# NUCKET

Beerfest Reveals OOK  
is Female.

# n.a.i.t. news

## FRIED CAKE

Are you proud of yourself now?  
You should be! You did everything you wanted to!  
You wanted to go to the first Beer fest of the year and wanted to make sure you'd never forget it. (I'll bet you never will!)  
But the way you guys do it is so disgusting! You gals too, for that matter!  
Oh sure, you seemed so cleverly decoyed when you arrived at the arena dressed in your best jeans. But, you didn't fool anyone long.  
You blew it right off the start when you headed straight for the beer! What's a Beerfest for you ask? The point is even a regular Beerfester has cough.  
What you do first is you find a seat. Then courteously ask your partner to sit beside you (if there is a seat).  
Then you ask her or him to dance, but alas, there is no music!  
Now, you can go get beer.  
First date, right? Then why did you keep drinking and drinking until you couldn't see your feet?  
The time's about 1:00 and you should be getting home. But instead some jerk in the crowd announces he's going to continue the party at his apartment.  
Appropriately named an eviction party!  
Upon fumbling to the car you (and dolly) drive to the party. Snuggling together you both take the elevator to the 14th floor and knock on the door.  
Let's recap this for anyone who just stepped into this story now.  
You and your dolly are uncouth, drunk, can't see your feet and you're knocking on someone's door at 2:00 in the morning!  
Ah, you can let out a deep breath, you knocked on the right door. But the wrong apartment building!  
A guy comes out, 6 foot 8 inches 220 lbs, sweaty arm pits and a face cloth wrapped around his loins, with a crew cut!  
But you can't see anyhow so you ask in a stupified style, "Which way to the party"?!!  
The big kid with a crewcut starts getting red in the face, his head looks like a little cherry atop a huge piece of powerful machinery.  
"YIKES"!  
Dolly grabs your arm and the circulation is cut off, of course.  
You say to your new found gentleman friend very diplomatic, "Burp, 'scuse me"! Now you and dolly start running towards the stairs.  
The big kid is chasing you both and he's swearing and cussing at you down the stairs.  
He's getting closer, closer, you know because his face cloth is flapping profusely in the rush.  
Dolly trips on a stair and you both fall to the next level!  
You open your eyes and look up. There's your "mother" stупping over you saying, "My gosh you had a bad dream! It's time for you to go to class"!!

## BUSINESS ADMIN. NEWS

As promised here's the line on what's happening for you in October. The first B.A.S. Cabaret will be on October 28, at Sherbrooke Community Hall with "One Horse Blue" (formerly "Pickins") providing the entertainment. Being close to Halloween you can wear anything you like (nothing if it turns your crank), the wilder it is, the better it'll be. Something more immediate is the Admin. Man. Cabaret on October 7 at Bellvue Community Hall featuring the 5th Ave. Allstars. See the posters for exact location and ticket sales info.

Now for sports news. After a slow start everything seems to be rolling along great. However, some of you 2nd year people have been complaining about not getting any team together and out to participate. As you know 2nd year's have classes scheduled at your convenience, this makes it not practical if not impossible to try and get sports reps for each technology. So if you want to participate here's what you do:

- get your buddies together
- obtain an entry form from T405A
- return before or on the deadline
- go to the sports board by E133 to see when you play

If you still have complaints talk to your sports rep in T405A.

That's it for now.

Hank

## 2nd YEAR POOH

So its that time of year, that exciting week where the 2,500 odd second year students at our illustrious learning institution attempt to prove their so called "godliness" to each other, and what ever female (or male) that they are currently trying to corrupt. Naturally that situation is ideal to these seniors, but what about the hapless, frustrated, and misdirected, first year rookies against whom this sort of perversive, primeval form of initiation is practised.

I propose that this kind of activity could deeply upset a students life, both scholastically and mentally, as some of us are miles away from our home, being

rudely torn out of our easy paced High school days, and thrust out into the real world of "batching it". Believe you me, my two weeks of TV dinners, greasy hamburgers, and NAIT Cafeteria lunches (no offense!) has done more to mature and age me than the endless piles of home - work which are sure to crop up in the upcoming year.

Confronted by this influential and persuasive evidence it certainly is easy to picture the type of effect this could have upon us, the innocent, friendly, and studious new - comers to NAIT.

Either way this week turns out I'm positive that it will be an interesting and informative time for us all. So lets all get involved and back this weeks remaining activities, and especially the Beerfest, after all you know the saying about all work and no play. See Ya There!!

Randy Shai

Shinerama is one of NAIT's most important Fall activities involving, as it does, the total NAIT community.

The response and participation by the students in past years has been tremendous. Sunshine, rain, sleet or snow, our students have been out doing their best to raise a record amount per capita for the Cystic Fibrosis fund. The competition with our sister institution, SAIT, only adds to the fun and excitement.

You should know, too, that we receive some of the most touching letters from parents who have children with Cystic Fibrosis thanking the NAIT students for their efforts and support.

As you go out this year, I hope

you have good weather and are able to maintain our school record at the top of the list.

Classes will be dismissed at noon on Friday, September 29th for the Technologies, Business and Applied Arts Division, including the Technologies in the Industrial Division.

Pat Lukay, NAITSA Vice President, will be informing you when and where you kits may be picked up.

In the meantime, join in the fun and help give the Cystic Fibrosis fund a boost.

G. W. Carter  
President

## LIMITS TO GROWTH

Alberta Liberal Leader, Nick Taylor, today called on the provincial government to develop a "limits to growth" policy.

"Alberta's growth is not determined by the amount of gas or oilfields to be developed, nor by the space we have for settlement, it is determined by the amount of water we have -- potable drinking water, water for irrigation and water for industrial use".

Mr. Taylor says he fears the province may turn into another California resulting in the same problems for Alberta as face rain-dependent California. Drought, useless dams, over - crowded cities, and farmland going under to asphalt have a terrible effect on our future. 'Drought itself is made worse by the numbers of people drawing on limited water supply'.

"Alberta should follow the lead of the five Rocky Mountain States which have completed water management and growth studies and are now setting limits to population growth in each river basin".

Mr. Taylor says such studies in Alberta should tell the government how large the province can grow, how much water it has left for power and industry, and how much agriculture its water supply can support.

**WANTED:** Fun loving Girls' Tech (Court Reporting) requires a virile Guys' Tech to team up in raising funds. (cabarets, etc.) Contact Sandra E712 in the Tower Building or phone Grey phone 6092.

## NAIT BEERFEST A SHA-MASH

Did you ever wake up on Sunday morning and ask yourself what happened on Saturday night? Do you get all kinds of wild and crazy looks on Monday while you're walking down the halls? Does your head still spin, and your stomach shrivel when someone mentions beer? If you answered yes to any of the above, then you must have attended NAIT's first big \*\*\* of the year.

The band (Shamash), the crowd (rowdy), and the beer (cold) were the ingredients for a night that seemed to have endless side effects. The Beerfest was great.

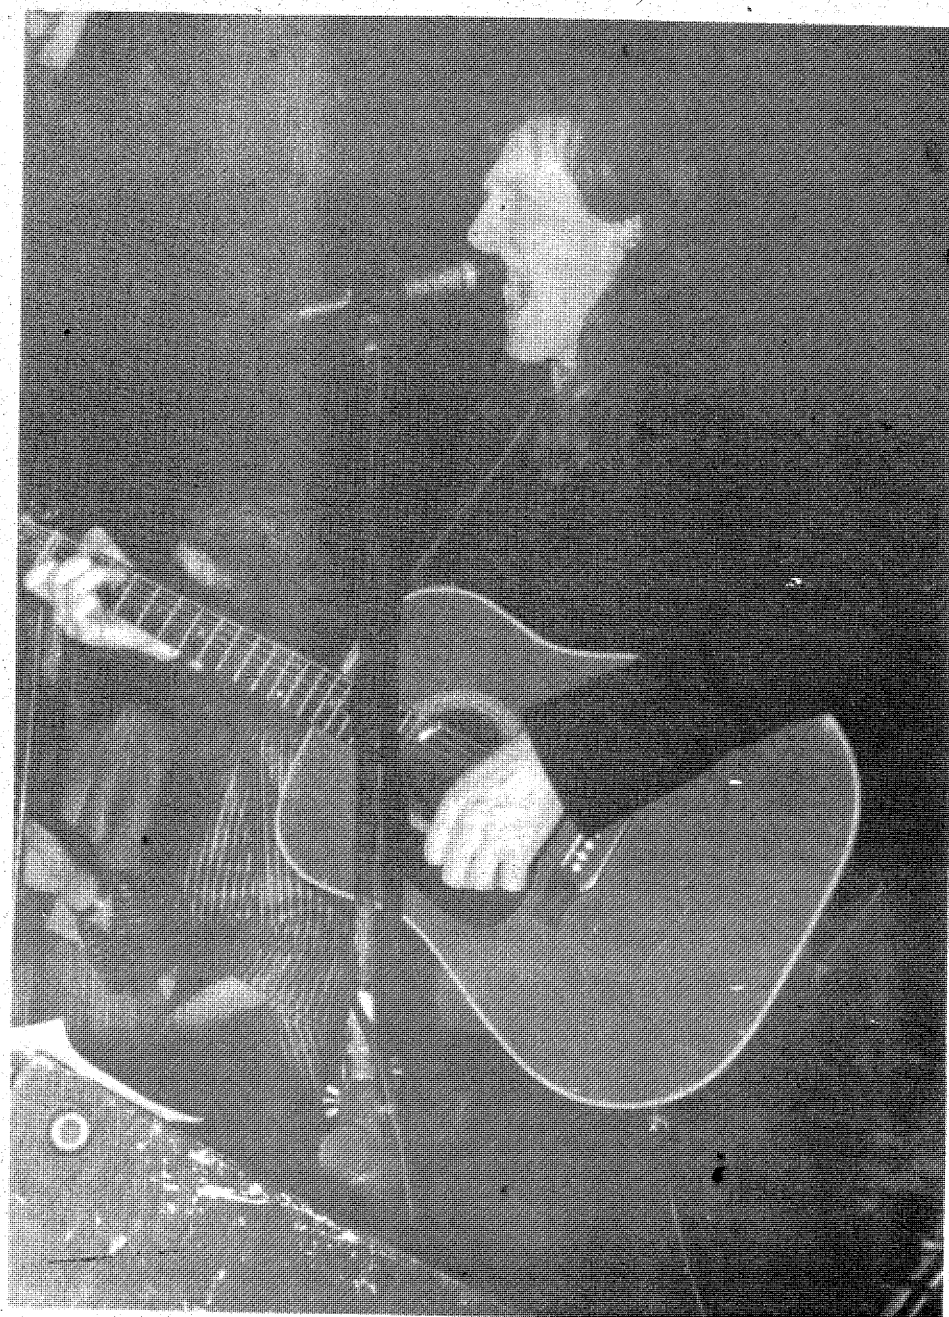

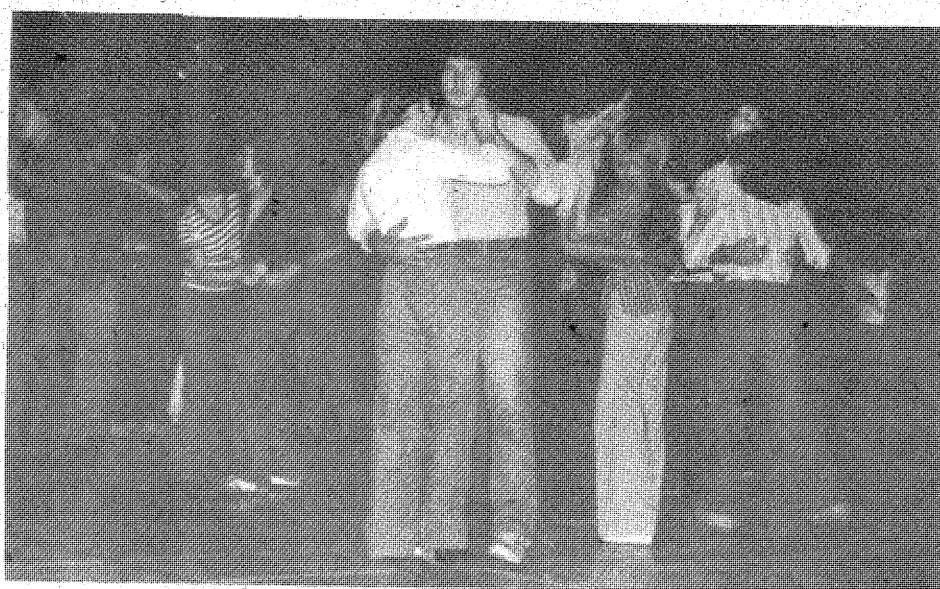

I couldn't believe the "enthusiasm" of the crowd. You guys were terrific. There's no doubt that when it comes time to party, NAIT students do it best. Oh,

congratulations table number one, your audience participation program turned out to be a real table cruncher. Hope you all have hands left to write wild this week.

The band, oh yes, the band, well they played some real good stuff. They had the dance floor packed within 20 minutes. Their assortment of music was nothing short of terrific. I especially liked the old Beatles songs and their little salute to The Who. I could have boogied until I puked.

It looks like we all "got off" to a great start. Hope to see more good times to come. By the way Sandra, Dale, Gabe, and I sure enjoyed your sweet loving kisses. Your place or mine?

# 3 3 1/3

SOME GIRLS - THE ROLLING STONES (WEA)

Who would have known that on that cool February evening when I was travelling the Carlton Street Cars of Toronto that the "Stones" were playing at one of my weekend pit stops. I knew something was strange when the electric train rolled past Spadina and through Kensington Market. The El Mocambo had an unusual number of police cars parked outside.

This is how the story goes. The local FM Station was publishing the Stones coming to Toronto, but they would not be playing. The tickets were distributed by the same FM station in a contest promotion. "Tell us why you would like to meet the Stones?", was the question!

The day following the performance proved to let a couple cats out the bag. Margaret Trudeau preferred to go to the concert than enjoy celebrating her anniversary with Pierre. Also Keith Richards was up for a drug charge in Toronto and on top of that the Stones literally demolished two floors of one of the finest hotels in Toronto.

The music of the evening was preserved. The Stones recorded that evening at the El Mocambo and released the total experience on a live two album set called LOVE YOU LIVE.

On Some Girls the Stones show the spirit which has made them one of the most reknown groups in the world.

Mick Jagger belts out the tune "Miss You". With Bill Wyman's heavy bass and Jagger's seductive vocals, "Miss You" has gone past the AM stations but right into the discos!!

I was astounded when I heard that song come on and not surprising, see the dance floor develop into a tight crowd. As the disk jockey put it, "This is as close as the Stones will ever come to disco."

But the Stones have not lost that ever distinctive style which made them Megs in the music world. On the album, "Some Girls" and "Lies" show that tight, hard, and crisp sound we have come to know as the Rolling Stones.

L. B.

Record Courtesy of KELLYS RECORD CITY, Kingsway Garden Mall.

BRUCE SPRINGSTEEN - "DARKNESS ON THE EDGE OF TOWN"

The man whom Time magazine labeled as rock's new superstar after the release of "Born to Run" two years ago has done it again. "Darkness on the Edge of

Town" is an exceptional album.

Springsteen's New Jersey "blue collar" roots have spawned ideas for some great songs here - songs about working in factories during the day; about trying to forget a mundane existence at night by racing the streets; about going home to a woman; about waiting for the chance to run away from it all. Perhaps his most powerful song is "Adam Raised a Cain" - it is reputed to be about Bruce's own painful childhood relationship with his father.

There is less emphasis on Clarence Clemon's saxophone (he was pictured on the cover of "Born to Run" with Bruce) and more on Springsteen's guitar this time around - a good trend, since

(cont. from preceeding page)

he is a skillful guitar player. His voice is also in top form, ranging from a seductive whisper to a raging growl.

The only thing better than listening to this fine album is seeing Springsteen live - and I can only hope that someday we'll all get the chance.

Carol Ann Retallack

## MIX'EM WITH MURRAY

This week the drinks I've picked out are aimed towards those people with discriminating tastes. However it may well be that those people who do imbibe these drinks do so more for the image associated to them than the taste. Regardless a person might want to try them if only to develop their own opinion. This first one everyone has heard of, but here is how to make it.

### MARTINI

1½ oz Gin or Vodka  
¾ oz Dry Vermouth\* ie. Noilly Pratt. Pour ingredients over ice and stir about 25 times. Strain into martini glass and add an olive.

\* The addition of vermouth is a personal thing. Some enjoy their Martini's dry where ½ oz is sufficient. Extra dry may mean from ¼ oz to none at all. In place of an olive a twist of lemon and one or more pearl onions can be added. Having done so you've got a *Gibson*.

Another similar type of drink elite is the:

### ROB ROY

1½ oz scotch  
¾ oz sweet vermouth. (ie. Cinzano)  
Stir with ice & strain into a Martini glass.

And finally a real taste tester, the

### MANHATTEN

1¼ oz Rye  
2 oz sweet vermouth  
3-4 drops of bitters  
This can be served on ice or straight in a martini glass. Garnish with a cherry.

Give these a try, you might like them. If not, you may at least impress who ever's with you??!!

*I would personally like to thank the person or persons who kindly turned in my purse.*

*To me, it is a great step in the right direction for the reputation of N.A.I.T.*

*signed Very Grateful*

# DON'T RUSH THROUGH THE DETAILS. WE DIDN'T.

## GALLIUM ARSENIDE PHOSPHIDE METERING CELL.

Latest generation sensor, fastest reaction without troublesome infrared sensitivity.

## LOW BATTERY DRAIN.

A mere 1.6 miliamps give approximately 110 hours metering per set of batteries. Enough for over a year of average shooting.

## ELECTRONIC COMPUTER.

To determine precise exposure.

## LED READOUT.

Solid state electronics replace the meter needle, considered the part of an SLR most prone to break down when handling gets rough.

## FAILSAFE MECHANICAL OPERATION.

Many electronic shutters stop working when the battery is dead. The Pentax ME keeps shooting at 1/100 sec. without battery.

## OPTIMUM CONTROL OF DEPTH OF FIELD.

Most important for pictorial photography. You select the critical f stop to achieve the results you want. The ME electronics take over to select the precise shutter speed to give you perfect exposure. There is never a compromise.

## OPTIMUM ACTION STOPPING ABILITY.

Select widest lens aperture and the camera always selects the fastest shutter speed possible under any specific lighting condition. Again, without compromise.

## OPTIMUM CONTROL OF RESOLUTION.

All fine SLR lenses resolve well but they all resolve better at certain apertures (usually near f:5.6). Select the optimum aperture and watch your Pentax split hairs to deliver the sharpest image possible.

## CHOICE OF SHUTTER SPEEDS NEARLY UNLIMITED.

Just turn aperture dial till desired speed readout appears in the finder. Chance of selecting an unusable variable is virtually nil.

## EXPOSURE CONTROL FOR CREATIVE EXPRESSION.

Continuously variable exposure compensator allows 2 stops over, 2 stops under.

## AUTOMATION THAT NEVER QUILTS.

No matter what lens or accessory you use.

## ADAPTABILITY TO ANY PENTAX BAYONET OR SCREW MOUNT LENS.

Fully automatic exposures.

## ADAPTABILITY TO BINOCULARS, MICROSCOPES, SPECIAL INSTRUMENTS.

Fully automatic exposures. ADAPTABILITY TO LENSES YOU BUILD YOURSELF.

Fully automatic exposures. STRONG DIE CAST METAL BODY.

The strongest Pentax has ever made.

## ALL METAL CONSTRUCTION.

Including outer shell, all internal mechanical parts and all internal lens parts.

## ROUNDED CORNERS.

Human engineering for ease of handling.

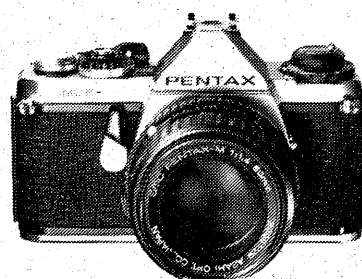

## SYSTEM OF ACCESSORIES.

Lets you expand your scope from stereoscopic to microphotographic images.

## SMC PENTAX LENSES.

A wide selection of the finest optical quality lenses, multi-coated with the most advanced anti-flare coating known. Priced to get them out of the showcase, onto your camera.

Write for more details to:  
McQueen Sales Company Ltd.,  
1760 West Third Avenue,  
Vancouver, B.C. V6J 1K5.

**PENTAX ME**

*Oh - it's also the smallest full frame 35mm SLR in the world.*

**MISS FRESHETTE CROWNED.** One of the highlights of Frosh Week is the crowning of Miss Freshette. The judges had an especially tough time picking a winner this year. It's easy to see why by the four contestants above; (left to right) Barbara Jones, Carolyn Kostluk, Laurie Matwychuk, and Debbie Dickson. At left is the winner, Debby Dickson.

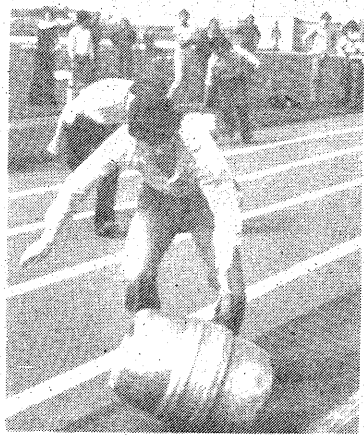

**P. S. WHAT DOES SHE DO???**

**You be the judge! Which one is the most disgusting?**

**Can you imagine grown men rolling barrels around a track after drinking a barrel of root beer?**

**None of these people won anything.**

**Stop! You're putting the baby powder on the wrong end!!!**

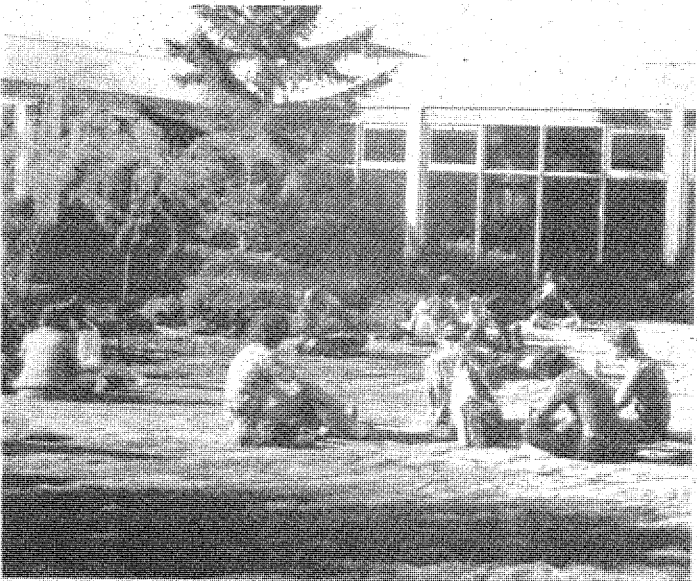

**Should we try for a triple chin???**

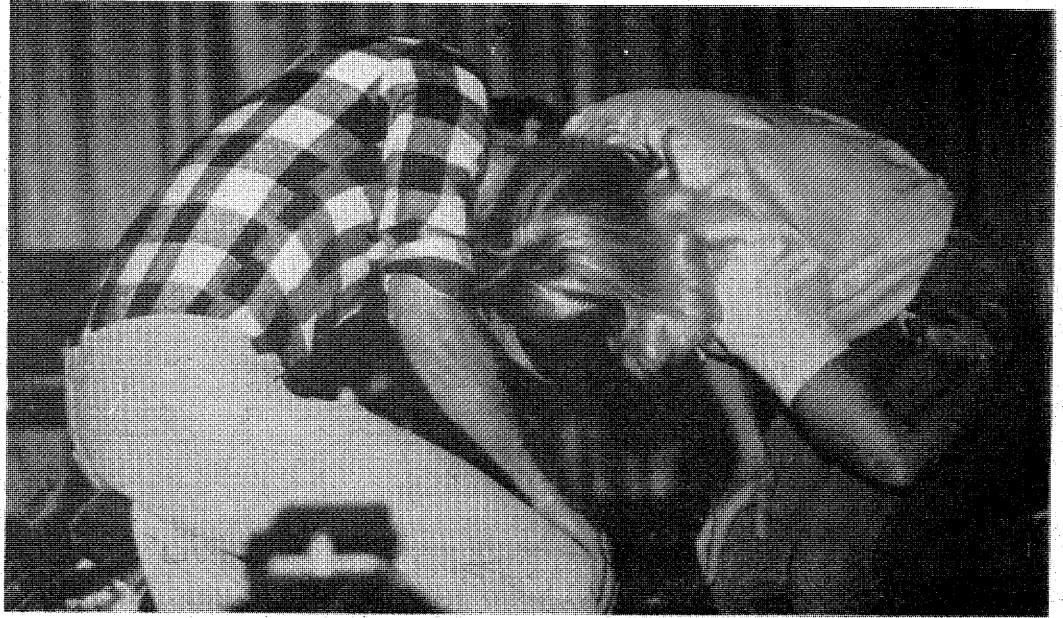

**OOOh!! Dale just blew in my ear!!**

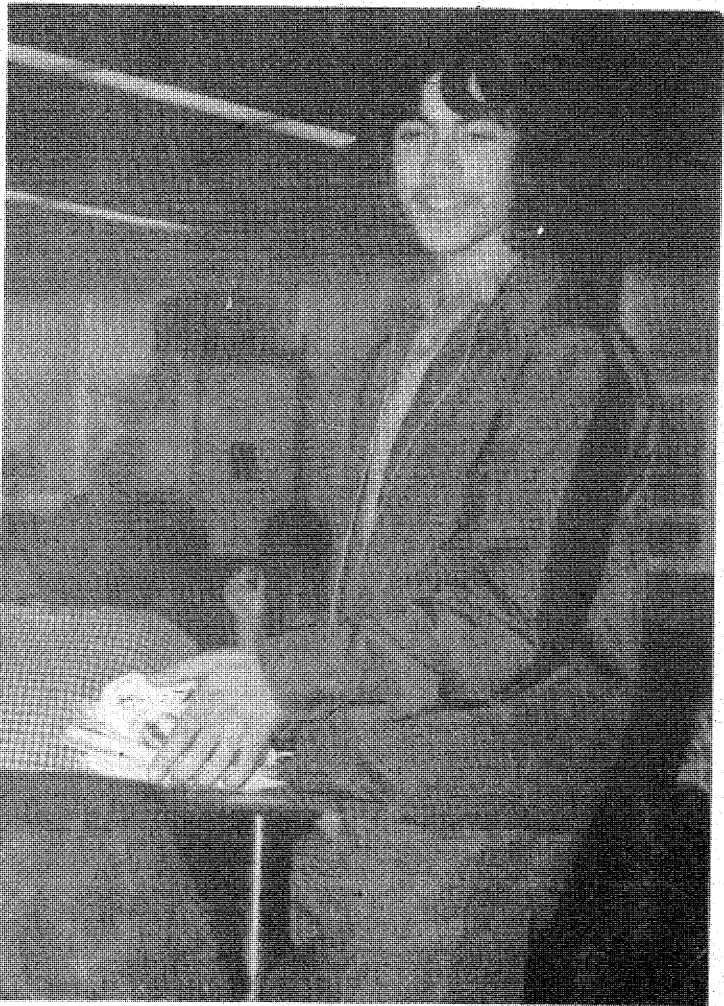

# feature

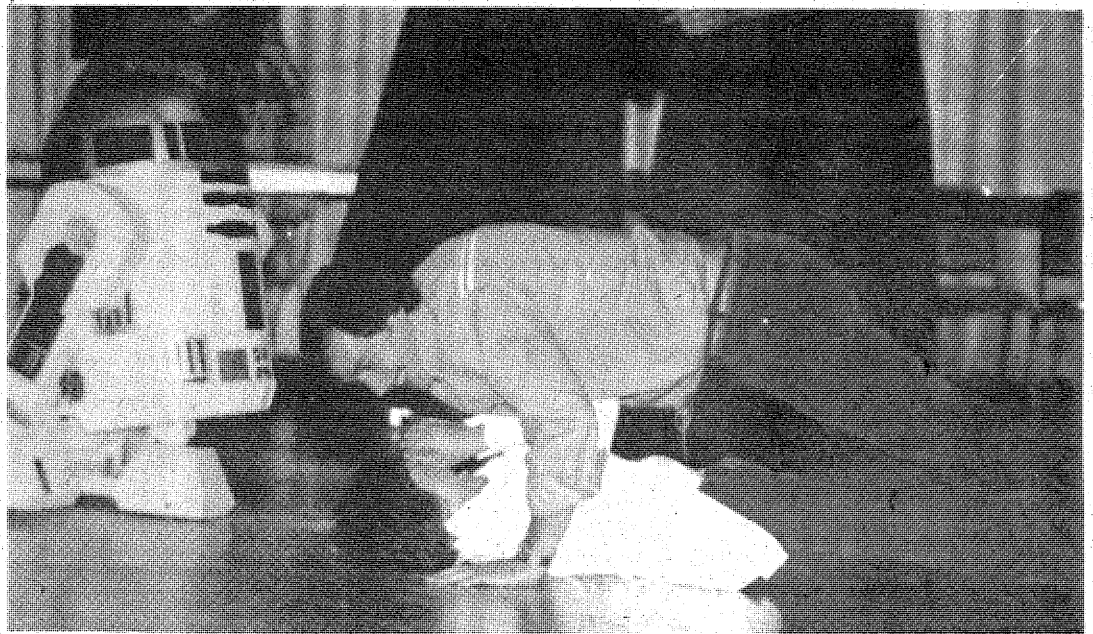

Amazing! The weather was actually good enough to hold this barbeque outside Friday.

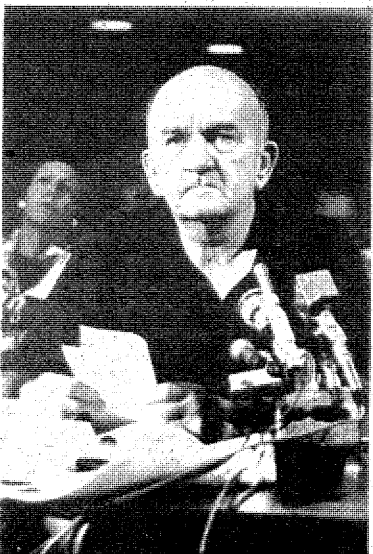

We can't figure out what they're doing either, but it looks naughty.

Of course, the big activity was still eating! (Note the ample waistline.)

Quick! Turn to page 2 so we can find out what to do next!

Does this look familiar? It should. We ran it last week.

Toss the money in the hat. (That's one way to afford your tuition.)

# n.a.i.t.s.a. comment

Well, That's it for another Frosh Week and I certainly hope the students of NAIT enjoyed what was offered. A big thank you goes to the people who participated in all the different events. Congratulations goes to Respiratory Tech for winning the Scavenger Hunt and a big thanx to Court Reporting for also participating in one of the most interesting Scavenger Hunts ever! Foxglove, the group that played Monday in the Auditorium, also came back and played Friday in the Main Cafeteria. The turn out for the barbeque was terrific and by 6:30 pm there were still around 300 people in the Cafeteria listening to the most entertaining and talented Foxglove. Not to forget Dave McLean who performed Thursday along with Jazz Talk which performed at Plaza II. Kangaroo Court, except for the mis management in terms of punishments on my part, entertained a capacity jammed crowd! The big finale was Saturday with Shamash playing some allaround well arranged, versatile and a great selection of music. The beer was sold out by 12:15 which should indicate that at least one person was drunk! Anyhow I would also like to thank R2D2 (Stewart Olson) who drove from Lloyd Minister for our Kangaroo Court. It's (R2D2) really an incredible piece of machinery. Congratulations is in order to the Bio Science clean up Crew for setting a new record for clean up of the Beer Fest ... Time : 1 hour 40 minutes. A big thanx is also in order to Mr. Watson (Radar) for helping out in the clean up! And of course not to forget Art Hooks, and entire bar staff, Irwin Stifler... terribly slow! and anyone else who participated in one of the biggest success stories since Mickey Mouse!

And, at this time I would like to congratulate Yellow Cabs for getting our lovely secretary Sheena to the Beer Fest on time.

Congratulations to Debbie Dickson for winning the Miss

Freshette 1978 Contest. She will now go on to the Miss Edmonton Eskimo Contest to represent NAIT. Good Luck Debbie!

A special thanks goes to Mr. Carter for helping us out in the crowning of Miss Freshette. Thanx to the other girls who participated, it is hoped that you campaign was one of enjoyment.

And, of course, on behalf of everyone at the Beer Fest I would like to take this opportunity to thank the bouncers who did a very, very efficient job. A major, (minor, large!), a small problem we did run into at the end of the Beerfest was trying to get rid of the bouncers at 3:00 am. We forgot to hire someone to bounce the bouncers. But seriously, all in all, except for the broken glass bulletin board by the mens washroom everything seemed to go O.K.

Also, on behalf of the Bio Science clean up crew I would like to make a sincere apology to the two waitresses which were rather bothered by our presence at Breau Fest at fullers at 5:00 am. The meal was great not to mention the bouncer "Tiny". All in all, it was a great time and thanx to Bio Science for the invitation even though I had to pay my own bill!

Well, as you all probably know by now, Shinerama is in full swing and the Cabaret Friday Night will feature P.S. and Jamie. This Cabaret is free to all those who participate in Shinerama. So get out there and participate!

Now that things are in full swing Cabarets, pubs, concerts, etc. will be happening throughout the year. Posters will be up in strategic areas to keep you posted on whats happening!

But, that wraps up another Frosh Week and sincerely hope everyone who was involved in the different aspects of the week, Dave, Chuck, and rest of the people who went out of their way (Rick, Club Culinare, Mr. Barlow, Mr. Grey) also enjoyed the week as much as they worked to make the week enjoyable for you the Students.

Thanx  
Perry Hendriks  
Activities Chairman

## ATHLETIC REPORT

Intrmurals is now in full swing. I am happy to say the participation is good so lets keep up the good work.

To help the intramural program

run smoothly we require officials. When you officiate you get paid \$3.80/hr. I know it is not much but its better than nothing. So sign up at romm E134 (Student Services) and our senior official Gary Giblin will get in touch with you.

While talking about officials and officiating the decisions of the referees are final! No matter if the calls are good or bad. The officials are out there not for your personal abuse so lets give them a break and abide with their decisions. They can only call what they see.

I have some intramural results:

## SPORTS LOOK

### TAKE ME OUT TO THE BALL PARK

When you stop and think about pro sports in general you can't help but think about all that is wrong with it. You know what I mean, the million dollar superstars, greedy owners and player agents and the like. But if you watched the movie about Detroit Tiger outfielder Ron Leflore on Tuesday night you can't help but think about all that is good with sports and forget about the bad.

"Million to One Shot" is the story about Ron Leflore's rise from the prison punks to the pro punks. Technically speaking most sports movies are bad and this wasn't much different. The acting was bad (Levar Burton doesn't even look like a baseball player) the dramatics were poor but it was the message that saved this one. That message being one mans struggle to make good for himself and those around him.

Leflore sparks out as a punk out of the slums of Detroit. He pulls an armed robbery, gets caught and goes to prison. He's young, confused and projects the image of being mad at the world for putting him in jail solitary for several years. After paying numerous visits to solitary confinement, he relives himself, and those running the prison no favors by being a pain in the \*\*\*. Leflore sees baseball as a way out the gate, his meal ticket.

Perhaps it was his brother's involvement with dope that kept him going. His brother was the reflection of his own past that he hated with a passion.

Leflore is still in the big leagues today with the Detroit Tigers and every year is around the top ten in batting average and stolen bases. You can't help but feel good after seeing Leflore's accomplishment in the face of impossible odds. The nicest thing is that it is a true story and not one of Hollywood's fairy tales.

Maybe it was just fate, or luck, or maybe it was just that million to one shot.

Matt Cummings  
Sports Editor

## CYCLE DRAG

Cycle frag Bio Sci winners women Bio. Sci. women got off to a good start this year by wining the cycle drag race last Tuesday. Unfortunately we didn't have any other teams to compete with. Never the less we had a super time! Team spirit was high! We were required to cycle 60 laps so each of us cycled 5 laps at a time. That was about all we could handle in one spirt of energy. We finished the race in 59 min. 24 secs. (Definitely not record breaking). The race sure made us realize how out of shape we are. Next year we hope more technologies will enter a women's team.

WINNERS:  
Yolanda Bouwman  
Monica Richter

Renee Land  
Maureen Jamison  
Catherin DeRobert  
Kory Malcolm

## NAIT WOMEN'S BASKETBALL TEAM HAS NEW COACH

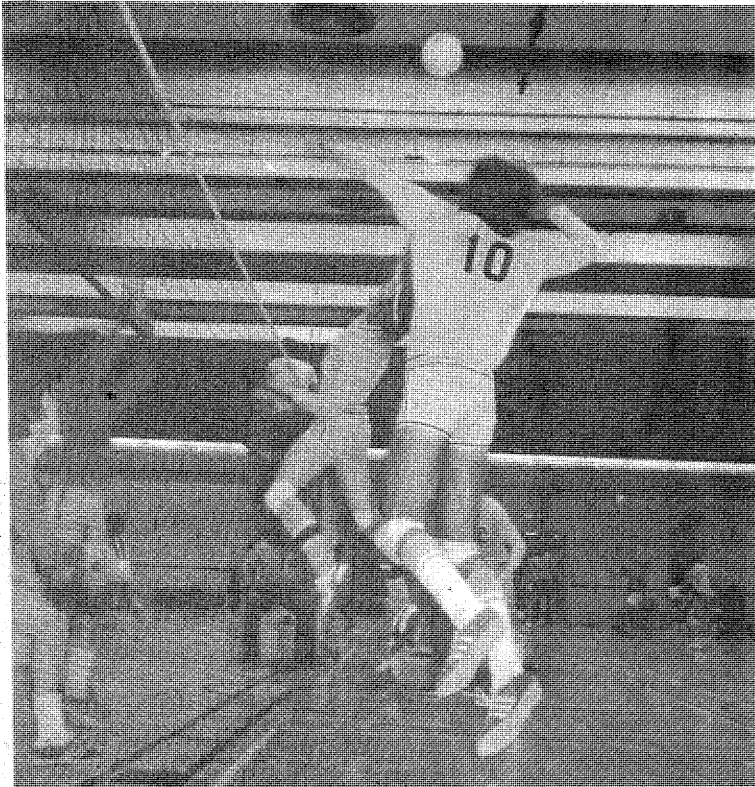

The Athletics Department of NAIT has announced the new women's basketball coach will be Gregg Meropoulos who moves over from the University of Alberta where he completed Bachelors and Masters degrees in Physical Education. Gregg strongly encourages all those women interested in trying out for the team to attend an organizational meeting Wednesday Oct. 4 at 5:15 pm in the gymnasium with tryouts to begin Oct. 12 at 5:00 pm. The new coach will stress physical conditioning and sound basketball fundamentals as a basis for improving this years performance.

## NEW HOCKEY TEAM COACH

Perry Pearn has been appointed to a position in the NAIT Physical & Leisure Education Dept. Perry will teach in the PPhysical & Leisure Education Program and coach the NAIT Hockey Team. Previous to his appointment here at NAIT, the U of A graduate played hockey for the Red Deer Rustlers, taught school for the St. Albert School Board, and was an assistant hockey coach at NAIT during the 1977-78 term.

We are certainly pleased to have Perry Pearn a member of the NAIT team.

## OOKS VOLLEY - FOR POSITION

## MEN

Eldon Galloway invites any interested men to attend the organizational meeting on Monday Oct. 2 at 5:15 in the gymnasium. This is Eldon's first year as a coach. He has a very distinguished record as a player having played for the Canadian Team in the Can Am series.

He was also a leading figure in NAIT Mens Team winning the Alberta College Championship in 1976-1977.

Last year he was part of coaching staff of the NAIT Mens Team.

This year his assistant coach will be Hal Booth who played on the NAIT Mens Team last year.

Further information can be obtained from Bob Buchan P. E. Dept. S129.

## WOMENS

The coaching staff of Bob Buchan and Ron Davies invite all keen women volleyball players to attend the organizational meeting on Oct. 4 at 5:15 in the gymnasium.

Players can look forward to hard work and fun activities which will produce an enjoyable productive season.

Further information can be obtained from Bob Buchan P. E. Dept. S129.

# Julius Schmid would like to give you some straight talk about condoms, rubbers, sheaths, safes, French letters, storkstoppers.

All of the above are other names for prophylactics. One of the oldest and most effective means of birth control known and the most popular form used by males. Apart from birth control, use of the prophylactic is the only method officially recognized and accepted as an aid in the prevention of transmission of venereal disease.

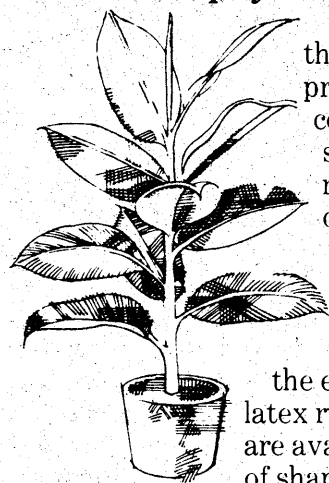

## Skin Prophylactics.

Skin prophylactics made from the membranes of lambs were introduced in England as early as the eighteenth century. Colloquially known as "armour"; used by Cassanova, and mentioned in classic literature by James Boswell in his "London Journal" (where we read of his misfortune from not using one), they continue to be used and increase in popularity to this very day.

Because they are made from natural membranes, "skins" are just about the best conductors of body warmth money can buy and therefore their effect on sensation and feeling is almost insignificant.

## Rubber Prophylactics

The development of the latex rubber process in the twentieth century made it possible to produce strong rubber prophylactics of exquisite thinness, with an elastic ring at the open end to keep the prophylactic from slipping off the erect penis. Now these latex rubber prophylactics are available in a variety of shapes and colours, either plain-ended, or tipped with a "teat" or "reservoir end" to receive and hold ejaculated semen.

## Lubrication

And thanks to modern chemistry, several new non-reactive lubricants have been developed so that prophylactics are available in either non-lubricated or lubricated forms. The lubricated form is generally regarded as providing improved sensitivity, as is, incidentally, the NuForm Sensi-Shape. For your added convenience, all prophylactics are pre-rolled and ready-to-use.

## Some Helpful Hints

The effectiveness of a prophylactic, whether for birth control or to help prevent venereal disease, is dependent in large

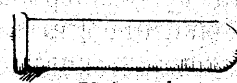

measure upon the way in which it is used and disposed of. Here are a few simple suggestions that you may find helpful.

## Packaging

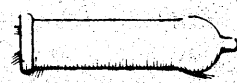

First of all, there's the matter of packaging. Skin prophylactics are now packaged premoistened in sealed aluminum foil pouches to keep them fresh, dependable and ready for use. Latex rubber prophylactics are usually packaged in sealed plasticized paper pouches or aluminum foil.

All of these prophylactics, at least those marketed by reputable firms, are tested electronically and by other methods to make sure they are free of defects. Prophylactics are handled very carefully during the packaging operation to make sure they are not damaged in any way.

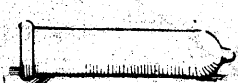

## Prophylactic Shapes

Plain end

Sensi-Shape

Reservoir end

Sensi-Shape Ribbed

## Storage and Handling

It is equally important that you store and handle them carefully after you buy them, if you expect best results and dependability. For example, don't carry them around in your wallet in your back pocket and sit on them from time to time. This can damage them and make them worthless. Next is the matter of opening the package. It's best to tear the paper or foil along one edge so that the simple act of tearing doesn't cause a pinhole. And of course, one should be particularly careful of sharp fingernails whenever handling the prophylactic.

## Putting Them On

The condom, or prophylactic, should be put on before there is any contact between the penis and the vaginal area. This is important, as it is possible for small amounts of semen to escape from the penis even before orgasm.

Unroll the prophylactic gently onto the erect penis, leaving about a half of an inch projecting beyond the tip of the penis to receive the male fluid (semen). This is more easily judged with those prophylactics that have a reservoir end. The space left at the end or the reservoir, should be squeezed while unrolling, so that air is not trapped in the closed end.

As mentioned earlier, you may wish to apply a suitable lubricant either to the vaginal entrance or to the outside surface of the prophylactic, or both, to make entry easier and to lessen any risk of the prophylactic tearing.

## Taking Them Off

When sexual relations are completed, withdraw the penis while the erection is still present, holding the rim of the prophylactic until withdrawal is complete, so as to stop any escape of semen from the prophylactic as well as to stop it from slipping off. Remove the prophylactic and, as an added precaution, use soap and water to wash the hands, penis and surrounding area and also the vaginal area to help destroy any traces of sperm or germs.

## And now for a commercial.

As you've read this far you're probably asking yourself who makes the most popular brands of prophylactics in Canada?

The answer to that is Julius Schmid. And we'd like to take this opportunity to introduce you to six of the best brands of prophylactics that money can buy. They're all made by Julius Schmid. They're all electronically tested to assure dependability and quality. And you can only buy them in drug stores.

**RAMSES** *Regular (Non-Lubricated) & Sensitol (Lubricated)*. A tissue thin rubber sheath of amazing strength. Smooth as silk, light as gossamer, almost imperceptible in use. Rolled, ready-to-use.

**FOUREX** *"Non-Slip" Skins*—distinctly different from rubber, these natural membranes from the lamb are specially processed to retain their fine natural texture, softness and durability. Lubricated and rolled for added convenience.

**SHEIK** *Sensi-Shape (Lubricated) & Regular (Non-Lubricated)*. The popular priced, high quality reservoir end rubber prophylactic. Rolled, ready-to-use.

**NuForm** *Sensi-Shape (Lubricated) & Sensi-Shape (Non-Lubricated)*. The "better for both" new, scientifically developed shape that provides greater sensitivity and more feeling for both partners. Comes in "passionate pink." Rolled, ready-to-use.

**EXCITA** Gently ribbed and sensi-shaped to provide "extra pleasure for both partners." Sensitol Lubricated for added sensitivity. Also in "passionate pink." Rolled, ready-to-use.

**Fiesta** Reservoir end prophylactics in an assortment of colours. Sensitol lubricated for added sensitivity. Rolled, ready-to-use.

We wrote the book on prophylactics. If you would like to read it and get some free samples of what we've been talking about, fill in the coupon below and we'll send you everything in "a genuine plain brown envelope."
