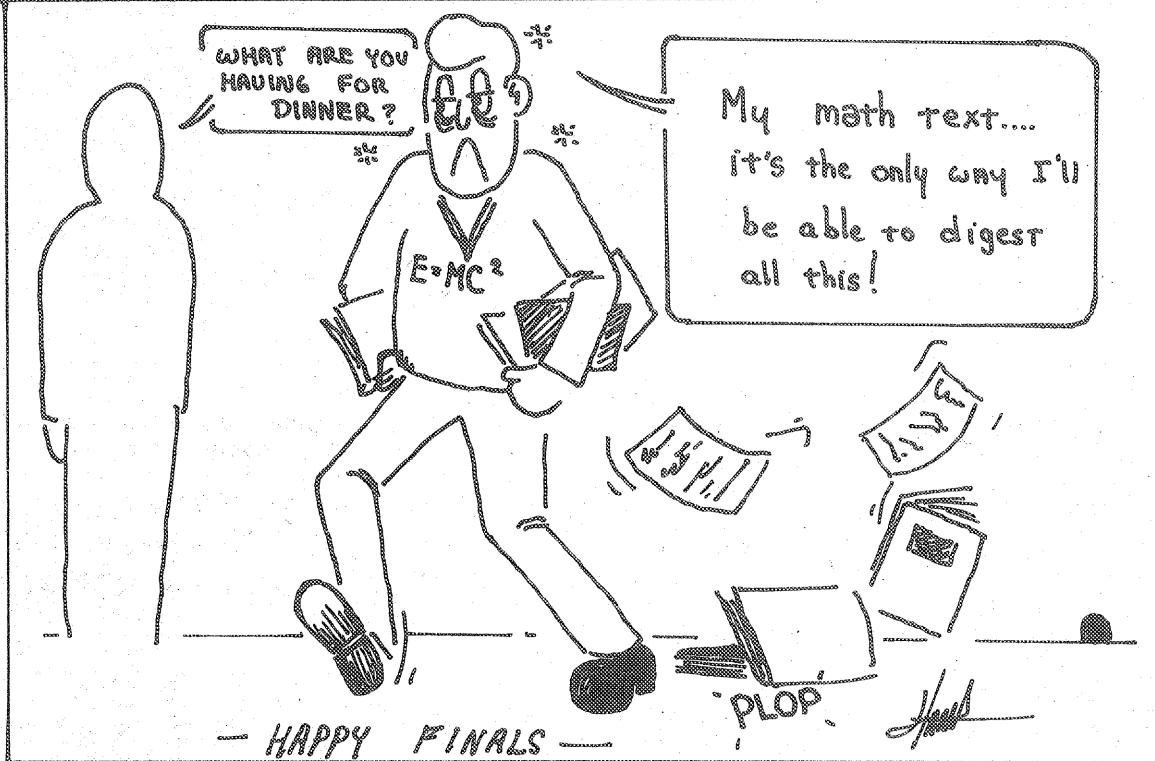

Evening - Taxi, Other, - Passenger Pick-up — Must not use the main lot - (106 St.) and inner institute lanes and areas.

Please use the parking lane located on the curb (outside of the flag line - 106 St.)

The reason for this request is to prevent build-up of motor vehicles in the main parking lot and consequently blocking of parked vehicles attempting to vacate parking stalls.

Evening Fire Lanes and Inner Institute Areas — Motor vehicles discovered by Commissionaires that are blocking any parked vehicles, parked in fire lanes, attempting to pick-up passengers in inner institute areas - will receive a FINE and possible TOW-AWAY.

Commissionaires ask for your co-operation and to remember — When in doubt of where to park or puzzled by an unfamiliar area - ALWAYS - seek out and ask - a NAIT Commissionaire — Thank you.

You Know You're A Jock:

— when you wear your favorite track shoes to the co-ed!

— when girls only go out with you because they want to wear your team sweater around campus!

— when you've chugged a case of 24 and you wonder where you've put your pint!

— when you start the semester taking 5 courses and end it with two!

— when you find a note on your locker saying, "recognize anyone's head?"!

— when you can't find a place to live after you've been evicted from Memorial!

— when you think contraceptive is a new play and you ask your coach about it!

— when you get an 80 in Maczinski's history and you didn't even know you were enrolled in the course!

— when your girlfriend gets pregnant and you can't figure out how!

"Carrie"

This poem is a critical review of the movie, "Carrie" which is playing at the Capital Square Cinema. "Carrie" was written by Stephen King. I recommend the movie to be brave among us only.

King's Queen's 6's
Carrie's body is cold and needing
But no-one listens to her pleading
She's so perplexed-shocked inside
Her dimensions soon begin and collide.
Carrie's got the powers
Carrie's got the powers
Carrie's mother shall cleanse her soul
And send the evil to it's hole;

Where upon Doll shall reign
And it shall reap with her new-found claim.
Carrie's got the power
Carrie's got the power
With her love - she shall dance
Upon the Dias of Romance
Until the Laughter rocks her sense
And Carrie calls forth her power defense.
Carrie is the power
Carrie is the power
Carrie shall kill and Carrie shall die
And only the power remains on high
But it shall remain only a while
And, then Doll shall once again Smile.
P. Barry Bourk

Retail Outlets Criticized

The Alberta Federation of Labour had sharp comments to-day towards retail outlets who observe Remembrance Day by holding "holiday sales".

Reg Basken, Federation president said, "The problem of stores remaining open for business on holidays must be dealt with by the Provincial Government. An increasing number of stores are observing holidays by advertising sales to attract customers. It appears that greed and profit take precedent over special days of observance established by society."

"The employees in these establishments are deprived of these holidays and many small businesses are being

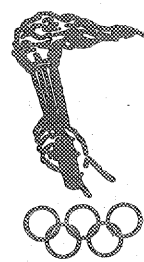

forced to open because of regulations established in large shopping malls," Basken said.

It has been a long standing policy of the AFL that all non-essential businesses should be required to close on holidays. Basken said the Federation is pleased that the Retail Merchants Association is now seeking store closures on holidays and the Federation will join with the Retail Merchants Association in seeking legislation in this area.

Basken congratulated those businesses who remained closed on Remembrance Day. He concluded by saying "those businesses who opened at noon are displaying nothing more than tokenism."

Meet The Man → → Art Hooks

Mr. Art Hooks, assistant Director of Student Services, was interviewed last Wednesday. This is a continuing effort to discover some aspects of prominent members of NAIT.

I asked him what an Assistant Director was. He said, "essentially, the main responsibility would be working with student government as an advisor to them. Also, to help them co-ordinate some programs that they don't have time to do."

"A lot of my time is spent with the Activities Committee. That means from

bringing in films for weekend movies, to helping set up cabarets, and bringing in bands.

"A couple of times a year, we have a couple of large functions... (concerts). We bring in fairly expensive bands for that.

"The common-hour activities committee is responsible for that and I think we're going to see a bit of change in the format. The committee feels that right now we're probably doing the wrong thing. Bringing in singers doesn't seem to be doing the types of things we want common-hour to do." NOTE: This is because of poor attendance at these functions.

Mr. Hooks said that the committee has been trying to "drum up" some ideas for common-hour. He mentioned other responsibilities of the assistant director by saying "I work with foreign students and attempt to assist them in their stay in Canada."

"I work with CUSO, the Canadian University Services Overseas, whereby students apply to get a posting overseas in another country. They can do this through CUSO, and this office is essentially responsible as a 'go between.' They apply here, we interview them, and send the information on to Ottawa who will accept or decline the person."

"The student I.D. card originates from this office. This office is responsible for producing up to 10,000 different types of cards a year—library I.D. cards for night people, I.D. cards for day-time students, I.D. cards for staff."

"NAIT goes out to a (career) fair in another town. They (the towns) have various career fairs and I co-ordinate that program and make sure NAIT is well presented."

"Housing? Though we don't have housing as such, we work along with the Alberta

Housing Co-ordination in an attempt to get the students placed in the housing across the street."

Mr. Hooks said that he is a member of the board of the Alberta Housing Corporation and the students have to apply through them. He said, "the applications are reviewed by this board, and if accepted, then an attempt is made to put the students in these houses if vacant."

"We have a housing list that is computerized. We put up new lists once a week of housing available for students. This list is on the counter (of the office), one list is across from the Nugget Office in a glass case, and another list is down at the 106th Street entrance."

Moving on to other duties of the Assistant Director, he mentioned, "I personally co-ordinate the students' capital and supply budgets."

"I work for Mr. Meadus in special events as graduation

and Open House."

"My major responsibility is to work with the student government and maintain a good working relationship with them."

Mr. Hooks pointed out he is to assist them in co-ordinating their activities; to assist them in anyway he can.

Several years ago, a meeting was held amongst the President of the Student Association, and Mr. Meadus,

and Mr. Hooks. It was decided then that the Assistant Director act as a business manager as well. What has come about from that meeting?

"I set up personnel for the student stores. I hire and train the personnel for the games room. These people report to me. So I act as the responsible person."

But why does he want to be the responsible person? It seems that it all started nine years ago. Mr. Hooks said, "I

Engineering is one thing. Engineering for us is quite another.

There's nothing dull about engineering your own challenge. And that's where your Engineering career in the Canadian Armed Forces begins. From there, your career possibilities are unlimited. In the Canadian Forces, the different engineering disciplines are divided into 5 major classifications:

- Maritime Engineering
- Military Engineering
- Land Ordnance Engineering
- Aerospace Engineering
- Electronic and Communications Engineering.

You'll work with varied and sophisticated equipment on challenging projects in many parts of the world, face the responsibilities of leadership entrusted to you as an officer in the Canadian Armed Forces, and you'll enjoy the opportunity of working in all fields of engineering without being overly limited to any one.

Accepted qualified applicants will be given officer rank on entry, and an excellent salary along with many benefits. Security, promotions and opportunities for post-graduate training all add up to a worthwhile and personally rewarding career. If that's what you're looking for, it's time we got together.

Write, including your engineering qualifications to date, to the Director of Recruiting and Selection, National Defence Headquarters, Ottawa, Ontario, or visit your nearest Canadian Armed Forces Recruiting Centre, listed under "Recruiting" in the Yellow Pages.

SPORTS

Ookpiks vs RDC Kings

The Ookpiks travelled to Red Deer on Sunday to play the league leading RDC Kings. A determined effort by the Ooks fell short, as they lost a 5-4 overtime decision.

In a very scrumbly first period, the Ookpiks scored first, but RDC counted 3 fast goals to lead 3-1 at the completion of the first frame.

After a scoreless second period, the Ooks counted 2 goals in the third, the third goal coming at 19:56, with goaltender Gary Fortier on

the bench, and the Ooks with a sixth attacker.

RDC scored at the 2:59 mark of the overtime period.

The Ookpiks played very well in the initial 10 minutes of the game, and pressured the Kings into numerous mistakes. For the last half of that period, there was a complete reversal and the Ooks looked very disorganized, especially in their own end.

After a drastic first period, the Ookpiks regained some poise and played very well for

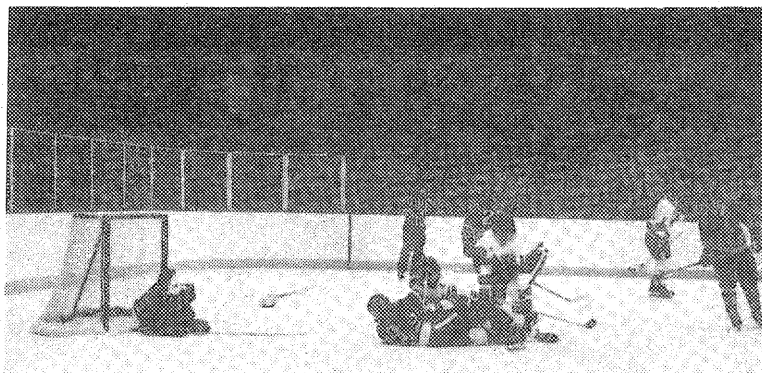

the final 2 stanzas and the overtime period.

Bob Holdone scored a hat trick for the winners.

The Ookpiks play at the NAIT arena on Wednesday, November 17, at 8:00 against the cellar dwelling CLC Vikings, and then travel to Calgary on Saturday and Sunday for afternoon encounters with SAIT and MRC.

The next home game for the Ookpiks is Tuesday, November 23, 1976 at 8:00 when they host the undefeated TDC Kings.

Ookpiks vs MRC Cougars

The NAIT Ookpiks defeated the MRC Cougars 4-3 in this first home appearance of the 1976-77 season. The game was very chippy, with the majority of the game played with at least one or two players in the penalty box.

MRC took an early 1-0 lead with NAIT having a man short. Don Rouiston scored later in the period, so the teams were tied at the end of the first stanza.

Goals by Jeff Milne and Bob Cruthers in the second period gave the Ookpiks a 3-1 advantage at the end of two.

MRC then scored 3 straight goals in the third period, to go ahead, momentarily, 4-3. The Ookpiks disputed the fourth MRC goal on the basis of an illegal stick, and as a result,

the referee disallowed the goal and MRC received a 2 minute minor penalty.

With about 5 minutes remaining in the game, Bob Cruthers slipped the puck through the legs of the Cougars goaltender to give the Ookpiks a 4-3 lead. This proved to be the winning goal.

The Ookpiks had a number of good scoring chances early in the game, but were unable to capitalize. Leading 3-1, the NAIT players seemed to relax, and soon MRC counted their 3 successive goals. Inconsistency again plagued the Ookpiks, as they had yet to play a full 60 minutes. The victory leaves the Ookpiks with a 2-2 record this season. Final shots on goal MRC 32 and NAIT 29.

Commonwealth Cultural Travel . . .

(Continued from Page 1) Informed Commonwealth lobby upon their return, bringing back new insights to be shared with their fellow countrymen.

"We are planning a Bon Voyage reception in Toronto before we leave on the expedition," notes Mr. Stevens, "with the High Commissioners of Sri Lanka and India invited."

"On our arrival in London, we will travel by private bus to a tour class hotel in the Paddington district. There will be orientation meetings each morning, and we will see the changing of the guards at Buckingham Palace, and visit Canada House and the Commonwealth Institute. At the institute we will be greeted by the Director and his staff. Lectures on the Commonwealth and a tour of the institute will follow, with Paul Martin, Canada's High Commissioner invited.

After a brief stop in Amsterdam we will be flown to Colombo in Sri Lanka by Singapore Airlines. Then we will visit tea and rubber plantations, beach resorts and hill station outposts, plus all the most famous sites on our ten day tour of the country.

"Our journey through India will begin with two days in Madras. We will be living on a train for 20 days, travelling mostly at night and experiencing the various cities by day. There will be many activities on the train, including yoga, disco dances, films and lectures. We will sleep four to a compartment, and notably each will be equipped with four fans. It will be hot in the south, but India is so big, it will be cold in the north.

"The trains first stop is Calcutta where we will spend a weekend. Next we travel to Varanasi, a city every Hindu wants to see in his lifetime. We will be in India's historic capital Delhi for five days including Christmas.

Arrangements are being made for us to visit with the Indian Prime Minister while in Delhi.

"In Agra we will see the Taj Mahal both by day and moonlight, also go to Jhansi, where we take a side trip by bus to see the exotic (and erotic) Hindu temples in Khajuraho. Again we take a bus trip to see the caves of Ajanta after our train arrives in Jaipur. Then we bring in the New Year in historic Bombay, and stop in Amsterdam and London on the way home.

Stevens adds, "There will be time for individual side trips too. I personally plan to take in a few plays while in London, and I think a few people will leave the expedition to visit Katmandu in Nepal. No one who makes this trip will ever forget the experience of a life-time.

To comply with the

Province of Ontario Travel Act, this project must be handled by a bonded travel agent. For further information please write or call: "House of Travel" 3100 Howard Ave., Windsor, Ontario. N8X 3Y8 or telephone 519-966-2000.

ADCK's plans for projects to Southeast Asia, the South Pacific, Africa, the Caribbean and the United Kingdom during 1977 and 1978. The theme being "Commonwealth Understanding". We hope schools take advantage of these, because they are very educational and are non-profit.

John will be happy to explain more about ADCK Aims, Objectives and Membership: write

John H. Stevens, Executive Director, ADCK, P.O. Box 1043, Windsor, Ontario. N9A 6P4 or call: (519) 252-4259.

ACAC Pre-Season Basketball Tournament

Faculty Cross Country Challenge

N.A.I.T.

VS

Red Deer

On Thursday, Nov. 11, Friday 12, and Saturday 13, ACAC basketball was held at Grant MacEwan College Mill Woods campus.

Nait's first game and loss was on Thursday, against the home team Grant MacEwan Griffins by a score of 71-49. Nait's first game against competition.

Their coach through, no fault of his own was out of town on business.

Half time score was GMCC 40 - 21. The beginning of the second half, NAIT came out and stormed for unanswered field goals (6) then out of nowhere we collapsed for 8-10 minutes. Final score GMCC 71, NAIT 49.

Game two NAIT vs. Camrose

Nait forgot Thursday's defeat to score a win over Camrose Luthern College 79-71. Roger Creamer high scorer for NAIT, 21 points, Wilf Gunderson 14 points, Elmer Herzog 13 points, Grant Glowiche 13 points. The coach is back with the team and says the team will get better as the season goes on. They will Jell-be competitive and play together as a unit.

Game three NAIT vs. SAIT Consolation Final

Our last game we lost to our Arch Rivals, SAIT by a score of 73-54. We hustled and got within three points all game till six minutes left and then let down and lost by 19 points. We made 27 per cent of the shots; 31 per cent the game before.

Last Chance Final Red Deer College vs. Grant MacEwan

Red Deer had a battle on their hands but pulled it off by 4 points to take third prize.

North American Baptist College Crusaders Basketball team took Mount Royal's basketball teams' place in the tournament.

A small college of 225 full time students, 181 on campus live in students - compare that to 5,000 full day students at NAIT not counting evening students.

This is a close personal relationship, something which doesn't happen in NAIT. Also the length of the course makes a difference, they have two and four year courses, so they get to know each other real well.

At the basketball tournament they had 9 cheerleaders, that's right 9 - NAIT had a total of 3 people (not necessarily cheerleaders). (I was one), a sister of one of the players, and a girlfriend.

At the final game between NABC and LCC, both teams played very well during the first half with Lethbridge leading 41-26. NABC never gave up, they played harder than hard - they would be playing what I thought to be super, then explode for 3 or 4 baskets to get within range of LCC, then go back to just 100 per cent. They are incredibly a well disciplined club. Their playing coach (product of NAIT) has respect from all his players and fans rightly so too. Final score LCC 76 NABC 62.

So to you NAIT's how about supporting your team?

Three NAIT staff easily handled three Red Deer staff in the first annual Red Deer College Faculty Challenge Race in Red Deer on October 16.

Running for NAIT were Frank McNamara, John Reeves and Ellis Hammer.

The Faculty Challenge was run in conjunction with the Annual Red Deer Invitational Cross Country Meet. The NAIT men's team finished second behind Red Deer. Running for NAIT over the 3.1 mile course was Bevan Becker (first) 16:54, John Ryma (ninth) 19:08, Joe McAnally (twelfth) 19:41.

The NAIT women's team was represented by Cynthia Stout (Administrative Management) who finished seventh in 9:01 in the 1.2 mile womens event.

The NAIT staff times were: Frank McNamara 19:31, John Reeves 20:34 and Ellis Hammer 21:00 over the 3.1 mile course.

Sexism Sells

NEW YORK (LNS-CUP) -- To attract customers to their stores, owners should "reinforce the stereotypical roles of both men and women in their advertising," a speaker at a workshop on retail advertising told a recent gathering of retail executives.

In "successful advertising," according to the speaker, advertising executive William Huckabee, "men act and women appear."

Meet The Man → → Art Hooks . . .

(Continued from Page 3)
completed my degree in Physical Education . . . and I was going to go back and take another educational degree. A friend of mine said . . . they are short of staff members at NAIT - the government has an emergency situation. If it's an emergency situation, they can hire you without advertising. I came over for an interview and I was granted the job as a physical education instructor.

In my first year here, I worked with the students in that area and also handled the intramural programs, so I worked with the students at night. I also worked with the intercollegiate athletics and I guess I found I really liked working with the students.

"The following year, a job came up here and I had the opportunity to apply. It was

for an assistant to Garry Meadus. At that same time, a job came up at the university which I also wanted to apply to because that was the big thing in life - to go and work at the University of Alberta. It was to me because I liked it over there, I had a good relationship with people over there. It was sort of a hidden dream to go back to the University of Alberta in the athletic department.

"I nearly applied (to the U and A) but I thought it over. I talked to Garry Meadus about the struggle in terms of going back to university.

"I thought about the one year I put in here and the enjoyment I got out of it. So I decided to work with Garry Meadus. I stayed athletics plus foreign students, CUSO, the I.D. card system, and some special events. And that

went on for three years."

Mr. Hooks said that Garry Meadus went away for a year and a half. During that time, Mr. Hooks became the interim director, and he got a taste of student government and student activities other than athletics. When Mr. Meadus returned, Mr. Hooks expressed the enjoyment of working with the government with its new ideas and attitudes. About that time, Garry Meadus consented to letting Art Hooks continue in this added capacity. Mr. Hooks said, "Working with student government has been a really 'neat' type of job because you don't know what's coming up from day to day. You certainly can't second guess them."

"I've had problems - personality clashes, but essentially I've been able to

get along with them. I attempt to act as an advisor . . . but I've found out about student governments. They'll only listen to so much, and then they'll tell you to go to 'hell' if they think you're wrong. I think that's great.

"I think it's a great relationship when you can sit down with young people and if they think you have good ideas, they'll accept them. However, if they think you have bad ideas and you're in a position of influence, they don't accept them. You can't push 'crap' down their throats."

What does Art Hooks have to say about memories? "So many things happen over the years . . . I just have real good memories of the people I worked with. It's nice to see them again . . . (when) they'll tell you that the type of things

we did when we worked together had value to them and became important to them when they left here and went out into the business world.

"It's kind of neat . . . when you think that some of the things you're doing are helpful."

"The fond memories are working with the past governments."

What are the plans for this year? "I don't set different goals every year. I just set a goal of working with the student government. I suppose the goal to try and achieve each year is satisfaction to them and satisfaction to myself."

Mr. Hooks wishes to act on behalf of the students at NAIT. In a final comment, he said that he sort of sees himself as the conscience of the students.

What does Ricard taste like?

Easy!

Ricard tastes just like licor . . .
... no, I guess I can't really say
just like . . . but it does when it's straight (almost),
but not in a . . . um, say a RICORANGE,
with orange juice and grenadine (just
a touch of grenadine) . . . of course,
serve it with ice water . . . no, Stanley,
no ice — ice water . . . and it does taste sort of
like . . . no, certainly not anything like that. A
Parakeet is altogether something else. It's made
with soda water — and green Crème de Menthe

well, Ricard tastes like what it is. A Pastis. What's
a Pastis? Well, it's made in France . . . and it

and it doesn't taste any-
thing like water (and it
has to be green Crème
de Menthe) . . . But no
matter what you serve it
with, Ricard still tastes
like . . . well, like . . . um . . .

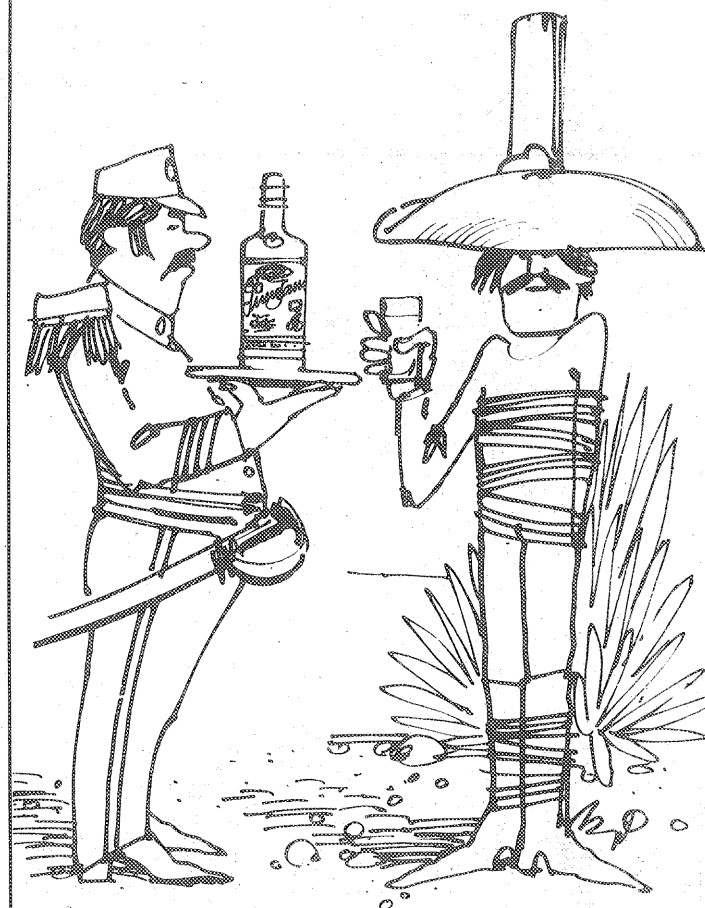

tastes like . . .
well, like . . .

RICARD

a truly unique taste.

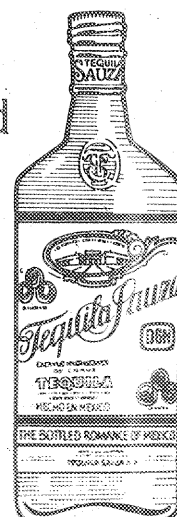

One Last Shot

When you're drinking
tequila, Sauza's the
shot that counts.
That's why more and
more people are
asking for it by
name.

TEQUILA SAUZA
