OPINIONS

To Be A Student Or Not To Be...

At the beginning of every academic year the administration encourages students to partake in activities which extend beyond those of academic studies. The activities students are encouraged to participate in range from intramurals to cabarets to Shinerama and the list goes on. Unfortunately a number of students do not participate, or, even worse, cannot find the balance between fun and studies.

Some students get so wrapped up in other things that school becomes secondary. The twist is that education is primary, fun is secondary. Participation in events should not be neglected because of the fear of shuffling priorities. What it boils down to is prioritizing things.

Although taking the time to actually do this seems wasteful it is not. The time spent to organize could

A. Moskal
Editor

prove to be beneficial. When the selection of priorities is made life goes with the flow; not up and down like a rollercoaster.

To be a student is to study, the prime reason for attending school. To be a student also means knowing when to drop the books and enjoy the fruits of being a student. To be a student or not to be... a question well posed for a debate. To study or have fun... the decision of a student alone.

A Puff of Smoke

K. Smith
Assistant Editor

All the talk about smoking is getting out of hand. You can't make other people stop smoking and trying to ban an adult from having a cigarette is going to be impossible, although there are some places where they shouldn't smoke.

One example is in the hospital. The patients, staff and visitors should not be smoking in the rooms, the cafeterias, or the hallways, but there should be one or two rooms where they can go for a cigarette. Most families and friends are already under enough stress without having to run outside when they need a smoke.

Workplaces should also have a smoking room so smoke doesn't bother people

who are working or eating, and because it doesn't form a good impression when the first thing you see at a business is a dirty ash-tray.

There are already smoking areas in most restaurants

but some of them should have a better separation from the non-smokers, and better ventilation. Some places could decide to go totally non-smoking to save money on ventilation and heating.

On planes and buses no smoking is necessary because there isn't enough ventilation to keep the smoke away from the non-smokers.

Many smokers try to be polite. Most don't light up while others are eating or blow smoke in their faces, but some could learn to be more courteous. Non-smokers should realize that although their fresh air isn't irritating, their self-righteousness can be.

LETTERS TO THE EDITOR

Dear Editor:

I'm requesting ACTION due to this lack of parking facilities here at NAIT. My roommate and I have obtained \$300 worth of free parking tickets. We would rather give NAIT \$300 instead of giving it to the city. We have applied for parking here at NAIT but they put it to us that we are to close. The thing is that we can save a lot of money between the both of us by taking turns driving than taking the city bus. All in all, if something doesn't happen pretty quick, we'll have to drop out because of lack of funds.

Note: If any student close to NAIT has parking available at their residence, we will surely be glad to pay rent for parking there. Phone 426-4878 and ask for Mister Wonder...ful.

From some pretty upset
Telecom students

Telecom Students

Congratulations on the \$300 worth of parking tickets. The lack of facilities at NAIT has always been a problem, there is not much you can do. A suggestion is grin and take the bus.

Editor

Dear Editor

Regarding the Feb. 19 issue of the Nugget, I feel that a second opinion is required for a couple of the topics. First, the letter to the editor which suggested that by advertising certain jobs for native students only, the

Government acted in a prejudicial way. This is not the case at all, and yes the Government does follow the same laws as the private citizens, in this case the Charter of Rights and Freedoms. Subsection 15(2) of the Charter states that any program that is intended to benefit disadvantaged groups or individuals shall not be considered prejudicial. To me at least, this proves that the Government is following the law, as they are trying to even the odds for natives. Much as we hate to admit it, here in "Friendly Redneck Alberta," discrimination against all groups is alive and well, so I welcome any efforts to try to remedy the situation.

Next, the column entitled, "DIXON 1 LED ZEP 0" seems to imply that Willie Dixon pursued the case for the purpose of making a buck for a song which was only similar to Led Zeppelin's version. To this I say "No Way!" These influential bluesmen have been ripped off for years, and I think it only fair that they get some of what is coming to them. Don't think of the members of Led Zeppelin being ripped off, they're all doing quite fine, thank you very much. Instead, think of Muddy Waters, Howling Wolf, Robert Johnston and all the other black bluesmen who were unmercifully copied, plagiarized, and stolen from. They died, penniless with their songs which such

artists as: The Rolling Stones, Eric Clapton, Jeff Beck, and many, many more recorded without royalties being paid.

Peeved

Peeved

Your opinion concerning the advertisements that evoked a negative response is appreciated. As far as response to the other issue goes, I can not honestly comment. Thanks for the response.

March 13

and

14th,

just around the
corner...

Open House '87.

If anyone has photos from Concrete Toboggan races in Calgary, and you want to see them in the Year Book. Just drop them off in office E126 with your name, phone # and technology. This goes for any other event that has to do with NAIT. If no one is in just slide them under the door.

Thanx
The Year Book Editor

NUGGET COMPETITION

The NUGGET is hosting a multi-talented, creative, humorous, visual competition. Prizes will be given for first and second place winners from various categories. Students who wish to enter please do, indicate which category you wish your submission to be entered under and please include your ID number.

Beginning: January 29, 87

Closing: March 5, 87

Categories

1. The Written Word (prose and poetry)
2. Sports
3. News
4. Letters to the Editor
5. Cartoon
6. Entertainment Review

1st Place: \$20
2nd Place: \$15

For further information contact Angie or Chris in the NUGGET office E128 or phone 471-7615.

The NUGGET is the official student newspaper of the Northern Alberta Institute of Technology. It is published Thursdays from August to April.

The opinions contained in the NUGGET are the opinions of the individual writers and do not necessarily reflect the views and opinions of the NUGGET staff.

Contributions from students are more than welcome. The NUGGET reserves the right to edit letters and viewpoints for brevity. Submission deadline is Monday at 5:30 p.m. for each issue.

The NUGGET is located at E128. Phone 471-7615, local 7615.

CLASS CANCELLATION

All classes for full-time students will be cancelled for Open House '87 on Thursday March 12, commencing at 12:15 p.m. and all day Friday, March 13. The purpose of the class cancellations is to allow staff and students time to prepare for and participate in the Open House activities and events.

GRADUATE PLACEMENT

The Placement and Liaison Office indicates that the survey for 1986 graduates has been completed and is in the process of being printed.

The placement rates for our graduates are better than expected, in view of the present economic conditions. The placement rates range from 44 percent to 100 percent, with an overall placement of 88 percent.

The Placement Centre is

Today less than 20 percent of women in the Alberta workforce are unionized. This means that 80 percent of working women rely on the Employment Standards Act for protection. In December, Edmonton Working Women submitted a brief to the Reid Committee on labour law review. Based on calls received on the Working Women's Hotline, we made several important

currently posting 150 vacancies, which represents an increase over last year at this time. Most of the major oil companies have indicated that they will be hiring students for either summer or full-time positions. This is a dramatic change from last year, when no oil companies were hiring on campus. The outlook for 1987 graduates appears to be at least as good as that of the graduates from 1986, if not better.

On Campus

Yes folks, it's that time of year again. The weather is slowly warming, the animals are coming out from hibernation, and the students are losing their minds in the midst of their homework. IT'S SPRINGTIME, and with that comes another Open House at NAIT.

This year, as others previous, all students are being asked to participate in the displays, as tour guides, and in the preparations preceding the event.

Now you all may be wondering, "What could I do to help out."

Glad You Asked

There are many ways in which to participate. Firstly, comes the patriotism of one's own tech. I am sure that your tech will be setting up a display. Ask your program head as to which instructor of your technology is in charge of the display. Then, go to them and see if help is needed. This could range from helping design and build the set to working as a representative of your tech during the Open House itself.

Now, If, and that's a big "IF", your tech does not need your help, do not feel discouraged. NAIT's Student Services is looking for fifty volunteers to conduct tours of the campus itself. These tours would not cover the whole campus, due to the fact that you may not know certain sections of NAIT very well. The campus is divided into six zones so the tours do not become very long and tedious.

To remind students about the purpose of the event:

- 1 To show the public what NAIT has to offer to future students.
- 2 To show the public where some of their tax dollars are going.
- 3 To acquaint students already at NAIT with the different programs it has to offer.
- 4 This being the most important... To give future prospective employers an opp-

REID REPORT IGNORES WORKING WOMEN

recommendations regarding the upgrading and extension of employment standards in Alberta

It is our opinion that Reid Committee has failed to consider our report and has made a few very inadequate recommendations regarding the Employment Standards Act. "Nowhere in the report is there a statement regarding the urgent need for an increased minimum wage", says Kris Farkas, a local lawyer and member of Edmonton Working Women. "Nor is there any strong recommendation for improved working conditions with such things as legislated lunch and coffee breaks, legislated sick leave, and improved enforcement procedures to protect women against infractions of the Employment Standards Act."

"The report is a slap in the face for working women in Alberta", says Farkas; "it is a very clear message to

women working as waitresses, secretaries, retail clerks and the like that the Alberta government is not going to make any effort to help improve the poverty-level wages and abysmal working conditions in which these women work."

As a voice for the many non-unionized working women in this province, Edmonton Working Women demands a commitment from the Pro-

vincial Government that the Employment Standards Act will be upgraded and extended immediately. By failing to make these recommendations the Reid Committee has virtually ignored 80 percent of the female workforce in Alberta. For more information contact:

NAIT NEWS

NAIT Purchases 7 Acres For Future Expansion

NAIT has purchased seven acres of land for future expansion. Unfortunately, according to NAIT President Dr. Souch, those expansion plans are on hold until Alberta's economy picks up.

NAIT at the present is approximately 15,000 square meters short on floor space. To help accommodate the present 8600 full and part time students, the institute has been forced to lease buildings around the city. At its present growth, the enrollment level at NAIT is expected to increase to 11,000 students by the year 1990, thereby justifying

the recent land purchase.

"It is our intention, over a period of time, to get out of our lease commitments and satellite facilities, and unify the campus on one site".

The land itself, purchased recently from the Provincial Government, is located between 103rd and 106th streets, just north of Princess Elizabeth Avenue.

Presently, this land is occupied by 75 subsidized housing units managed by the Edmonton Housing Authority. Plans to destroy the old housing are in works for sometime early this summer. Tenants residing in

the units were informed at the beginning of January that they would have to vacate the premises by June. At the present, the housing itself has a vacancy rate of 8 percent.

AMS Members

On March 10, 1987 the Administrative Management Society (Nait Chapter) will host "NAIT NIGHT" at the Royal Glenora Club. Since it is Nait's turn to host & chair the meeting a large turnout of Nait members would be appropriate. The guest speaker will be announced later.

In addition, as it is nearing the end of the school term, the positions of AMS President Vice-President Secretary/PR Officer and Treasurer will be open for nominations. If you have an interest in any of these positions come up to the AMS office (T605A) and speak to one of the executives.

Please have dinner fees in by Thursday March 5th for "NAIT NIGHT".

BAS Bulletin

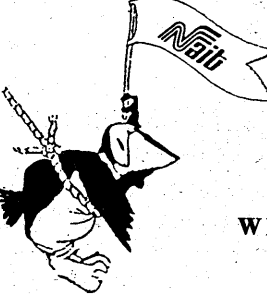

please feel free to come to T611. As well, you can pick up nomination forms and election times/rules in T611.

NAIT Notes: Business students interested in supporting the red Cross Blood Clinic are urged to donate their red stuff March 9, 10, or 11 in the North Lobby.

B.A.S. will be hosting their final cabaret on March 20 at the Silver Slipper.

Whirlpool

Last years council had put into works a project to construct a whirlpool inside the sports complex at NAIT. Originally, money was approved BUT NOT SPENT on the project. Unfortunately after the project had been tendered for a cost of \$42,000 last year, since then it has risen to an overwhelming \$72,000. Presently, NAITSA is looking into why their was an increase and if it would still be worth considering. If you have any further comments on this, you are asked to forward them as soon as possible to someone on the NAITSA executive.

WHERE TO FIND

Job Leads

J. Michael Farr

Most job seekers use a traditional approach when looking for jobs. The methods they use include:

- Answering want ads
- Filling out applications in personnel offices
- Sending out resumes
- Looking for leads at the local state employment agency (often called the "unemployment" office)

Some people — about one third — do get jobs using these traditional methods. The other two thirds don't.

The Hidden Job Market

Most jobs are never advertised. In fact, as many as 85% of all jobs are not. Traditional job search methods overlook most available jobs and many of the best ones. Given that, here are some non-traditional job search methods to uncover the hidden job market.

Friends and Relatives:

Probably the best source of job leads available. List all your relatives, then the people who you have been friendly with and contact them directly. Tell them what kind of job you want and what skills and other qualifications you have to offer. About 18% of all people find their jobs this way.

Acquaintances:

These are people who you don't know well but who you've had some contact with or have something in common. Ex-classmates, people you used to work with, neighbors and fellow church members are some examples. List as many names as possible. Contact each one and ask for his/her help in thinking of employers who might need someone with your skills and experience.

Walk Right In:

Even without an appointment, you can usually ask the person in charge and get to them with no problem. This seems more common for small organizations where there are fewer people between reception and the boss to screen you out.

Let Your Fingers Do The Walking:

The Yellow Pages lists virtually all organizations that hire people. Use the index to identify types of organizations that you might be interested in and contact each one. Ask to speak to the person who is most likely to supervise you in that organization. Avoid personnel departments, if possible. Introduce yourself, mention the position you seek following by your key skills and experience. Your objective is to set up an interview or, failing that, to get a referral.

Go To Small Organizations:

Most people work in businesses and organizations considered small (less than 50 employees). They are excellent places to gain experience and make quicker advancements. Don't overlook them.

Use Special Services:

If you have access to a school or other placement counselor, he/she can be an excellent source of referrals. Check into any community programs to help you find a job. Begin with the telephone listings under local government agencies and ask for what's available. If they don't know, ask who else might.

Traditional Methods

Want Ads:

Read the want ads but do not depend on them. About 14% of all people find their jobs here, so it is worth some time. Sunday's and Wednesday's papers have the most ads. Read them in the evening and follow up on anything interesting but realize that a lot of other people will be doing the same thing. The competition is fierce.

Private Employment Agencies:

Unless the employer pays the fee, expect to pay up to 15% (or more) of your first year's salary. That is a lot of money for work you can usually do yourself. Consider using them if your skills are highly sought after or if you are presently employed and have little time available to look yourself. Only one out of 20 people who use agencies get jobs from them.

State Employment Agencies:

They don't charge a fee, but only 5% of all people get jobs this way. In most areas, they will not know of 90% or more of the jobs available; however, a weekly visit is worthwhile. Get on friendly terms with an employment counselor and ask to see that one each time. This will help him/her think of you when a job lead comes through that fits.

Personnel Offices:

They are found mostly in larger organizations and their job is to screen you out. Try instead to get directly to the person who would supervise you. Sometimes personnel is unavoidable. If you do use them, go out of your way to make yourself memorable.

Resumes:

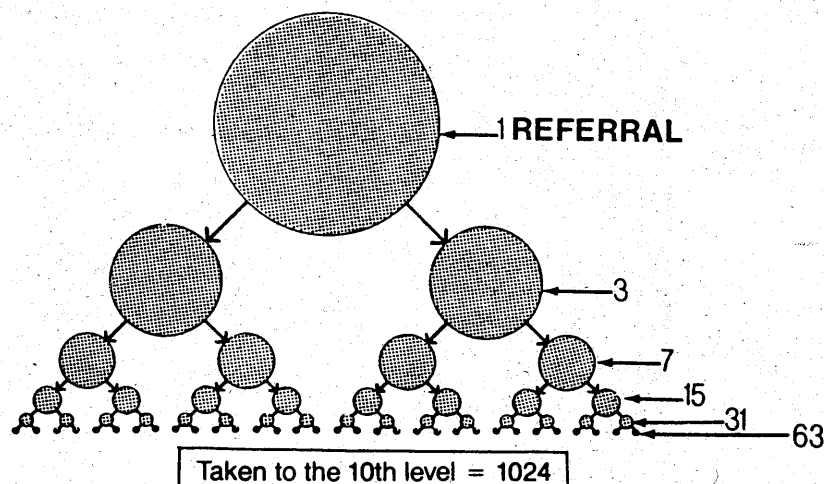

Sending out resumes hoping one lands on some interested person's desk is likely to be a waste of time and stamps. A resume can be a useful tool once you've made contact with a potential employer but it is often unnecessary.

Follow Up

Send a simple, sincere thank you note to all people who help you in your job search: friends, people who interview you, people who gave you a referral — anyone. It is a nice touch and they will be far more likely to remember you later!

You should follow up with all your employer contacts every one or two weeks. Create a reminder system for this using 3 x 5 cards arranged by follow up date.

These are some brief tips to find job leads that I hope will help. Do realize though, that finding a job is a job. Plan to spend at least 25 hours a week at it and try to get two interviews a day. It is possible. Good luck!

Get Referrals:

Whenever you talk to someone in your job search, always ask them if they know of someone else you can talk to who might:

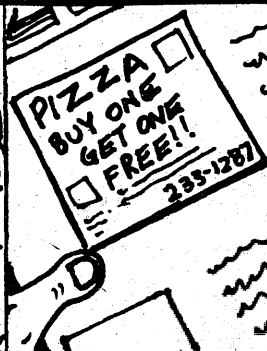

- have a job opening in your field, or
- know of someone else who would.

To get the most out of this method, get at least two referrals from each person you contact. Starting with just one contact, you can develop hundreds, even thousands of contacts using this simple technique.

Hoosiers

Take a hick town (aptly named Hickory), set in Indiana, throw in a six man basketball team (not doing to well), a deceased ex-coach, a star player who refuses to play since the coaches untimely death, and a parental fan club who wants naught change. If it falls within the category "Basketball".

Take all this, add a strong willed leading lady and a lovable "has been round-baller" drunkard to contend with, presto you have coach Norman Dale's (Gene Hackman) job description.

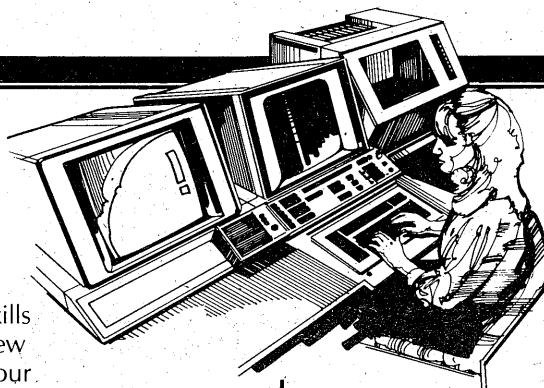

Hoosiers is, of course, a Cinderella story, only, no pumpkins or white mice

appear at the stroke of twelve.

It's a story about the impossible career of a small town basketball team and its coach, who in classical American loner style, takes

his boys right to the end and ... Well, why not see for yourself.

ENERGY MANAGEMENT POST-GRADUATE CERTIFICATE

The Southern Alberta Institute of Technology is offering a one year post-graduate certificate in Energy Management this year.

The program enhances skills and expands abilities in new fields. It concentrates on four areas: basic knowledge of the sciences and energy technology; energy management and conservation; new technologies and alternative sources of energy; lab and project work.

Employment opportunities are growing in this challenging field. The program will be attractive to those wanting to specialize or retrain for career development and advancement.

Graduating students will receive a certificate in Energy Management Technology and qualify to write the Building Operator A provincial exam.

Employment opportunities exist in a variety of fields including Energy Management Consulting and Engineering, Instrumentation and Controls, and Chemical Process.

Applications must be submitted prior to March 16. Low enrollment may result in budget cuts and cancellation of the program.

Prerequisites:
engineering technology diploma or approved equivalent • entrance interview • previous experience in industry is desirable.

Tuition: \$558.00 (subject to change)

Books and Supplies: \$400.00 (approx.)

Registration forms are available from the Registrar at SAIT.

Program commences **August 24, 1987**

For further information about this exciting program please call the Registrar's office at **284-8841**

Six Straight Wins and Playoffs Look Good

The Nait Hockey Oaks are taking a 6 game winning streak into the playoffs. The Oaks finish the regular season with a record of 20 wins, 4 losses and 1 tie. By finishing in 1st place the Oaks have guaranteed themselves home ice advantage for the ACAC playoffs. The playoffs open on Wednesday, March 4th at the Nait Arena when the Oaks entertain the Mount Royal College Cougars in a 7:30 start. The semi-final series between the Cougars and the Oaks is a best of 3 series.

Friday, February 20th -- NAIT Oaks 12, Medicine Hat Rattlers 2 at Medicine Hat

The Oaks opened their 3 game set in Medicine Hat with a 12-2 triumph over the Rattlers on Friday, February 20th.

In the 1st period, the Oaks gained a 2-0 advantage on goals by Kevin Busch and Ron Amyotte.

In the middle frame, the Oaks added 4 straight markers. Kent Maltais, Ron Amyotte, Brent Weller, and Nigel Cripps chipped in singles for Nait. Bill Zwicker then answered with the lone MHC marker of the frame.

The Oaks once again dominated the play in the 3rd period. Brent Weller connected twice, while Lou Rimstad, Nigel Cripps, Kent Maltais and Ron Amyotte added singles. Kevin Pastachak of the Rattlers closed out the night's scoring.

With Kevin Stapleton in net, Nait outshot Medicine Hat by a 55 to 26 count.

Saturday, February 21st -- NAIT Oaks 9, Medicine Hat 3 at Medicine Hat

The Oaks kept rolling on Saturday with a 9-3 victory over Medicine Hat in the Hat.

The teams exchanged goals in the first period with Ron Amyotte scoring for NAIT and Kevin Pastachak replying for MHC.

In the middle stanza, the Oaks added four goals. Mario Sicolo, Brenn Leach, Rick Chauvette, and Ron Amyotte all tallied for the Oaks. After two periods, NAIT held a 5-1 advantage.

In the third, Pat Mohrmann gave the Oaks a 6-1 lead at 1:59. The Rattlers then scored as Terry Shikewski found the net at 7:53. Mike Nottingham of NAIT reinstated the six goal margin at 10:11. Jeff Carlson completed the MHC scoring at 14:38. NAIT added a pair of goals late in the period as Ron Amyotte and Pat Mohrmann netted their third and second goals of the game respectively.

Jeff Lastiwka tended the crease for NAIT as the Oaks outshot Medicine Hat 59 to 30.

Sunday, February 22nd -- NAIT Oaks 17, Medicine Hat Rattlers 2 at Medicine Hat

The Oaks finished their three game series in Medicine Hat with a convincing 17-2 win over the Rattlers.

In the Sunday morning match-up, the Oaks accounted for six first period goals. Ron Amyotte and John Walker each scored a pair for the Oaks while Kevin Busch and Murray Melnyk

added singles.

The Oaks added six more goals in the second. Lou Rimstad, Mike Yaceyko, Nigel Cripps, Don Simpson, Mario Sicolo and John Walker found the net. Medicine Hat goals in the period were off the sticks of Jeff Carlson and Kevin Pastachak.

The Oaks then only scored five times in the third. Ron Amyotte notched three more goals while Lou Rimstad and Brenn Leach scored singles.

Jeff Lastiwka and Kevin Stapleton shared the net-minding duties for NAIT as the Oaks outshot the Rattlers 72-23.

Ooks Basketball to Host Playoffs

For the first time in NAIT Basketball history the mens team will host an ACAC Basketball playoff semi-final. On the strength of an exciting 61-60 win over Grant MacEwan Community College last weekend, the Oaks closed out the regular season with a record of 13-5, good for second place in the tough ACAC. NAIT will host Mount Royal College (12-6) this weekend Friday and Saturday night at 7:30pm in the NAIT Gymnasium. A third game, if necessary in this best of three semi-final, will be held Tuesday March 10th in Calgary. In the other semi-final undefeated SAIT (18-0) will take on the much improved Lethbridge Community College (12-6) in Calgary.

The win which clinched second place for the Oaks came in a hard fought 61-60 win on Friday (Feb. 27th) evening.

Bryan Lazariuk was the hero as he tipped in a rebound at the buzzer. Lazariuk led the team with 17 points while Travis Heighington had 11, including several key jumpers in the second half. Point guard Kirk Jones also had

11 points. ACAC standout Dave Forest had 22 points for the Griffins.

A second place finish is the highest placing the Oaks have ever attained. This gives them a good opportunity to advance to the ACAC finals, however, the Oaks will have to get by the solid Mount Royal College Cougars this weekend. In the two teams last meeting Mount Royal won by five points, prior to that the Oaks had defeated the Cougars twice by one point and by seventeen. Oaks coach Dave Hoy is pleased at the position the Oaks are in; "It is definitely an advantage to play at Home... we should have a good crowd and we're familiar with our court." Hoy adds that the team will have to play its best this weekend if it hopes to advance. "Now its like the NCAA tournament, if you lose you're gone!". The road to Oakville Ontario, site of the CCAA National Championships begins this weekend for the Oaks. The team needs and deserves your support. You can help, come out and be vocal!

Ooks Win Again!

Saturday, February 28th -- NAIT Oaks 8, Mount Royal 6 (OT) at NAIT Arena

At the time, the Oaks did not know the Mount Royal College Cougars would be the opposition in the best of three ACAC hockey semi-final series. The Oaks gained some confidence against MRC by scoring an 8-6 overtime win.

The Oaks notched a pair in the first period. Mike Tookey and Rick Chauvette capitalized for the NAIT squad. Dave MacDonald of Mount Royal brought the Cougars close with a goal of his own.

Taking a 2-1 lead into the second, the Oaks proceeded to extend their lead to 6-1 with 11 minutes elapsed in the middle period. Mario Sicolo found the mark twice, while Mike Nottingham and John Walker contributed singles. The Cougars answered with four straight goals of their own as Ken Froese, Dave MacDonald, Kevin Regehr, and Jamie Cayford scored.

In the third, the Cougars pulled even on Doug Barbers tally at 13:12. The goal tied the score at 6-6 and sent the clubs into overtime. In the ten minute overtime period, the Oaks decided the contest on goals by Murray Melnyk and Darren Schmidt.

Jeff Lastiwka guarded the NAIT crease as the Oaks outshot the Cougars 46-39. **Sunday, March 1st -- NAIT Oaks 10, SAIT Trojans 1 at NAIT Arena**

Although the SAIT Trojans only dressed 11 skaters, the NAIT Oaks managed to pull away in the final 40 minutes to close out the regular season with a 10-1 win.

The teams traded goals in the first as Kent Maltais scored for NAIT and Laine Jeannotte answered for SAIT.

In the second, the Oaks increased their advantage to 5-1. The NAIT marksmen were Mike Yaceyko, Darren Schmidt, Murray Melnyk, and Kevin Busch.

The Oaks found double digits in the third period with five consecutive goals. Rick Chauvette scored twice while Murray Melnyk, Don Simpson and Lou Rimstad supplemented the scoring with singles.

Kevin Stapleton was solid in the NAIT net as he faced 21 shots. At the other end, the Oaks tested SAIT goaltenders on 49 occasions.

On the Bench --

On the last weekend of the season, the Oaks found out who their opponents will be in the best-of-three ACAC semi-final series. NAIT will play the MRC Cougars at the NAIT Arena on Wednesday in Game 1. Action starts at 7:30pm. Game 2 in the series goes Friday night down in Calgary. Game 3, if necessary, would be on Sunday, March 8th at the NAIT Arena with a scheduled 5:00pm start. The other series sees the Red Deer College Kings go against the Camrose Lutheran College Vikings.

SPORTS

Chicks Split Series With Grande Prairie

Nait's Women's Basketball team closed out its ACAC home schedule on the weekend with 2 games against the Grande Prairie Regional College Wolves. The Wolves entered the series with a 4-10 record; tied with the Chicks for 6th place in the 9 team conference. The series decided little between the 2 teams as each team took a game and both remain deadlocked with 10 points; Nait having one more game remaining against Grant MacEwan.

Nait 70 - G.P.R.C. 45

The game started slowly with each team guilty of many unforced turnovers, however, the Chicks had a 9-2 run before the half to take a 37-22 lead to the lockerroom. The Chicks put the game away in the first eight minutes of the 2nd half, outscoring Grande Prairie 16-4 and winning the

game 70-45. Ten Chicks hit the scoresheet led by Kathy Prochnau's 29 points. The Nait ladies hit 30 of 55 shots from the field and 10 of 17 from the foul line.

Nait 60 - G.P.R.C. 63

What a difference a day made in the play of the Lady Wolves who rebounded from a sound dubbing the night before to steal a game from the Chicks.

The game started slowly with the Wolves limited to 5 points in the first eight minutes but then opened up, and we saw a very determined effort from the Wolves. The Chicks held an 8 point lead at the half but that evaporated quickly as the fired up Lady Wolves capitalized on some poor passing and weak execution by their opposition. They took the lead with 14 minutes to play. Nait fought back and the lead see-sawed

until Grande Prairie took advantage of numerous Nait fouls to win the game at the foul line. Every time the Chicks got close the Lady Wolves answered the challenge to win 63-60. It was a big win for the Grande Prairie squad who do not have the over all talent of the Nait squad but beat them with hustle and execution. The loss was a bitter one to take for the Chicks who saw their record drop to 5-10. Once again, the only offense the Chicks could muster came off the hot hand of Kathy Prochnau who hit for 33 of Nait's 60 points.

AROUND THE LEAGUE

In weekend action the bottom fell out of the Lethbridge Kodiaks who were undefeated and ranked #1 in Canada. They lost a pair to Sait and Mount Royal and will finish in 2nd place behind Mount Royal.

Badminton Team Finds Competition Stiff

On February 20-22/87 the Nait Badminton Team attended the Royal Glenora Invitational held at Royal Glenora Club in Edmonton. Competitors included those of Royal Glenora, Derrick, Mount Royal College and Sait College. Competition was tough as players of A, B, and C calibres battled it out.

Wendy-Ann Armfelt and Renee LeDrew both found some tough competition in Singles. Both Robert Wong and David Yee won their second match in Men's Singles, but fell to defeat in the third. Jim Skago and John LeDrew also ran into some similar bad luck. Reg Munro went on to win the C division Men's Singles. Wendy-Ann and Renee played a close match against Lynda Parsons and Sandy Husberg in the Ladies Doubles C Division Final. Lynda and Sandy were victorious.

In Men's Doubles Reg and Jim were defeated in B

Division. Robert and David went on to the C Division Final. It was a tough game but not a lucky day for David and Robert.

In Mixed Doubles John and Wendy-Ann played some tough matches. The highlight of their day was defeat-

ing our Coach Eileen Harle and her partner. Reg and Lynda lost out to Robert and Sandy in C Division Semi-Finals. Robert and Sandy went on to defeat in a very close match against a Royal Glenora team in the C Finals.

Heighington Sets NAIT Record

The Nait Ooks Roundballers are on a roll. They have won 9 of their last 10 games. The only loss suffered being to the Medicine Hat Rattlers. Nait's 9 wins have come over Camrose & Olds (twice), along with victories over Grant MacEwan, Red Deer, and Lethbridge.

This past weekend the Ooks beat Grande Prairie twice. In Nait's first victory, Kirk Jones had a season high of 21 pts., Frank Mrkonjic scored 16 pts., and Travis Heighington scored 14 pts. On Saturday afternoon Nait defeated Grande Prairie again, with a 73-67 score. During that game Travis

Heighington became Nait's all-time leading scorer. His 22 pts. on Saturday gave him an ACAC career total of 738 pts. The record was previously held by Nait's Rick Gawlick who had 736 career pts. Other scorers in Saturday's match were Frank Mrkonjic with 14 pts., and Bryan Lazariuk with 14 pts. Scott Homes snapped up some important rebounds adding valuable points.

This weekend the Ooks play at Grant MacEwan. A win will finish their season with a 13-5 record, assuring them second place in regular season standings.

- COST: \$25.00 Payable by charge card (Visa and/or MasterCard) or cash when booking is made. This includes sitting fee, ALL COLOUR NEGATIVES and proofs.
- 6 different packages available at additional cost. (Priced at \$10.00, \$19.00 or \$25.00 each depending on package).
- Bookings must be made in person:
(a) From February 23 - March 31, 1987, in U213, Central Services Building from 8:00 a.m. to 4:00 p.m.
- Sittings will take place from March 2 to March 31, 1987, inclusive.

Graduation Gowns and flowers are provided.
Proper dress is recommended.

ATHLETE OF THE WEEK

Luigi Cardamone

Age: 19
Height: 6'2"
Position: Technique
Technology: Marketing
Home Town: Edmonton

ACAC Volleyball Championships are just around the corner. With players like Lui Cardamone, 1987 is looking like a "banner" year. Lui has been and will continue to play to his full potential in the final weeks of games. Lui was a dominating force in two matches against Grand Prairie Regional

college where he averaged fifteen kills per game. In an exhibition match against the

UofA Golden Bears, Lui displayed his quickness on defense, digging up untouchable balls. Luis' leadership and dedication on and off the court exemplifies a true athlete.

Just say **OV**

NAIT NEWS

February 24, 1987

Open House Address

First on the agenda was an address from Mary Dehil, one of the organizers for the Open House '87 project. The points that she wanted to stress to the students is the fact that the Open House is in fact an advertising vehicle for the prospective students attending in the coming years. It is also an event to show the public where their money is going to in the Education department. Also, it is an opportunity for students to show prospective employers what they can offer. As a reminder to students, this is an event of which you are participating as a host or hostess. All participants will be given Nametags and

you will be asked to wear them at all times.

Academic Council

As to the recent events sparked this year by students having trouble with faculty, Ken Kendall, Academic Council rep. for the student body, has developed a system which is open to all students in cases of conflicts between themselves and their teachers. Students are basically asked to go as a group, and talk to the teachers in question. If no results come about, the students are then asked to contact their program heads. If there is still no action taken, or the students are unsatisfied about the results, the next person to contact is the Chairman of their technology. If a prob-

lem still exists, the Dean of the Technological Department would have to be contacted, and then, if all else fails, contact Fred Williamsen, Chairmen of the Academic Council itself. All technologies will be receiving a formal list of action in their mail. For further information, contact your Technology Reps.

Constitution

The original revised constitution went to its 3rd and final reading before the council. It was passed unanimously. However, a heated debate erupted over the amendment to the revised constitution on its second reading. This was in regards to the "yes/no" vote for a person running for NAITSA not to be awarded

the position by acclamation. The problem resulted from the question that "IF" the one person ran and was defeated, who would take up the position. For a further explanation, please contact your tech. reps. for their views on the matter. The motion for the "yes/no" vote was eventually defeated.

Student Finances

In light of the request at an early meeting, myself (Randy Meszaros, News Editor) had reprinted the cut-out protest ad against the cutting of the Students Finance Board. Despite enlarging it by double the size it was originally (regarding complaints that no one saw it) only three have been received by Chris Reinert, NAITSA President. Students are

encouraged to fill out as many of these as possible, or create petitions to submit to Chris for his trip to Lethbridge at the next ACTISECT meeting. This would be before this Friday.

Tour Guides

Presently, Art Hooks at Student Services has received in the area of 20 volunteers to be tour guides for students coming to experience NAIT during the Open House '87. However, he needs a total of 50 people, so get involved if you can, and if you have already volunteered, try to convince your friends, and/or enemies to participate. The Thursday following the Open House, a private party for tour guides and judges of displays will be held at no cost to the volunteers. Sign ups are in room E143.

Car Raffle

Present Standings:
Books Signed OUT 701
Books RETURNED 52

present score:

-Teachers are winning in sales by a landslide.

Man in Motion Tour

Rick Hansen is expected to be arriving in Edmonton approximately March 5th. Volunteers are needed to collect money from onlookers as he enters our city. If you wish to volunteer, please see Mark Grubisich, VP of NAITSA. Also, in conjunction with the Man in Motion tour, the different Universities and Colleges are sponsoring a Staircase Challenge for the mascots of the institutes. Our Ook will be participating in a race in which he will race up 10 floors and back down. Pledges are being asked for by the NAITSA executive. The Ook itself will be around soon, also for collecting donations. The event runs on March 6, 1987.

Donations

With the recent profit seen from the Ronald McDonald House, council has decided on the charities to which it will donate the \$1600 dollars. Donations will be divided between 8 charities, all youth related, and each receiving approximately \$200.

Tech Loans

In regards to an earlier statement from our Treasurer, no more tech loans will be awarded after the end of February. Since it is now March, there will be no more loans. The policy was implemented to reduce the risk of a Tech not paying NAITSA back by the end of the 86/87 term.

And Finally...

All techs are reminded that if you have a Cabaret, please take down the posters by the Monday following. The billboards are really starting to look messy. Also, as a reminder, NAITSA elections are coming up very soon.

SPORTS

CULTURE COMES TO NAIT ... RUGBY!

by Alastair Franke

I've heard that football is a gentleman's sport played by hooligans and soccer, a hooligans' sport played by hooligans. Rugby, however, is a hooligans' sport played by gentlemen!

At last, the game sacred to ancient Celtic peoples of Scotland, Ireland and Wales and their descendants of New Zealand and Australia has come to NAIT. A core of play hardened veterans spearheads the birth; yet a surge of youngblood is needed to nurture the process of maturation.

Rugby is not simply a game of kicking, tackling and hard hitting...like our Celtic ancestors, those who play exhibit the finer qualities of intelligence, courage, patience and compassion. Brute strength and gargantuan dimensions are not pre-requisites to participation, indeed to the fleet

footed fly-half or wiry winger such attributes may prove unhealthy.

Canadian Rugby originated and is flourishing in British dominated regions(B.C. and Southern Ontario). However, Alberta Rugby is expanding rapidly, with teams forming in smaller towns and at educational institutes like NAIT, U. of A, U. of C. and U of L. A match against the Golden Bears is set for early spring. Expect this game to be hard, the teams are evenly contested and neither wants a loss.

It is not too late to join the club and membership is not restricted to males. Ladies are most definitely welcome in whatever role they deem fitting (i.e.) participant or spectator. Practice times are tentative and will change according to the availability of training facilities. For further details please contact Alastair Franke at 479-8285 or leave a note at the Nugget office.

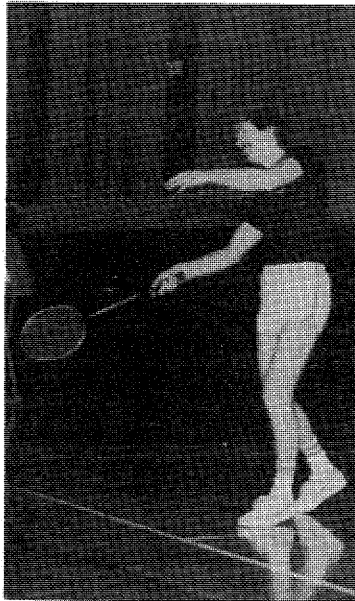

This Week in PLE

BADMINTON

The eight Badminton Courts at NAIT are a great facility with a high ceiling and a dark backdrop.

Every calibre of player can find his level of expertise with instruction given at all levels of skill. Fun is emphasized in this most gruelling and fastest of the racquet sports with classes running in both semesters both morning and afternoons.

If you have not played before or if you have played alot, just come out to the gym and sign up for badminton! See the PLE notice boards for class times, go to the class if you are interested and see if there are any openings.

SEASON SWEEP FOR VOLLEYING OOKS

The NAIT mens and ladies volleyball teams played their final matches against North Division competition on the weekend of February 20th and 21st. The trip to Grande Prairie was a successful one as both teams came away with a season sweep over their rivals, GPRC.

The Nait men's volleyball team raised their record to 15 wins and 6 losses. On Friday, Feb. 20, NAIT swept Grande Prairie in 3 games (15-8, 15-7, 15-11). The following afternoon Nait required 4 games to down the Nordic Wolves (12-15, 15-11, 15-10, 15-2).

With the pair of victories, Nait clinches the second

playoff berth in the North Division. The Ooks have an insurmountable lead over third place Grande Prairie in the North Division. Red Deer has also qualified from the North Division. In the South Division, the Mount Royal College Cougars are undefeated in 18 matches and playoff bound. The second playoff spot will probably go to Sait, although Medicine Hat still has a mathematical chance to claim the post-season berth.

On the ladies' side, the Nait squad had little trouble with the Nordic Wolves from Grande Prairie. On Friday, February 20th, the ladies ended a four match losing

streak with a four game victory over GPRC. On Saturday, the 21st, Nait also needed four sets to down Grande Prairie.

The Nait ladies' volleyball team now has a record of 14 wins and 7 losses. Nait desperately needed a little help from the Red Deer College Queens over the weekend to keep the Ooks slim playoff chances alive. The Queens were in first place with a 17 and 1 mark, while Lakeland was second with a 16 and 3 record. Red Deer and Lakeland tangled this past weekend at RDC, and the ideal scenario would have seen Red Deer sweep a pair of matches from Lakeland. Then, to move into second spot, Nait would need to win 2 more matches than Lakeland at the interlock.

EXTRA VOLLEYS: Both the men's and ladies' volleyball teams had this past weekend off. The next action for both teams will be at Interlock #2 coming up on March 6th and 7th in Calgary. Mens action will take place at Sait, while the ladies will play at Mount Royal.

IRON MAN TO VISIT EDMONTON

by Alastair Franke

Dave Scott, four time winner of the Iron Man Triathlon held annually in Hawaii, will be in Edmonton sometime in April. His one day clinic will include instruction in all three disciplines associated with Triathlon (swimming, cycling, and marathon running).

Dianna Paton, President of the Edmonton Triathlon Club, is hopeful that NAIT is to be the venue for his clinic. "Our club is very young, and his expertise will definitely be of benefit to us," said Paton. With about 50

members from NAIT staff, the student body and surrounding community, the club trains three times weekly. "We're concentrating on swimming at the moment," said Dianna, "Tuesdays and Thursdays we're in the water from 9:00 pm to 10:00 pm and then again on Saturday mornings for an hour at 9:00 am." Included with the Saturday work-out is a one hour lecture session. Topics vary from weight training techniques to cycling and marathon running.

If anyone is interested in joining the club, Dianna can be reached in Room E32.

Yearbooks

If you want to order a year book for the 1986-1987 school year, the year book office, Room E126 will be open during the following times:

Monday	4:30- 6:00 pm
Tuesday	9:00- 11:00 am
Wednesday	9:00- 11:00 am 12:30- 2:00 pm
Thursday	3:30- 5:00 pm
Friday	9:30- 11:00 am

Please have your NAIT ID Card or number and \$10.00. The cost is \$13.00 including postage.

ATHLETE OF THE WEEK

Sheenagh Woywitka

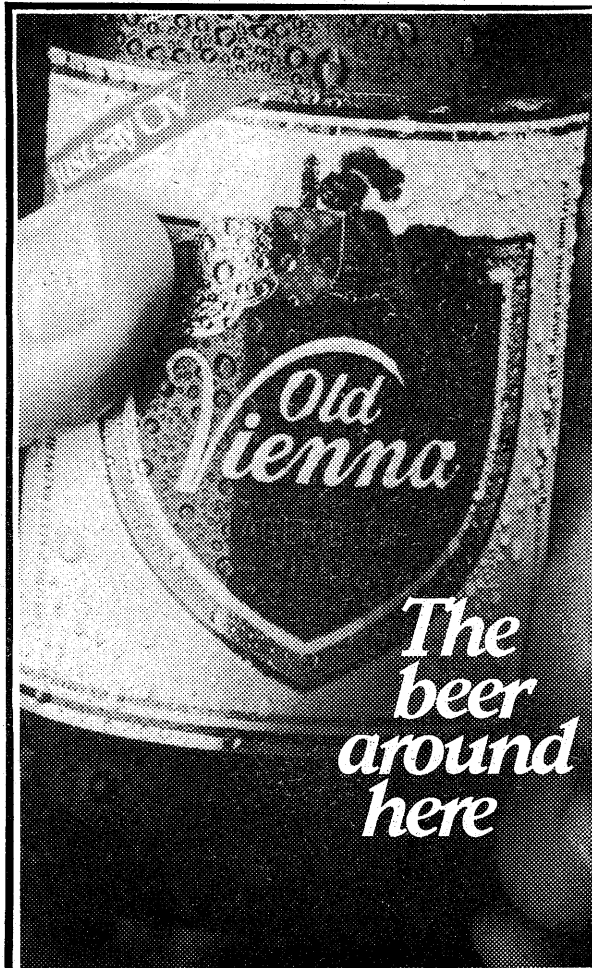

Height: 5'4"
Position: Setter
Technology: Marketing
Home Town: Edmonton

Quick reflexes and a sharp mind are qualities necessary to be a good setter in the ACAC. Sheenagh possesses

these qualities and has proven repeatedly that you do not have to be a giant to excel in the ever growing sport of volleyball. Her jumping

ability makes up for her size while her quickness allows her to reach many balls that seem impossible for a setter to get. Sheenagh's enthusiasm and her positive attitude have played a major role in the success the women's team has enjoyed this season.

SPORTS

OOKS SQUID SQUAD SWEEPS SWIM MEET

By Alastair Frankie

Last weekend 11 Masters swim teams including the N.A.I.T. masters convened in Lethbridge to participate in the 5th Annual Lethbridge Invitational Meet. For N.A.I.T., the two days in Lethbridge were a complete success. The Ooks (affectionately referred to as the

Squid Squad) cheered their team mates to 19 first place positions and left opposing teams in no doubt as to when a squid swam. The team cheer "go Ooks" gradually mutated and sounding more like "Gooks" baffled the competition. "Every team member did exceptionally well" said coach, Jeff Riddle "almost everyone had best times."

Amidst the numerous sporting achievements of the week end were a few "FUNNER" moments. A definite highlight of the two day trip was encountering Rick Hansen just south of Claresholm. Congratulations and encouragement were offered in typical N.A.I.T. style. Of not as great consequence, but equally as satisfying was the snow balling of team trouble maker, Beatrice Verveda, outside of

the Lethbridge Smitty's. The host team prepared a tremendously satisfying post-meet dinner, the acquired calories being subsequently spent on the dance floor at Alleyoops (our hotel bar).

Special thanks to the Student association for providing transportation and hotel accommodations and to Barb and Steve for doing all of the driving.

PROCHNAU SETS SCORING RECORDS

Nait guard Kathy Prochnau capped an incredible season with an outstanding offensive display against the Grant MacEwan Griffins while scoring records. Kathy scored a record 46 points in Nait's 72-59 win over the Griffin's on Friday Feb. 27 at Grant MacEwan's Millwoods Campus. The 46 points is an ACAC single game scoring record erasing Mary Lynn Lang's record 45 pts. set last week in Red Deer's 121-35 win over Camrose. Kathy finished the

season with 354 points which was not only the top in the ACAC this season but established a new conference record for single season scoring, surpassing Kathy Gorman's 353 points. The sharp shooting guard was good on 3 of 6 three point shots, 16 of 24 field goals and 5 of 6 free throws.

Kathy Prochnau has now scored a total of 831 points in 3 seasons and is 2nd only to Rhonda Wolfram's ACAC career scoring record of 935 points. That record will

likely fall to Kathy next season as she completes her second year of Medical Lab.

The win gave the Chicks a 6-10 record in league play which left them in 6th place and out of the playoffs. In opening round playoff action Mount Royal will face Sait while Lethbridge hosts Red Deer in the best of 3 series. The ACAC Champion will represent our conference at the CCAA Nationals hosted this year by Mohawk College in Ontario.

NOMINATIONS FOR...

NAITSA EXECUTIVE BENEFITS HONORARIUM

President
Vice Pres.
Administrative Assistant
Publications Director
Athletics Director
Activities Director

\$490.00/month
\$290.00/month
\$290.00/month
\$290.00/month
\$290.00/month
\$290.00/month

Plus \$100.00 for Rock & Talks and Cabarets.

All members receive a parking stall in the staff lot. All members tuition fees are paid.

All members receive a 20 percent discount at student stores.

All members receive an office.

The President has a travel budget which is used for conferences and meetings.

ATHLETICS DIRECTOR

Duties—

1. Presides over all meetings of the Intramural Council.
2. Represents the Student Body on the Athletic Board.
3. Sits on the executive board meetings once a week.
4. Sits on the General Council meetings twice a month.
5. Is responsible for hiring a head referee.
6. Supervises all the activity of the head referee and referees.

ACTIVITIES DIRECTOR

As the title implies, the activities director organizes and promotes extra-curricular activities for the students of NAIT. These activities range from Rock & Talks every second Friday to major events such as Beer-fests.

This involves co-ordinating many different companies and people to accomplish a specific activity. For example, to hold a Beerfest, band agents, production companies, security people, and the Vender operators must be informed at all times as to how the event is run. Organization is essential for the smooth operation of a function. It should be noted that there are only two Beerfests a year to plan.

The Day-to-Day operations are what are important: poster & cabaret approvals for techs; booking entertainment for common hour and Rock & Talk; attending executive, general council and committee meetings.

As with any job worth doing there are occasional frustrations, however, the rewards far outweigh them.

PRESIDENT

The duties of the President of the NAIT Students Association are to represent the students on various committees both inside and outside of NAIT.

Some of these committees involve working with the NAIT Administration The Board of Governors, and the Provincial Government. In addition to these meetings the President is the chairman of the weekly Executive Council meetings and the bi-monthly General Council meetings.

A new job for the president this year is being a member of the NAIT Foundation Board of Directors. The NAIT foundation is a non-

Vice President

The Vice Presidents position covers several areas with an emphasis on five main areas.

1. Shinerama
2. Queen Week
3. Blood Doner Clinics
4. Election
5. Charities

The Vice President is also required to sit on several committees and act as a Public relations person for NAITSA.

The position is very rewarding and interesting. It does however, require extra time during certain events.

BOARD OF GOVERNORS ACADEMIC COUNCIL

As my fellow Student Board Member so capably described the responsibilities involved in a Board position, I will not go into the details again. However, I would like to emphasize that anyone who wants to run for a Board position must carefully consider the time commitment involved.

To be an active member of Board, a great deal of background reading is required. Also, you must be well organized in order to have time to attend Board and Committee meetings without hampering your academic performance. After all, you are a student first which is why you have the opportunity to be able to serve on the Board.

If you are determined and organize your time well, the experience you could gain as a member of the NAIT Board of Governors would be invaluable.

I encourage you to give some thought to running for a position on the Board of Governors and if you want more information, please feel free to leave a message with Joy in T-400 in the Tower.

I would be delighted to talk with you.

Terry Buchanan.

profit organization dedicated to the advancement of NAIT. An important aspect of the presidents job is communication. In order to represent the students it is important to know their problems so that they can be dealt with by the appropriate people.

The President is a very involved person, however, he is still a student. He is limited by the constitution to the amount of class-room hours he can take, and must maintain a certain average in his classes

For more information contact Chris in the Naitsa office E133.

Administrative Assistant

The Administrative Assistant's duties are:

Attending and taking minutes for all Executive, General Council and Publication's Board Meetings.

Transcribing minutes and distributing them to members who attended (or were supposed to attend) these meetings.

Typing correspondence for executive members.

Assisting in coordinating activities such as Shinerama, Queen Week (especially) and elections.

Preparing and submitting a Stationary and supply order for NAITSA every month.

Sitting in on various committees such as the Interior Alumni Advisory Council and the Alcohol Awareness Committee.

Attending the ACTISEC conferences which are held every two or three months.

Learning to deal with other people and maintaining positive relations with NAITSA staff and members. This is very important!

Having an all around great year!

Publications Director

A person who is willing to dedicate time, energy and leadership is a potential Publications Director.

Some duties include: weekly Executive meetings, bi-monthly General Council meetings and Publications Board meetings; supervision of three departments, photography, The Nugget and The Northern Torch; participating in NAITSA events and activities and on committees.

The Publications Director has the responsibility of producing three major publications: the Activities Calendar, the Student Handbook, and the Telephone Directory. The preparation and production of these involve part of the summer so be prepared to sacrifice. Becoming the NAITSA Publications Director could be the best educational and social decision you make.

Board of Governors

Our student elections are approaching, and you will have an opportunity to run for or elect two student Representatives to the Board of Governors.

For those of you unacquainted with the workings of responsibilities of the Board, I'd like to provide you with a brief overview.

In April of 1982 the N.A.I.T. Board of Governors was established to direct the affairs of this Institute. Prior to this the Government of Alberta had been in control of operations. The Board was created as a result of the Governments' realization that not only would N.A.I.T. be more responsive to change under the direction of a Board, but it would provide a better link between N.A.I.T. and it's public.

The Board consists of 10 public members appointed by the Lieutenant Governor in Council, 2 academic staff members, 1 member of the non-academic staff, 2 student representatives and the President of N.A.I.T.

To give you an idea of the magnitude of the responsibilities of being a Board Member, it is important to

realize that every employee of N.A.I.T. is an employee of the Board. Combine this fact with the knowledge that the Board of Governors is responsible for such things as preparing the budget (in excess of \$70 million last year), long and short range capital development and program rationalization, and the enormous responsibilities involved become clear.

As a Student Representative it is your responsibility to attend regular meetings held once a month, attend special functions, be a member of at least one Board Standing Committee, and be aware of students opinions on key issues. It is also essential to realize that although you are elected by the student population, you are not a member of Student Council and do not represent the students directly. Student concerns to be presented to the Board are addressed by the President of the Students' Council and channeled through the office of the President of the Institute to the Board.

If you have any questions leave a message in T-400 on the 4th floor in the Tower.

By Don Ramsay

For more information on these positions contact anyone at the NAITSA office.

STUDENT BUSINESS LOANS

Do you want to be your own boss?

If you are rich in ideas on how to start your own summer business, but poor in the funds you need to put your ideas into action, there's a good chance you qualify for a Student Business Loan.

If you are currently a full-time student who will be returning to school this Fall and you are legally entitled to work in Canada, you may be eligible.

Details are available at Canada Employment Centres, Canada Employment Centres for Students, any branch of the Royal Bank of Canada, Quebec branches of the National Bank of Canada, and at the Federal Business Development Bank.

Or call toll-free 1-800-361-2126.

Live Broadcast: Science Leaders and Music From Australia

Dallas, TX (February 11, 1987)... Today's college students view the future as more than just what will happen next semester; more than what direction their career paths will take. Students are concerned with what kind of a world will be left for them when the politicians and technology experts have had their say.

On March 11, College Satellite Network (CSN) will give students the opportunity to talk with officials who decide the future. The live, interactive program, "Science & Technology: The Future", will be broadcast via satellite from Australia and is scheduled to include such luminaries in the science field as Dr. Alvin

Toffler; Isaac Asimov, and former astronaut Sally Ride. Appearing on tape will be Carl Sagan, Norman Mailer and Arthur C. Clarke. President Ronald Reagan will make special taped remarks to the students.

Immediately following the science and technology broadcast, CSN will present "Live from Australia", featuring Midnight Oil from Australia, and Hoodoo Gurus live from a stop on their U.S. concert tour.

The broadcast is slated to start at 6:00pm on March 11. It will be broadcast on TV's in the NAITRIUM.
