#### Queen Week

Ever wish that just for a second, a minute, an hour, a day, a week, a month or even a year that you could be NAIT's No. 1 lady. The one that all the guys look at as you pass them in the hall and they say to themselves or their friends or maybe even you, "Hey, she's our queen" she's MISS NAIT.

Did you ever just wish that that girl could be you.

Well for seven young ladies at NAIT:

- Miss Marketing
- Miss Civil Eng.
- Miss R.T.A.
- Miss Bio-Vet Sciences
- Miss Drafting
- Miss Computer Systems
- Miss Telecommunications

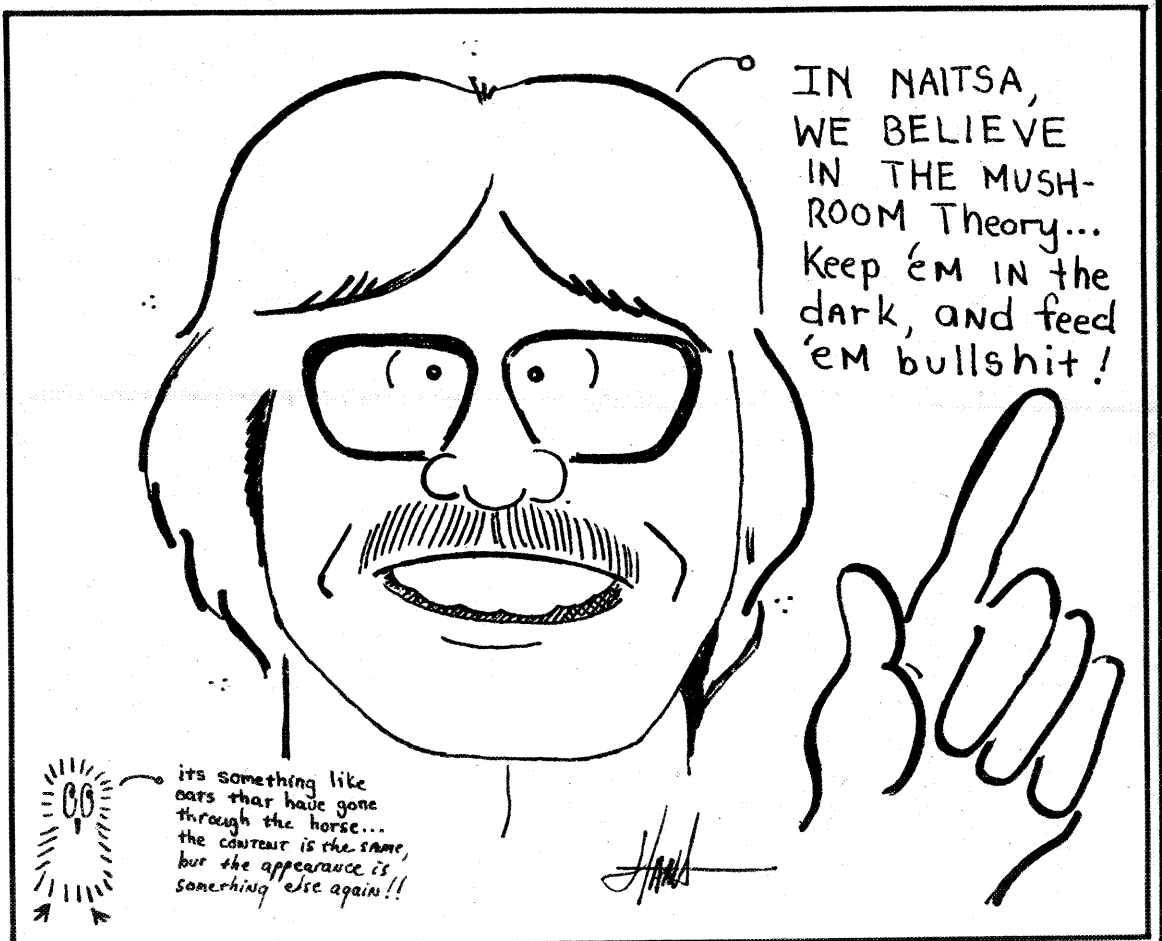

that dream will be very real and very possible for at least 5 days (Monday, Jan. 24 - Friday, Jan. 28 and for one of them the impossible dream will come true.)

But what is it really going to take for that dream to come true. If one removes all the gibberish involved in contests it basically stems down to 3 things which will decide between winning and losing. They are: (1) The candidate - she must be pretty, intelligent, (average above 65 per cent); personable, and be in possession of the features and options (details withheld) that are most likely to turn the voting public in her favor. But even so this only constitutes 30 per cent of the total vote. (2) The organization - Behind every successful business there are hard working and creative people, and

so the same applies to individual technologies sponsoring their queens. Your queen can be a runaway in the voting department but unless the technology is behind her, is giving 110 per cent, one of the most important parts of the contest will be lost. Unless nearly everyone in their technology is willing to help out a goodly portion of the 40 per cent that is allocated to the pyramid building, pie eating and other contests that take place will be going to the other technologies who have supported their candidates both financially and by actively participating. (3) The third and final thing that shall decide winning and losing is the judging of the queens in the fashion show. This is worth 30 per cent of the vote and this will be a joint effort between the contestant and

her organization as to who holds an inside edge in the judges mind. The judges will be judging on beauty, presentation, grace and how the contestant looks. The judges personal preference will decide which contestant will hold the edge in this department.

To become MISS NAIT QUEEN 1977 is going to involve 5 days of long hard pressure packed hours for both the queens and her helpers and in the end it's all just to show who that yes MISS.....does deserve to be MISS NAIT 1977 and so she can fulfill what was once just a hope, a wish she held in the back of her mind. Good Luck Ladies.

### Referendum Vote

#### Two-thirds Successful

On Wednesday, Jan. 19 nearly 400 students filed into the main gymnasium to listen to Rod Osborne and his council explain why an increase in student fees for both athletics and the student association fund was needed.

After a brief 15 minute period which was made up of a short speech and then question answer period the students were then asked to vote on the three proposals.

Here are the final results:  
1. Request for \$5 increase in athletic fee assessment (\$10 - \$15), Yes - 306, No - 75, 80.3 per cent in favor.

2. Request for \$5 increase in the Student Association assessment (\$20 - \$25), Yes - 270, No - 107, 71.6 per cent in favor.

3. Request to delete section

20 of constitution and add the structure of present committee, Yes - 315, No - 47, 84.7 per cent in favor.

Since a 75 per cent majority is necessary to change any part of the constitution the request to increase the athletic fees and to add to the structure of the present committee were passed but the increase in student fees were denied.

Because of the heavy turnout of athletes the first proposal to increase the athletic fees was nearly guaranteed before the vote even took place and so it passed easily.

The second proposal to increase student fees was rejected although if another 3.4 per cent of the voters had voted yes it would have went

across as well. Probably the problem here is that there are not 75 per cent of the NAIT students convinced that council, any student council (not just this years) are spending the funds allocated to them in right areas.

So for next year NAIT students can expect to be paying \$35 with \$20 allocated to student association fees and \$15 towards athletics. I just hope that if an increase is asked for by council next year that it passes as inflation is readily eating up our student association budget and therefore fewer cabarets and other functions will have to be planned for next year.

The Students' Association would like to thank all those who went out and voted.

Editor

## Come On! If I Can Do It, So Can You

It has come to the Nugget's attention that the majority of NAIT students do not know about the blood donor clinic. Approximately 375 students appear to have stumbled over it (the ones donating the

375 pints), and if NAIT is to do its part (donating at least 1,000 pints) a few more of us had better get our asses down there and do some "stumbling". Let's see a true NAIT turnout.

## MISS MARKETING

**Rhonda  
Montgomery**

Hi, I'm Miss Marketing and  
'I'll Be Taken Care of Business'

Miss Marketing and Mr. Marketing  
Rhonda and Karl

Our 5'6" Blue-eyed, Beautiful Brunette made her first appearance in Edmonton on June 29, 1957.

Rhonda comes from a large family of eight children - and loves it! She spent her childhood years in town; and all of her summer beach-bumming at Alberta Beach. Miss Marketing's favorite sports are water skiing and skating.

Rhonda attended and graduated from Ross Sheppard High School. Following graduation in 1975, Rhonda became a full time sales person at Ben Moss Jewellers.

Rhonda is presently enrolled in accounting and finance and is being sponsored by the Marketing Administration Society.

Miss Marketing has enjoyed herself immensely since coming to NAIT and is looking forward to Queen Week very much.

# Miss Computer Systems

Who is bright and happy, cool and casual . . . in short;  
a special person, a special Queen?

Computer Systems presents their answer to the Queen  
Question, Miss Cheryl Black.

Cheryl enjoys life and would like to travel. She has an  
active interest in cross country skiing and dancing.

The perfect choice for Queen?

She has our vote.

We know she has yours, too.

# Engineering Design and Drafting Tech.

*Presents*

## MISS DRAFTING

**Gail Hart**

Our candidate for Queen, Gail Hart, is in first year drafting and finds NAIT a warm and friendly atmosphere to further her studies.

In addition to being Social Convenor, for the first year class, she enjoys participating in extra - curricular activities.

Prior to coming to NAIT, Gail taught underprivileged children at Grant MacEwan College for two years, which she found a rewarding experience.

Being the sister to four brothers, Gail thoroughly enjoys the outdoors and sports, especially football and cross country skiing. When time permits, she finds pleasure in playing the piano and working at the Coliseum.

# Miss

# R.T.A.

## Caroline Thorseth

Radio and Television Arts is pleased to present Miss Caroline Thorseth as their candidate for Miss NAIT 1977. Caroline is in her first quarter, and enjoys drama, dancing and sports, particularly hockey. She would appreciate your vote on election day.

# Miss Bio-Vet Sciences

**Cindy James**

Hello, my name is Cindy James and I'm proud to be representing Biological and Veterinary Sciences. I graduated from Ross Sheppard Composite High School in 1975. After graduation, my employment as a bank teller was a valuable experience because it gave me the chance to meet people which I enjoy very much. I am presently enrolled in Biological Sciences and my time at NAIT has been very interesting. I am looking forward to next weeks activities and I hope that all of you people become involved.

Thank-you, Cindy James  
Miss. Bio-Vet Sciences

# Meet Sandra McColl

## *Civil Engineering Tech's Queen Candidate*

I'd Love to Dance

If I'm Not "X" I Won't Play

My name is Sandra McColl and I am representing Civil Eng. Tech. in the Miss NAIT Contest. I am 20 years old and I chose Civil Eng. Tech. as a career because I worked in the engineering field after high school and I found it very interesting. I think NAIT is a great place and I am looking forward to next week's events very much.

## LETTERS TO THE EDITOR

Dear Mr. Editor:

This letter concerns your statements in last weeks editorial --re: parkade plug-ins.

I do not know what technology you are in but it's a cinch to see it's not electrically oriented. Your knowledge of your car's block heater is nil. Turning the block-heater off and on is not harmful to it. The very electricians who installed the new 1/2 hour off - 1/2 hour on system park their cars either in the parkade or in the other parking lots that are on the system. I ask you, are they worried about the premature failure of their cars block heater? You bet they aren't because there is no such thing.

You also state that this is

hard on the whole city power system every time the power is turned back on. This is rubbish. A rock thrown into a lake would have greater consequences.

I think \$4 a month is a very good price to pay just for parking in the parkade, let alone with plug-ins. Where would those 2,000 automobiles be parked if it were not for the parkade?? So as you can see, parking space is at a premium at NAIT and \$4 a month is a very good price.

I have not seen one car being boosted in the parkade because it has failed to start due to the block heater being off for 1/2 hour. So what is the bitch??

Personally, I think the idea is very good. It was not very expensive to install, is easy to

maintain and only consumes 1/2 the normal daily parkade power output. Take a look one day in the parkade when the temperature is above freezing and notice how many cars are plugged in. The percentage would be at least 50 per cent. This is an extravagant waste of power and Alberta's resources. Those 50 per cent of the people have adopted the attitude of "I paid for it, I'm going to get my monies worth." This is the main reason I think it's a good idea.

You also say that this system is saving NAIT a few pennies. This is not true. This system is saving a whole lot of pennies. Unfortunately I do not have facts to back this statement up. If you would like to verify this, the electrical foreman, Jerry Yelle would be glad to fill you in on the details.

Action has been taken to reduce power consumption in the class rooms. Last spring a timing system was installed

in the school which includes all exhaust fans and fume hoods. A timer will turn the circuits on in the morning before classes and off after classes. This was done because students and staff leave them running all night and this is more wasted power. It was estimated power saved would pay for the installation in two years.

Also in the spring there was a plan to reduce the class room lighting in the Tower Building, by taking one ballast out of every fixture in the classrooms. Whether this plan has been successfully accomplished or not I do not know, but this is something you could check up on, since you are so interested in conserving power.

It doesn't matter how many times you remind students and staff to turn off lights behind them, you can still find many fully lit classrooms at any time of the day. As a result, little stick-ons have to be made and stuck on every

light switch in the school. These read "If space unoccupied, turn off lights." I have walked into many rooms where these stickers are and found all the lights on. So you see, it doesn't matter how many times you tell people, they still do it.

My final argument concerns your full-time afternoon plug-ins. This is not a good plan at all. When you thought of this idea, did you consider people attending classes in the morning only

and people who have to leave suddenly because of illness or emergency? When they arrive at the car park their ears are frozen stiff because there was no power all morning. Your system only accommodates the majority of the people but the 1/2 hour on, 1/2 hour off system, accommodates 100 per cent of the people satisfactorily.

Yours truly,  
David Atkinson,  
4th Year Electrician

Walk a block a day.  
It's the first step.

## Volleyball Report

On Friday, Jan. 14, 1977 NAIT Women's Volleyball team played Grande Prairie Regional College. NAIT lost this closely fought contest 15-13, 10-15, 15-10 and 17-15. On Saturday in the return game NAIT lost this one 10-15, 15-1, 15-10 and 15-12.

NAIT is currently third in the league standings and coaches Bob Buchan and Ron Davies expect the team to improve before the playoffs.

Last Thursday Larry Highbaugh played our Women's team. The three hundred spectators were thoroughly entertained by the game. The scores of the 4 games were 14-16, 15-13, 15-12 and 14-16 with each winning 2 games.

Pat Randolph should be thanked for organizing this game.

# Now... more than ever the RCMP offers a rewarding career

If you've ever considered a career in law enforcement, now's the time to talk to the Royal Canadian Mounted Police. The opportunities have never been greater.

For instance, the RCMP is accepting applications from both men and women, married and single. And the salary scale has increased considerably. It starts at \$12,750. per year (\$245. weekly) with regular increases to \$17,625. (\$339. weekly) in the first four years.

If accepted as a member of the Force, you'll receive intensive training in all aspects of police work such as law, investigation, first aid and community relations. Then you'll be posted to a detachment where there's every chance to put your knowledge and talents to work; to earn promotion and, equally important, be proud of what you're doing for yourself and for Canada as a member of one of the finest police forces in the world.

So if you're a Canadian citizen 18 or over and in good physical condition, think about a career with the RCMP.

Call or write your nearest office or use the coupon. We'd like to tell you more.

# Men — A Female View

Dear Sir:

This is in reply to the darling who wrote the article "Women - A Male View" published in the NAIT Nugget, January 13, 1977. What a lot of gibberish! I wonder with what this male does his viewing with. Tell me truthfully all you males out there, does it not give you a feeling of pride to have your wife or girlfriend look glamorous. Why is it women to have a gorgeous hairdo or attractive make-up get alot of attention from the opposite sex. But don't mis-interpret this statement. By no means am I saying that makeup and a fancy hairdo make a woman. Far from it. Instead it enhances a woman. And if this is the only criteria by which a man judges a woman, then my sympathy to his wife, girlfriend, or

whatever.

How many males now spend hours (not to mention a goodly portion of their pay cheque) at hair salons mutilating their locks with permanent wave solutions, curlers, hairspray, and endure the agony (for the sake of vanity) sitting under those hot hair dryers? The sale of men's colognes, after-shave lotions, hair sprays, scented soaps, underarm deodorants, special whitener toothpastes, mouth washes, not to mention Certs, is fast catching up with, if not yet surpassing, the sales of women's cosmetics.

And to tell the truth, I love my guy to look and smell nice.

Name withheld by request

# Letter To Editor

Dear Mr. Editor:

On a recent visit to our local cafeteria I had a very disgruntling experience. Equipped with a 15-minute break and a measly dollar in my hot little hands I decided to grab a quick inexpensive breakfast of toast and coffee. Being a very conscientious and orderly student I quietly lined up. After a few minutes of standing in front of the counter watching the four ladies scurry about doing their various tasks while quietly ignoring my presence I began to watch the clock which was quickly and precisely eating up my precious break. At least something's eating, I thought to myself. Meanwhile the four busy ladies kept themselves occupied with their inseperable tasks. After

approximately 7-minutes of being ignored one of the less stubborn ladies took my order. Breakfast at last. My hope was for naught. Apparently the lady in charge of buttering the bread does not like to make or serve naked toast. Unknown to myself you get served quicker if you order a piece of cheese on your toast. After 5 long minutes of watching the late comers who ordered ham and cheese pass me on the right hand on their way to enjoying breakfast one very disgruntled student decided it was time to beetle back to class. Oh well I wasn't very hungry anyway,

Signed,  
Henry the poor, starving student

# Red Deer Blasts NAIT

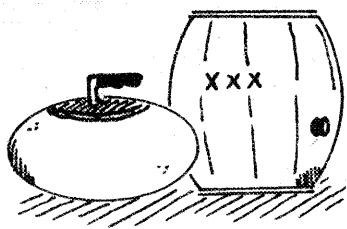

Tuesday, Jan. 11, 1977

Just when it appeared the NAIT OOKPIKS had turned things around, they got blasted 8-2 by the aroused and league leading Red Deer College Kings.

Generally, the OOK players went through the motions in one of their poorest performances this year. Red Deer's players continually forechecked and pressured the OOKS to turn over the puck. The OOKS were flat-footed from the beginning of the game and were particularly inept in their own end. This was primarily due to the excellent checking of the Kings. The Kings stayed on top of the OOKS throughout the game, and at one time, early in the third period, had a 6-0 lead.

## Telecom/Secretarial

DOUBLE HEADER!!

Another double event put on by the Telecom Club & Secretarial Society is coming!

The Bonspiel on Jan. 29 is already sold out, so if you didn't get an entry, all you have to look forward to is the Car-Pub in the spring. Tickets for the cabaret are selling well, so get yours NOW!

THE GLORIOUS BEER OF NAIT

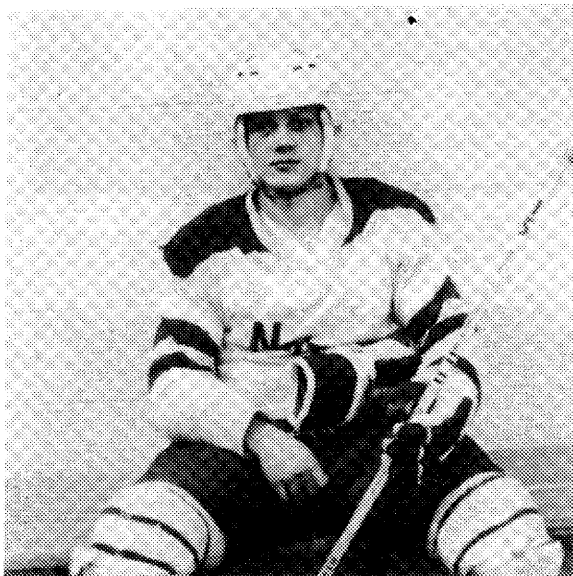

# Meet The Hockey "Oop's"

## Scratches and Selections

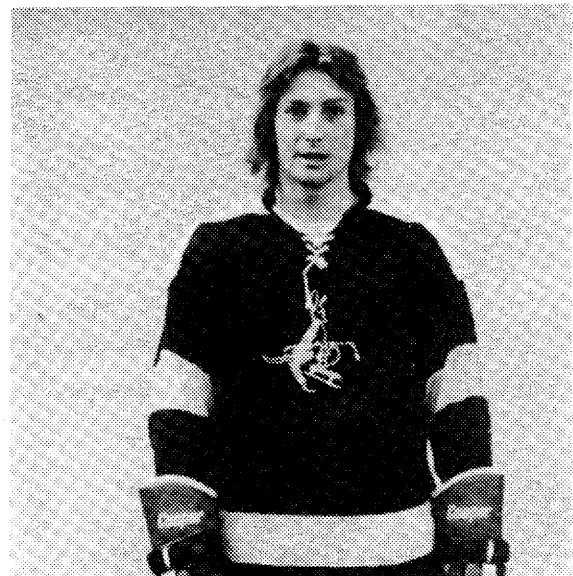

By Doug Murphy

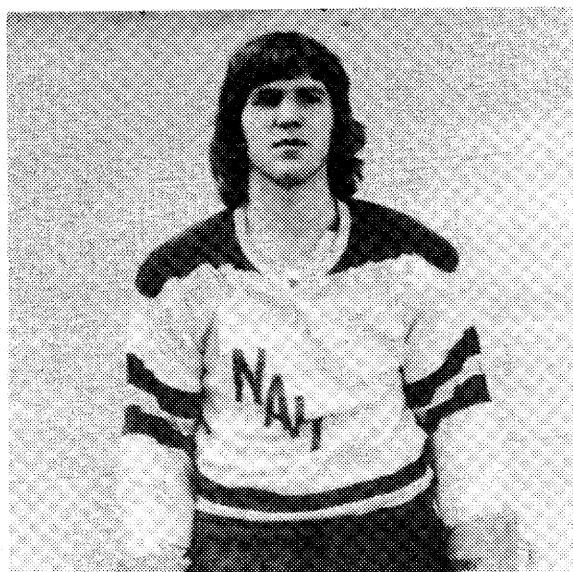

**DAN ROULSTON — LEFT DEFENSE**  
Playing superb for what he calls a bad season, possibly our number one player.

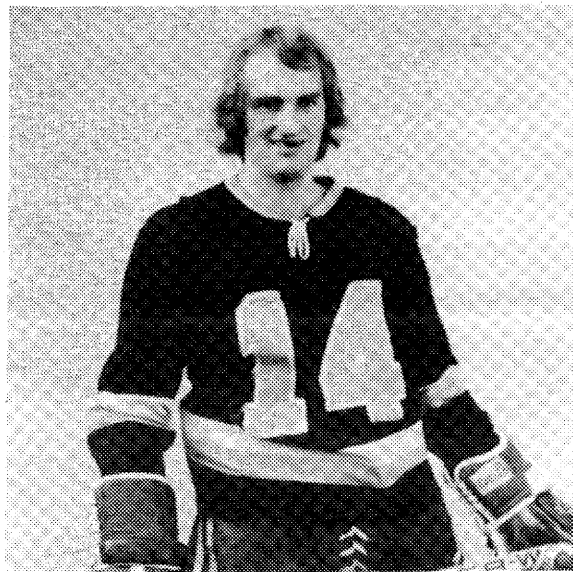

**BOB MARKLE — LEFT WING — CAPTAIN**  
Playing extremely well, another bright spot on a shady team, up in there for number one player. Bobby will have to get the boys going if we are to see an A.C.A.C. title.

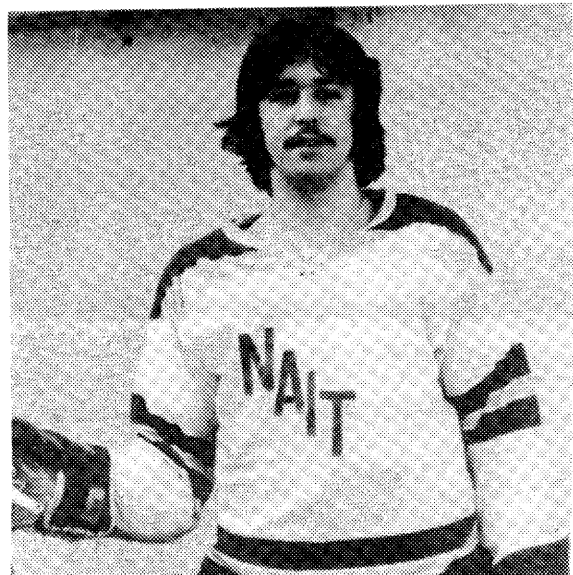

**PAT DITTARO — CENTRE**  
Back from an injury and not yet in top form, can be classed as the number two forward. If there is any hope for an A.C.A.C. title a lot depends on Pat.

**ERIC AUSTIN — RIGHT WING**  
Looks good after returning from an injury which kept him out of the first half of the season, however could play much better.

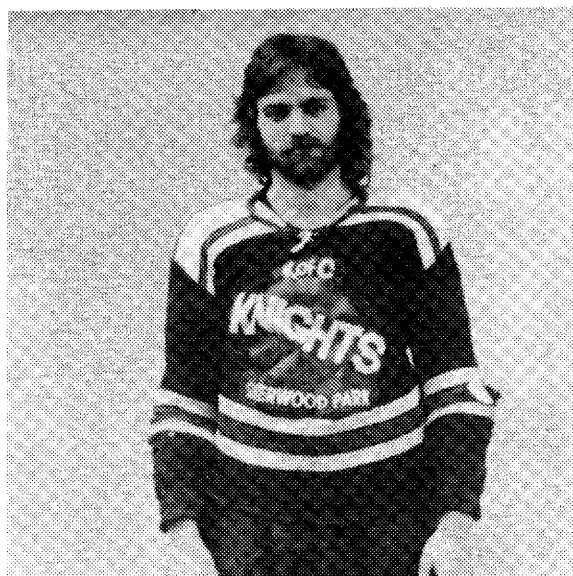

**GARTH LANE — RIGHT DEFENSE**  
After a shaky start, now has to be classed as number two defenseman, when not in the penalty box.

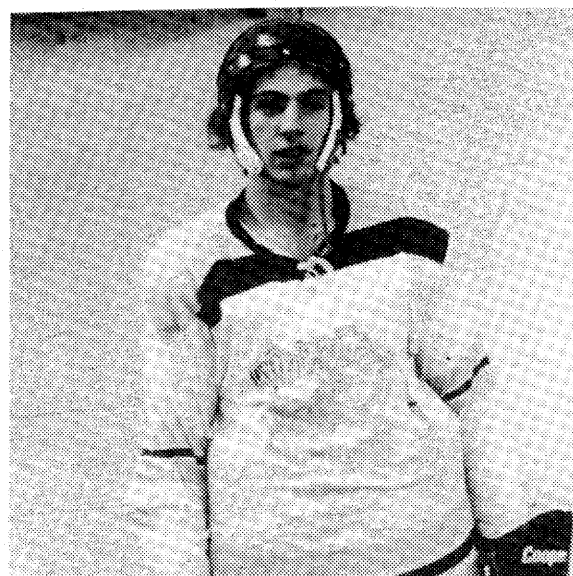

**LINDSAY LaRIVIERE — LEFT DEFENSE**  
Coming off injury, shaky, but looking good, fighting for number two defenseman spot.

**ROCKY SMITH — LEFT WING**  
Doing nothing but taking penalties, should be back in Sherwood Park on the bench instead of on our ice.

**BRUCE McCASKILL — CENTRE**  
Played his best hockey this year filling in for the injured defense, other than that a "choke", should possibly join Rocky in Sherwood Park.

**BOB CRUTHERS — RIGHT WING**  
Has finally started to show his goal scoring ability after a poor start; however, he has, like the rest of the forwards, forgotten what back checking means.

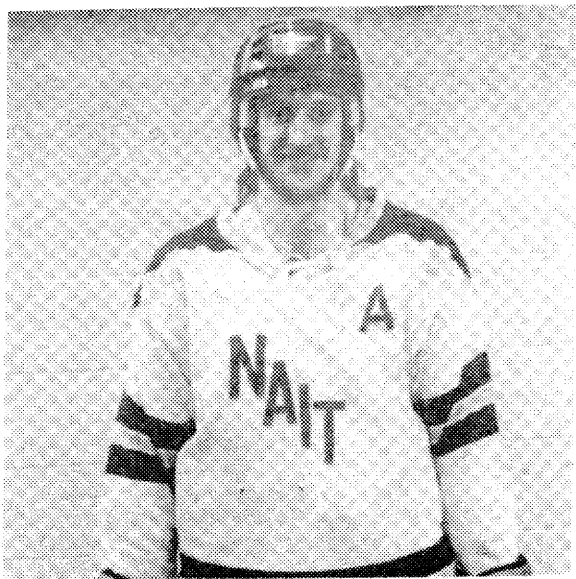

**BRUCE (RADAR) WATSON — STATISTIAN**  
Must be a masochist to continue to attend the games. Number One fan.

**KEITH GARRARD — MANAGER**  
A great job at a thankless job.

**BILL MILES — LEFT WING**  
Called back for one game and out of practice. Looked very impressive.

**SCOTT WRIGHT — CENTRE**  
Looked good but injured and out for the season.

**BOB LARGE — CENTRE**  
Not playing the same kind of hockey as he did with the Canadian Champion Camrose Vikings.

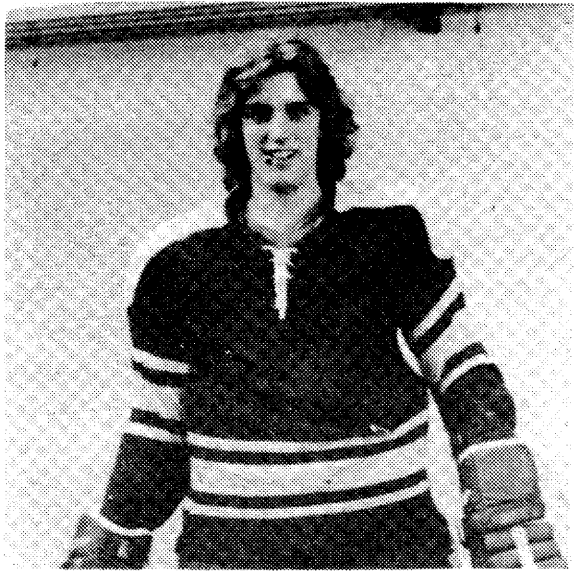

**ED PARANS — RIGHT WING**  
A centreman, not playing to his capabilities on the wing.

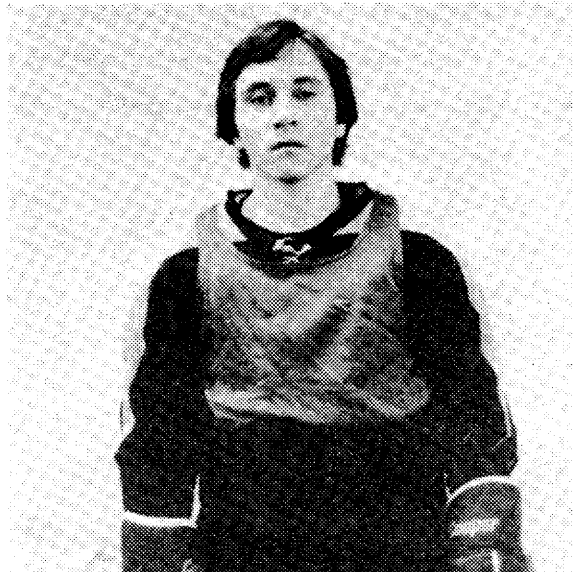

**CHUCK TETRAULT — LEFT DEFENSE**  
Fails to impress after coming back from injury.

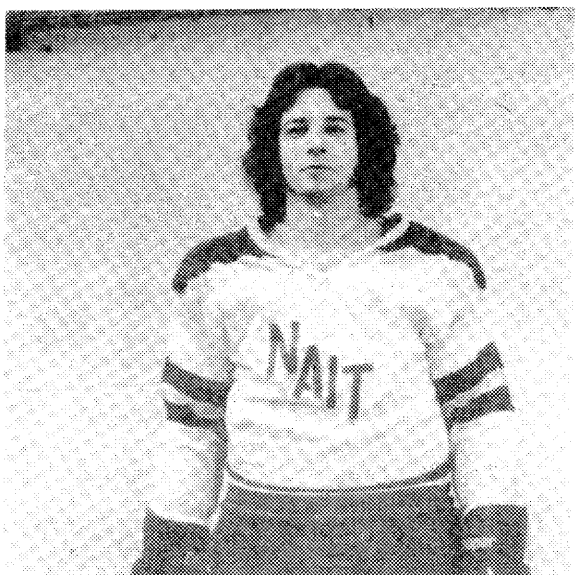

**WAYNE JOHNSTON — CENTRE**  
Started the season hustling and playing well, but now has found a warm and deserving spot on the bench.

**JEFF MILNE — LEFT WING**  
Turning in a poor imitation of playing hockey all year, rotates with Johnston in bench warming duties.

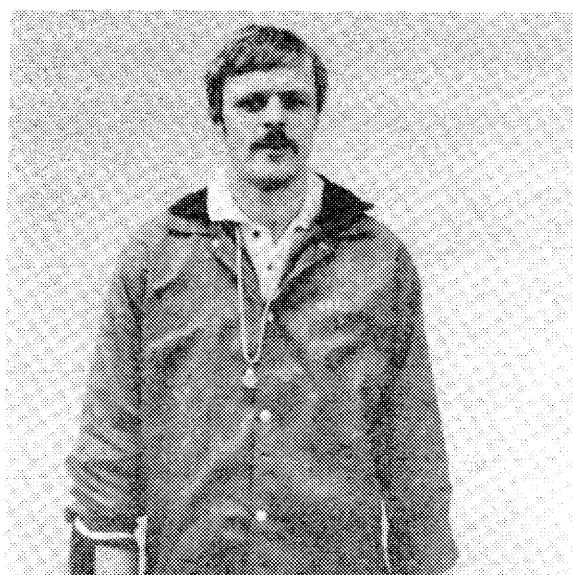

**GARY ALLIN — LEFT WING**  
Only Dale knows why he is playing.

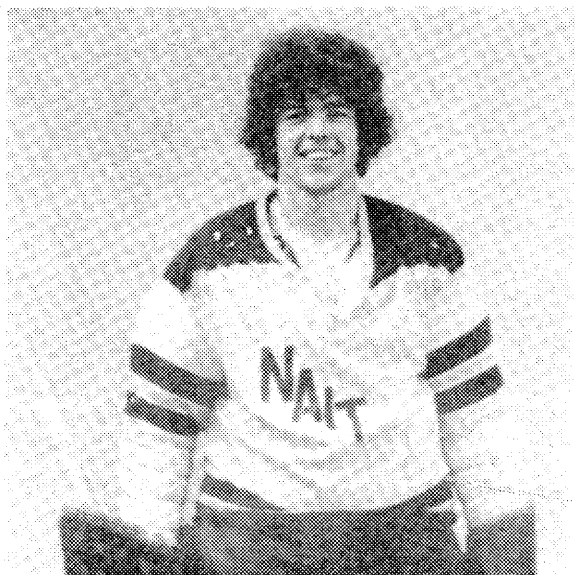

**LYNN BIESEL — LEFT DEFENSE**  
Does one thing well - panic, this panic can be directly attributed to more than 10 goals against.

**DOUG LABOUCANE — GOAL TENDER**  
Hasn't played enough to be judged.

**COACH DALE HENWOOD**  
Must be totally frustrated at trying to instill a winning desire into such a collection of losers. Great effort but a coach can only do so much.

**GARY FORTIER — GREG MCGINLEY**  
This goal tending duo is excellent. If goal tending won games by itself the OOK'S would be winning. Although Fortier is number one goal tender when McGinley is hot it looks like a toss up. One strong point on a weak team.

Next Ook's

Home Game: **January 29 - 2:00 p.m. NAIT vs SAIT**

-Good luck girls!-

## Hell It's Only Rock 'N' Roll

Michel Pagliaro is not the type who talks about aesthetics. He plays music-hard. C'est tout, simplement. People do talk about Pag. . . the voice reminiscent of Little Richard; the Rick Nelson stance; a touch of Neil Diamond, a McCartney melodic twist.

Among music critics, Pagliaro's superstardom is a foregone conclusion. Pas encore, "Quebec's best kept secret," they are incredulous that he has eluded the international spotlight this long.

Pagliaro is the only Canadian with gold disques - 10 maintenant - in both English et en Francais. He personifies the conjunction of primitive American rock-raw and nasty-with the stylized intensity of "Les Quebecois." Surtout, there is the British predominance of guitar.

Rock'n'Roll staples comme Dizzy Miss Lizzy, Pagliaro transfigures with the fever of his stuccato French. His heady, J'entends Frapper has been ranked with the classics, Johnnie B. Goode and Jumping Jack Flash. Critic Greg Shaw asserts that Pag is probably, "the first to do anything original to the French language." Some Sing (Some Dance), Loving You Ain't Easy, and Give Us One More Chance, have created a mushrooming Pagliaro cult.

Pag has been the idol of French Canada since he began his solo career with producer manager George Lagois ten years ago. Toujours, c'est la meme chose, when Pagliaro steps on stage with his back-up group "Les Rockers," pandemonium breaks loose. As a crossover artist, he has been successful in both A, and FM formats. He keeps getting better. Reviewing his first English LP on Columbia, Pagliaro I, Bill Mann, of the Montreal Gazette, stated flatly. "This is the most impressive work I have ever heard by any Canadian rock or pop artist."

C'est vraie. It's only Rock'n'Roll. But Pagliaro is Le Roi of The Rockers.

Smile  
if you think  
you're in shape.

Walk a block a day.  
It's the first step.

## NAIT Doubles SAIT

Summary and highlights:  
Saturday, Jan. 15.

Strong penalty killing helped the OOKS defeat the visiting SAIT Trojans 6-3 Saturday afternoon at the NAIT Arena. The teams were tied at one after 20 minutes, but in the second period the OOKS opened up a 3-1 lead only to have SAIT score 2 goals, thirty-one seconds apart, with less than two minutes to play. In the third period, the OOKS controlled the play and notched 3 unanswered goals.

The OOKS managed to control the play for the most part, but it was their penalty-kill units that played exceptionally well when the team was at a numerical disadvantage.

Bob Cruthers lead the OOKS attack with 3 goals, and now has a total of 9 goals and 5 assists in 5 games since the Christmas break.

Saturday, Jan. 29, the SAIT Trojans return to battle the OOKS in a 2 p.m. encounter.

The split by the OOKS leaves them at 6-10-1 for the season. They are in third place behind Red Deer and Mount Royal College.

## Mount Royal Unends NAIT

Friday, Jan. 14.

For the second game in a row, the NAIT OOKPIKS hockey team only went through the motions. Generally, the players lacked desire and second effort.

The OOKS had a 1-0 lead after the completion of the first 20 minutes, as the MRC Cougars also looked less than enthused. The OOKS had a 2 man advantage on two separate occasions but had trouble getting out of their own end. It appeared that neither team wanted the

victory, but in the second period, the OOKS wanted it less, as they allowed the Cougars to net three unanswered goals.

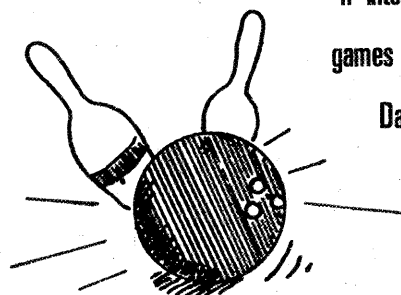

In the third, the OOKS pulled to within one goal (3-2), but shortly after, a bad pass by a NAIT defenseman set up a Cougar winger who waltzed around three other OOKS to put the Cougars ahead to stay. The OOKS never really tested the Mount Royal netminder as they directed only 18 shots on goal, 5 were in the final 20 minutes.

## WANTED!

2 girls for bowling team to go to Medicine Hat . . .

If interested see Mike (in the games room) or G. Lafferty or

Daniele for further details.

## Engineering is one thing. Engineering for us is quite another.

There's nothing dull about engineering your own challenge. And that's where your Engineering career in the Canadian Armed Forces begins. From there, your career possibilities are unlimited. In the Canadian Forces, the different engineering disciplines are divided into 5 major classifications:

- Maritime Engineering
- Military Engineering
- Land Ordnance Engineering
- Aerospace Engineering
- Electronic and Communications Engineering

You'll work with varied and sophisticated equipment on challenging projects in many parts of the world, face the responsibilities of leadership entrusted to you as an officer in the Canadian Armed Forces, and you'll enjoy the opportunity of working in all fields of engineering without being overly limited to any one.

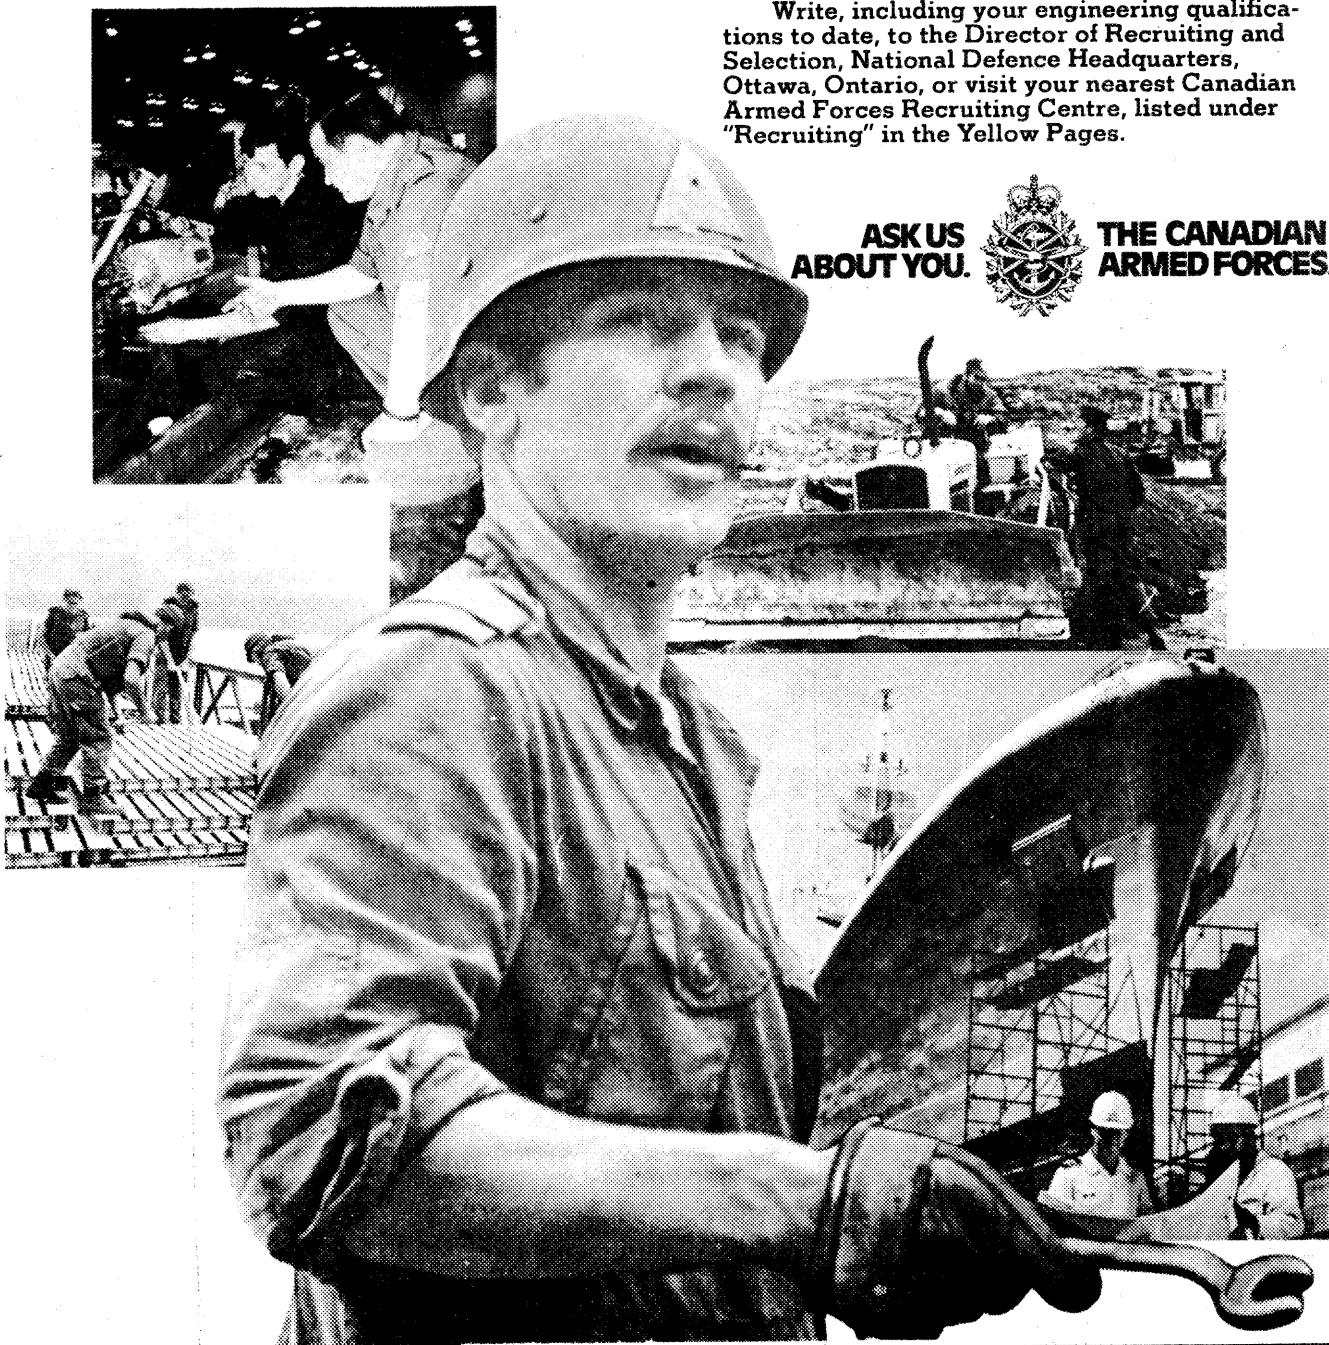

Accepted qualified applicants will be given officer rank on entry, and an excellent salary along with many benefits. Security, promotions and opportunities for post-graduate training all add up to a worthwhile and personally rewarding career. If that's what you're looking for, it's time we got together.

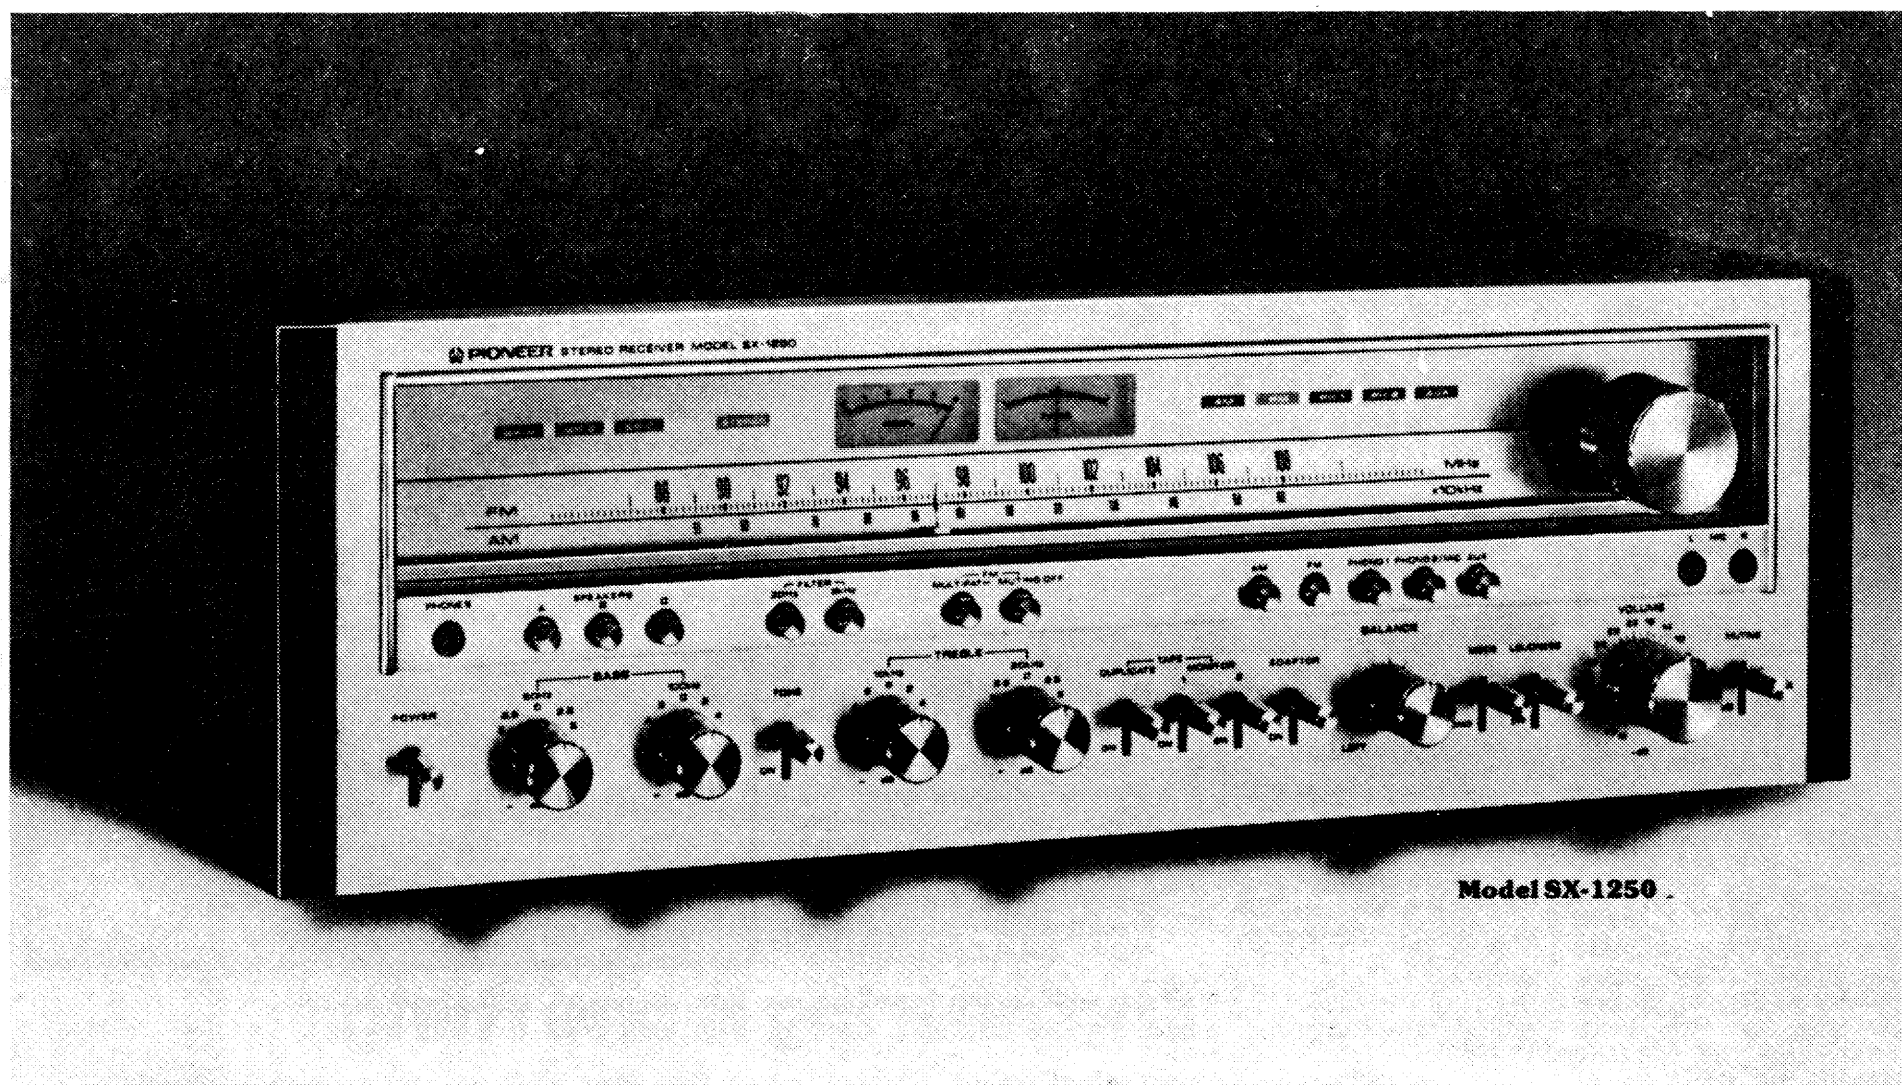

Write, including your engineering qualifications to date, to the Director of Recruiting and Selection, National Defence Headquarters, Ottawa, Ontario, or visit your nearest Canadian Armed Forces Recruiting Centre, listed under "Recruiting" in the Yellow Pages.

## before you buy any receiver ... check out our superlative SX-range

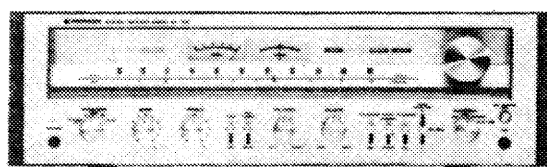

Model SX-1050

Model SX-950

Model SX-850

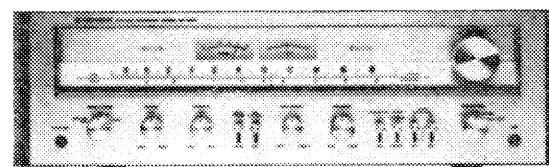

Model SX-750

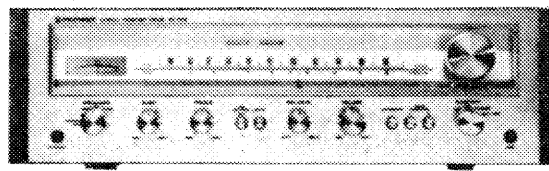

Before you BUY - ask yourself these questions: Does the FM tuner section guarantee high performance of spurious rejection and high sensitivity? Does it include the very latest in electronics for constant stable and top quality sound reproduction from small to large power output? Are you going to be proud to own it for a long, long time?

PIONEER's new and elegantly designed SX-1250 AM/FM receiver, shown above, does indeed meet all these requirements. It also offers mammoth continuous power output of 160 watts per channel, min. RMS at 8 ohms, from 20 Hertz to 20,000 Hertz, with no more than 0.1% total harmonic distortion. It is unlikely that the technical quality and handsome appearance of the SX-1250 could be matched by others at the price.

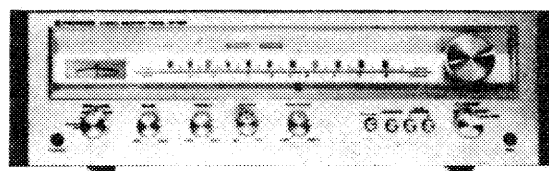

PIONEER's SX-1050 offers continuous power output of 120 watts per channel, the SX-950 - 85 watts per channel, the SX-850 - at 65 watts per channel, the SX-750 at 50 watts per channel, min. RMS at 8 ohms, from 20 to 20,000 Hertz with no more than 0.1% total harmonic distortion. The SX-650, SX-550 and SX-450 offer continuous power output of 35 watts, 20 watts and 15 watts respectively per channel, min. RMS at 8 ohms, 20 to 20,000 Hertz with no more than from 0.3% to 0.5% total harmonic distortion. Check them out personally - you'll be delighted.
