OPINIONS

Hear Us

A young woman by the name of Julie Daschuk stopped by here this morning. She is from N.A.I.T. Radio and came by to gather some information about the Nugget in order to prepare a public service announcement. Thinking that many people on campus may miss this announcement, this medium will also be used to discuss some of the factors that affect us at the Nugget.

The best way to start would be to tell you about a positive aspect first. The biggest improvement this year came to us from the N.A.I.T. FOUNDATION. The Foundation supplied us with a fantastic new desk top publishing system, purchased with some of the proceeds from last year's car raffle. Great machine, better when we know how to use it to its potential.

Then there is the other side. Facts like the number of student submissions to this paper. They are virtually non-existent. This paper is published by students for students. Surely there must be something happening around you that deserves your comments.

If you have a submission, come and place it with your student number in the "N.A.I.T. News Service" box outside E128. Submissions must be in the box before 5:30 p.m. Monday to make Thursday's paper.

Hopefully service announcements like Julie's and editorials of this persuasion will increase the utilization of this paper by staff and students alike.

Hope to hear from you.

Literacy

Almost everyone in the world knows at least one language in spite of every conceivable form of economic, geographic, physical, cultural, racial or emotional handicap. Is it not logical to assume that, given a reasonable opportunity, almost everyone should also be capable of reading and writing at a comparable level?

According to the recent Southam News survey, as reported in the Edmonton Journal, this is not at all a valid conclusion. This survey indicates that five million Canadians and as many as one in three Edmontonians are functionally illiterate; meaning that they cannot read, write or use numbers well enough to meet the literary demands of today's society.

Specific figures aside, this survey draws attention to a serious and fundamental flaw in modern instructional methods. Try to read something like the American constitution and you will see how much the standards of literacy have dropped over the last few hundred years. Of course, the literacy rate was lower then as a much smaller proportion of the population was educated, but it is this fact of the lowering of the literary standards that points to the source of the problem. Obviously, the methods of instruction employed to achieve the then standards of literacy are not the same as those employed to instruct more modern populations. Perhaps to educate everyone we have sacrificed educating anyone.

My own experiences include tutoring people on a number of different levels. I found that a principle source of difficulty was deficiencies in fundamentals including grammar, spelling, phonetics and definitions of simple words, and that concentrating on those areas produced the best results.

Almost invariably, the best students are the best readers. Universal education would be a far simpler, more feasible and less expensive concept if people were taught to read well first, regardless of the time spent to achieve this.

John Brownlee

Academic Council

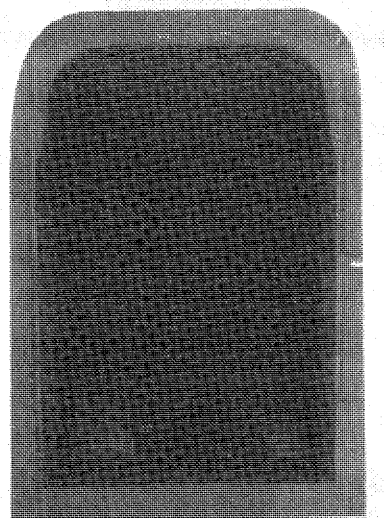

Hey

Architecture! Where was your bridge building team on Saturday! I thought after last year's beating you gals in architecture would be eager to at least attempt revenge. You made it easy for us last year, but this year was pathetic. Maybe next year you, as well as any other tech that did not pull a team together, will have just a little more enthusiasm and come out and show what you are made of! (Or was this your way of showing what you are made of!)

Signed: The Winning and Only Female Team of Bridge Building

P.S. Congrats to all teams that did participate. Well done! Special thanx to the guys that "interfered" with our bridge building.

The Distribution Dilemma

Nugget distribution. Too much? Not enough? Do you break for lunch on a Thursday to find your most convenient Nugget box empty?

Or, are you on the verge of buying a Porsche because you have been saving two weeks' worth of extra papers for recycling? We want to know! If you have any gripes or commendations about how we get the Nugget to you...drop us a line. You can phone the Nugget Office at 471-7615 or simply drop off a note in the box outside E128.

The NUGGET is the official student newspaper of the Northern Alberta Institute of Technology. It is published Thursdays from August to April.

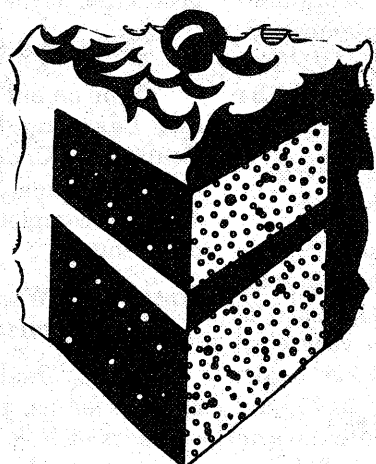

The opinions contained in the NUGGET are the opinions of the individual writers and do not necessarily reflect the views and opinions of the NUGGET staff.

Contributions from students are more than welcome. The NUGGET reserves the right to edit letters and viewpoints for brevity. Submission deadline is Monday at 5:30 p.m. for each issue. The NUGGET is located at E128. Phone 471-7615.

FIRST CLASS DAY

OCTOBER 1, 1987

a day of activities celebrating the 25th anniversary of the arrival of the first class of students at NAIT on Oct 1, 1962

IT'S A PIECE OF CAKE!

- and you're invited to have some -

Free birthday cake will be available at all campus cafeterias from 11:00 am for as long as it lasts. In the South Cafeteria cake will be served after the **CAKE-CUTTING CEREMONY** at 11:45 am

also : coffee and tea (only) will be sold at 1962 prices (10¢) during the day.

Neck!

ENTERTAINMENT

SATURDAY

Shinerama Beerfest

Last year for the Shinerama Cabaret there were a few letters written to the Nugget concerning the liquor prices of the Convention Centre. This year with the student's budget in mind a price of \$2.25 per beer (draft or bottled) was negotiated. The price of high balls will also be \$2.25. This is considered a very reasonable and generous gesture for the Convention Centre to make and it is only for this Shinerama function. So come on out on Sept. 26 and enjoy the music of the Parachute Club, Nick Danger and James Zackery. Also featured will be comedian Tim Koslo.

Last year we had Doug and the Slugs for our Shinerama function and we raised \$3,200 for cystic fibrosis research. This year we're hoping to top that, so come out and support this very worthy cause.

Nick's Back! Nick Danger! New & Improved!

Fresh from two months of preparation and rehearsal, Alberta's premier progressive rock roadshow is poised and ready! Nick's put together one of the most extensive sound and light systems currently on this circuit with a playlist featuring the songs of Genesis, Phil Collins and Peter Gabriel, but that's not all! Pink Floyd, Pete Townsend, Kim Mitchell and more! Nick's whole repertoire has been modified, and he's even got a few of his own creations too!

Danger's gang has also been fortified with some fresh talent, and this crew is HOT! But then Nick's always had a hot band with a tight sound. What else would you expect! A record you say!?! Well...let's just say September is studio time. After that, be on the lookout! Expect him when you don't!

See him at Shinerama Beerfest.

Then for a closer look see him in the NAITRIUM Sept. 30 at 1:15 p.m.

Comedian
TIM KOSLO

Living and Learning Expo '87: Education & Fun Under One Roof

Edmonton's third "Living and Learning Expo" will feature more than 50 organizations from Alberta participating in a free afternoon extravaganza of educational information, entertainment, demonstrations and door prizes. The Expo will display the enormous variety of courses available to adult learners as well as high school students pondering their academic future.

Scheduled for Sunday, October 4th, 1 - 6 p.m. at the Edmonton Convention Centre, the Expo will enable adults to obtain a comprehensive picture of the diverse learning opportunities available to them through dozens of non-profit educational institutions and agencies. Adults will have an opportunity to learn more about the thousands of part-time continuing education options including courses in computers, business, crafts, cooking, literacy, languages, personal development, etc.

High school students and their parents will learn more about Alberta's post-secondary system by viewing displays from educational institutions, government agencies and community service organizations.

"Living and Learning Expo '87" is open to the general public. Admission is free. For further information please call 441-4840.

Cheap Thrills!

N.A.I.T. Has \$1 Movies!

N.A.I.T., under the auspices of the Students' Association, shows movies in the Little Theatre, Room H-5, most Saturday and Sunday nights at 7:00 p.m. The cost for these showings is \$1.00 per person. The next presentation will be Saturday, September 26 and Sunday, September 27, when "Star Trek IV: The Voyage Home" will be showing.

Library to Hold Fourth Annual Book Sale

The Edmonton Public Library will be holding its fourth annual book sale on October 1-4. This is a very good deal, with hard cover books and LPs selling for \$0.75, and paperbacks, periodicals and 45s each selling for \$0.25!

There will be thousands of items to choose from, covering almost any subject imaginable, from Apple Records to Zoology.

Shinerama This Weekend

Come on out and help N.A.I.T. fight cystic fibrosis by shining shoes. This may not sound like much fun, but you will be surprised! Join up in groups of two to four, dress up in costume, (be your favourite gangster) and help a good cause at the same time.

Living and Learning

Come on out to the Living and Learning Expo at the Convention Centre. This free event is taking place October 4, and is completely described to the left.

And Now a Word From Our Sponsor...

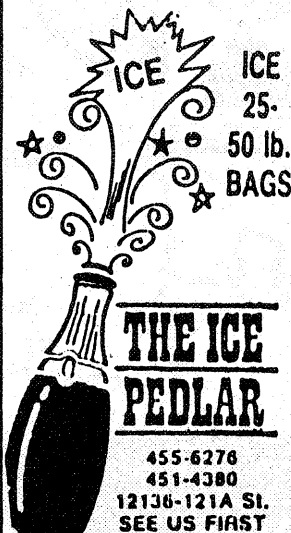

Cheap Thrills will be a column for us, the penniless students of N.A.I.T. I will be trying to collect items that will be of interest to us, but cost little if anything. Drop off future suggestions for this column at the Nugget office (room E128).

Attention All Rockers:

There will be a Rock & Talk on October 2nd. It's not on your NAITSA calendar so be aware.

Tickets go on sale Wednesday at 2:30 at the student stores.

ENTERTAINMENT

Star Trek IV - The Voyage Home

...or just around the corner to the Little Theatre, Saturday September 26 and Sunday September 27, 7:00 pm.

by Peter Wilkinson

On the whole this picture is a must see for two reasons.

The first being that it is the triple sequel to the first three Star Treks, and the second is a screen play that allows the actors latitude they have not seen for twenty-plus years.

Through Star Trek III: The Search For Spock, we came to see Leonard Nimoy as a director, but not a great amount as Mr. Spock. This new film features the venerable one as both his timeless character and in the main chair.

As the title indicates, we are privy to the further adventures of Kirk and friends as they return from the planet Vulcan (fresh from last flick's box office returns). This trip features some added fun, such as an amnesiac Spock, an unfamiliar Klingon ship and a nice little time warp. Throw in an Earth-endangering crisis

to alleviate the boredom, and you have an often times unbelievable but excellent movie. Well worth a dollar...before it costs \$3.99 at the video shop! ★★

ANARCHY IS ANARCHY

by J. Jones

Accidental Death of An Anarchist is playing at the Kaasa Theatre in the Jubilee Auditorium until October 4th.

This is a Northern Lights Theatre production about a 20-year-old Italian political event. There is strong acting in this play, especially by Kent Gallie as the Fool. Accidental Death concerns a scandal involving an anarchist accused of bombing a bank. The Fool, a man with a thousand disguises, tries to uncover the truth behind the police's testimony.

Accidental Death is slow-moving at times but also an insane slapstick farce. Accidental Death is definite entertainment value for those who enjoy a political satire and the intimate environment of a theatre such as the Kaasa. Admission is \$8 for students.

The Pick-Up Artist

by George & James

"The Pick-Up Artist" is the story of an elementary school gym teacher with a load of lines for "picking up" any girl he meets. The movie begins with him practicing his lines in the mirror and running around town doing just that, until he runs into a girl who is trying to help her father, who owes money to the mob, and he falls for her.

What bothered me most about this film was the title. It seemed to me that this was an ideal topic to make a very funny movie out of. It's really directed at teenagers because of its PG rating, and even they did not find this movie funny. It wasn't. If I am supposed to give this film a good rating, I have to have fun. Well, I didn't, I was bored. It also seemed as if the characters were bored with each other even though they were supposed to be in love. (George - 0.5 Stars)

Again I am left wondering if George is seeing the same movie that I am. This movie is humorous, even with its slow part near the end of the movie. Robert Downey does well in his part as Jack Jericho, the Pick-Up Artist. Molly Ringwald comes of age and independence in this film, a little older and wiser than in Sixteen Candles. The writing in this story could have been a little bolder and George is right in that the characters didn't totally blend. But it is far from the flop that George predicts. (James-3 stars) ★★★

Ladies!

Are you interested in improving your dance skills, or perhaps exploring something new? Then come out Monday afternoon to the Social Dance group in PLE. We meet in room S-8 in the Activities Centre, at 4:15 on Mondays. We will be learning such dances as the Jive, Foxtrot and Waltz, so come one, come all!

Crazy Moon

Crazy Moon is a comedy-drama about a boy (played by Kiefer Sutherland, who also played the head vampire in the Lost Boys) with a few peculiar mental problems (he likes to take pictures of dog turds, plays with mannequins, and is afraid of water), who falls in love with a deaf girl.

This is a Canadian film shot in Montreal. It has excellent acting, and a believable story line. However it drags its heels in spots; it seems rough because it lacks the gloss of an American feature.

It is very difficult to give this film good marks because I found myself uninterested with the characters, however I was not bored with the film either. I have to struggle to give it a 3. ★★★

The Principal

by George & James

According to the documentation we got, "THE PRINCIPAL" tells the story of a high school principal who faces the toughest teaching challenge of his career when he is assigned to a tough inner-city school where street-fighting and gang-intimidation are more important than reading and writing. The film is about second chances, human compassion and self respect.

When I first saw it, I gave it so-so marks, but the more I thought about it, the less of an opinion I had of it. I simply could not believe that a school in such poor shape, as the one portrayed in this film, could be in operation anywhere. The story just doesn't work. The actors are in an impossible place doing an impossible task, and we are expected to believe it. Not likely. (George - 1 Star) ★

I agree with only one thing that George has said, the actors are in an impossible place doing an impossible job. Tell me what is so unbelievable about gangs, drugs, extortion, assault in a mid-east urban city ghetto. James Belushi, Louis Gossett jr., and Rae Dawn Chong each perform their parts adequately and their characters are believable. This movie

does work, although it does seem a little too much at times, it is interesting and entertaining. (James- 3 stars) ★★★

Let US make your party a SUCCESS

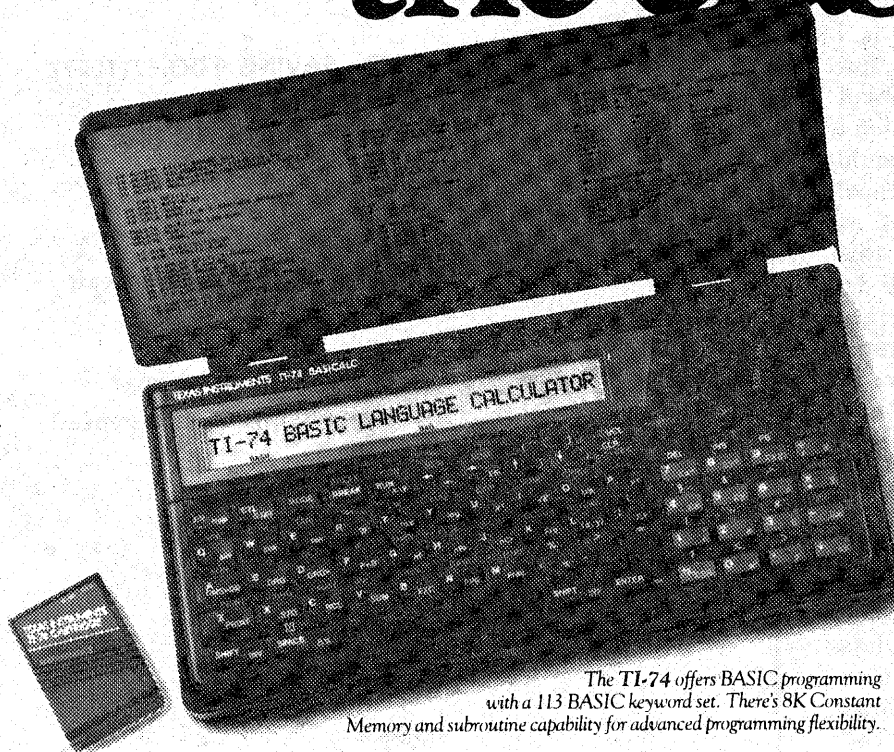

15th Annual B.C.E.T. Bridge Building Competition

This year was very special. Not only was it the 15th annual running of the event, but the boys in B.C.E.T. brought home the cup (won last year by the U of A civil engineering students).

For those of you unfamiliar with this event the objective is simple. Without the use of tools, a 20 member team must build a bridge. That is the simple part. The trick is all 20 team members must make a return trip, and if that's not enough, a return trip is to be made carrying a beer-laden team member on a stretcher.

It all adds up to be a most enjoyable day (and cabaret) for spectators and participants alike. Next year your tech should enter a team. The B.C.E.T. students have shown they are up to the challenge. Are you?

Power tools for the classroom.

The TI-74 offers BASIC programming with a 113 BASIC keyword set. There's 8K Constant Memory and subroutine capability for advanced programming flexibility.

The TI-95 offers powerful 7200-step keystroke programming and features our exclusive Power Windows™ which provide easy access to the functions and flexible file management system.

TI programmable calculators have all the right functions and enough extra features to satisfy your thirst for power.

To all you science and engineering majors unsatisfied with mere calculators, TI has good news. Your power tools are

here. The TI-95 PROCALC™ is keystroke programmable and the TI-74 BASICALC™ is BASIC language programmable. Each has a full range of scientific, mathematical and statistical functions, and plenty of power extras.

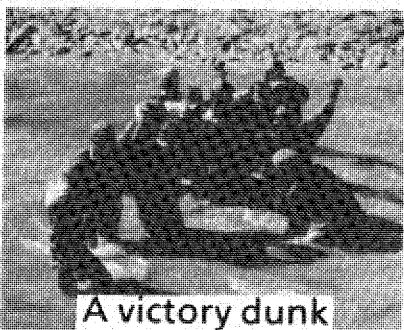

Both have optional equipment such as Solid State Software™ modules,

including math, statistics and chemical engineering, and a module with an additional 8K Constant Memory. Additional power accessories include a separate portable printer and cassette interface.

So if you're into power, look for the display in your bookstore for a demon-

stration of our power tools. They build such a strong case for themselves, our competition doesn't know what to make of them.

Shinerama
has raised
approximately
\$4.3 million
for Cystic
Fibrosis
Research

WHAT IS CYSTIC FIBROSIS?

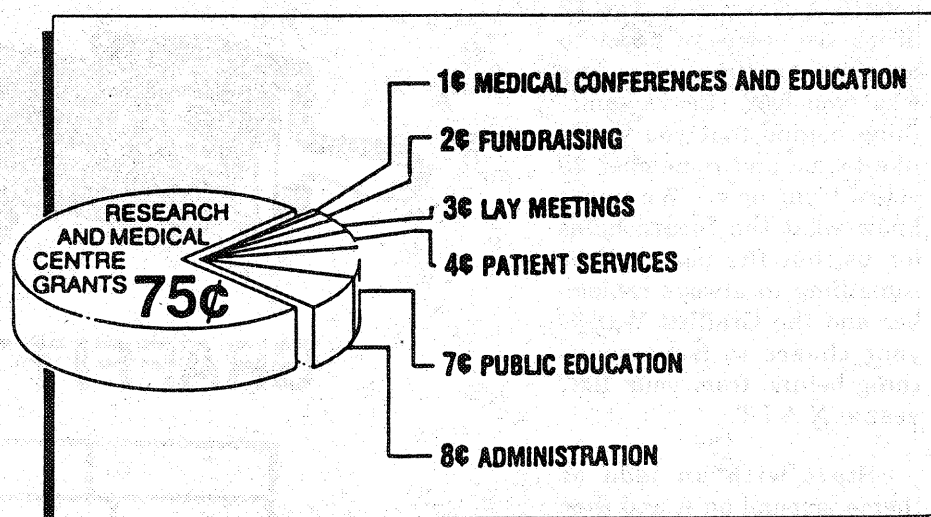

- Cystic Fibrosis is the most common, life threatening, hereditary disease of children and young adults; it affects both the lungs and the digestive system.
- CF occurs when a child inherits two genes for the condition; one from each partner.
- One in 20 Canadians carries the gene for Cystic Fibrosis.
- Approximately one in every 1800 children born in Canada has Cystic Fibrosis.
- There is no known cure or control for Cystic Fibrosis.
- Those living with CF must undergo rigorous treatment programs everyday just to stay alive.

support CF research volunteer your help

HOW DOES YOUR MONEY HELP?

Under the supervision of its nationally recognized Medical Advisory Committee, the Canadian Cystic Fibrosis Foundation grants for research projects aimed at a cure or control for Cystic Fibrosis, and supports CF clinics where care and treatment are available to patients across Canada.

EDMONTON SHINERAMA 1987

A WORD FROM NAITSA

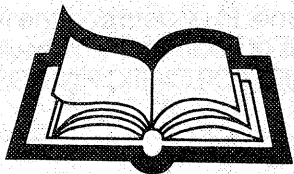

NAITSA NEWS

Firstly, a huge congratulations is in order to those technologies who attended the September 15th General Council meeting. Thirty nine techs were represented, which is the most since thirty seven techs attended the November 4, 1986 meeting. This is fantastic attendance! Let's keep it up, techs, and General Council will be stronger and more productive than ever! A special congratulations goes to Retail Meatcutting, Millwork and Carpentry, and Surveying who attended a General Council meeting for the first time in over a year.

This week we would like to let students know about A.C.T.I.S.E.C., which stands for "Alberta Colleges and Technical Institutes' Student Executive Committee". As a member of this organization, NAITSA sends at least two delegates to each A.C.T.I.S.E.C. meeting, which are held approximately every two months at a college or technical institute. At these meetings, we discuss mutual concerns affecting students, exchange ideas and feedback, and discuss current events at the colleges. In addition, A.C.T.I.S.E.C. has resulted in better relations between the schools, improved competitiveness, and good friendships.

On October 2nd and 3rd NAITSA will be hosting the A.C.T.I.S.E.C. General Meeting. As well, the thirteen member colleges will be meeting with Dave Russell, Minister of Advanced Education. It is a great opportunity for NAITSA to show our hospitality to Alberta's other post-secondary institutions. We are looking forward to exchanging more information with our fellow colleges and technical institutes. If you would like any more information about A.C.T.I.S.E.C., feel free to talk to any member of the NAITSA executive.

This weekend, Sept. 26, is a great opportunity for N.A.I.T. students to show our hearts, energy and involvement. Shinerama '87 raises money for cystic fibrosis research and is a lot of fun. We urge all students to consider getting involved in shining shoes on Saturday. Talk to your friends. The day will start with a free breakfast and end with a mammoth beerfest. In addition, shiners will have a chance at many, many prizes and technologies can win huge prizes for all their students. Be there!

YEARBOOKS

Students wishing to purchase 1987-88 books can go to the yearbook office, E126.

Cost is \$13.00 per book which includes the cost of mailing directly to your residence.

Students who paid \$10.00 for the 1986-87 book can pick up their books. N.A.I.T. i.d. card or receipt is necessary.

If there are any questions please contact the editor, Lorraine Butchart, in E126 or the publications director, Angela Moskal in E133.

Note: Office hours are posted on the yearbook office door.

Graffiti Wall

N.A.I.T.'s 25th Anniversary Graffiti Wall.

What? Graffiti, opinions, ideas, words, pictures, what ever you see as graffiti

Where? South Lobby

When? Oct. 1, 10:00 a.m. to 3:00 p.m.

Who? You, the students

Why? Leave a part of you for the future to see and win a great prize if your entry is one of the three best.

1st prize Balloon Ride courtesy of Windship Aviation

2nd prize Dinner for two at Waldens

3rd prize Two tickets to an upcoming rock concert

As part of N.A.I.T.'s 25th Anniversary we want you to say what's on your mind and put it on our wall. Let your imagination wander, and your felt flow on a 8 x 12 (brick size) piece of paper to be hung on the wall. Say what you feel. Leave something behind that you would like to see and remember 25 years from now. We never know what the future holds for us, but the past will be something to always remember and the Graffiti Wall is your chance to leave something behind from your 1987 year at N.A.I.T.

Start with an idea or theme, expand on it and then hang it. It could be you who wins any one of our great prizes. The top 25 will be preserved for all to see in the year 2012 when N.A.I.T. celebrates its 50th anniversary.

FIRST WIN WIN PRIZES CLASS PRIZES DAY

NAITSA in the '60s

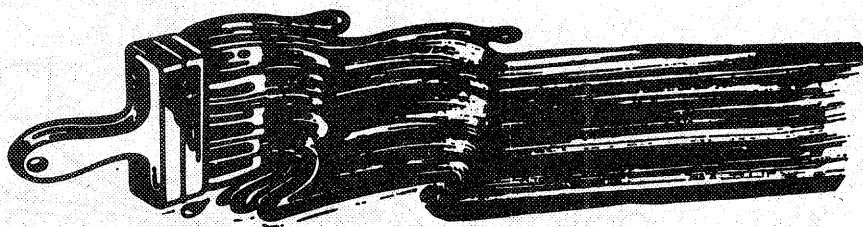

All you have to do to win \$50, is match the baby pictures of your NAITSA executives to their pictures now. Pick up the October 1 issue of the Nugget, fill in an entry form and drop it off at the NAITSA office by 6:00 p.m. on First Class Day.

SHOW YOUR SCHOOL SPIRIT

Blue and Gold are our school colors. Wear them on First Class Day to show pride in your school. We will be looking for you!

25 YEAR OLD STUDENTS

If you are 25 years of age as of October 1, 1987, you are eligible to win a \$25 gift certificate. All you have to do is shake the Ook's hand on First Class Day. The first five 25 year old students to walk up to the Ook, shake his hand, and show him their Student I.D. Card along with some other identification (eg. Birth Certificate, Drivers License) that has their birthdate on it, will win.

SPORTS

Cross-Country Running Team Competes in Calgary

N.A.I.T.'s cross-country running team finished in fifth place on the weekend. The meet was held by Mount Royal College in Calgary. The bright sunny weather produced ideal running conditions but our overall team results could have been better. Last year we finished fourth in this meet and then went on to win the A.C.A.C. title.

In the combined men's and women's trophy event Mount Royal finished first followed by Lethbridge, Camrose, Red Deer and N.A.I.T.

In the men's event N.A.I.T. finished fifth with excellent efforts from Willy Woods (seventh) and Chico

Morales (eighth). The N.A.I.T. women finished fourth with N.A.I.T.'s best runner being Donna Marvin, who finished fourteenth. The men's course was 8 km and the women's was 4 km.

You too can become a member of the Cross Country Running Team. Just show up in front of the Main Gym Monday, Wednesday and Thursday at 4:30 pm.

Next weekend (Sat. Sept. 26), the N.A.I.T. team travels to Red Deer for the Red Deer College exhibition cross-country races. The women's race begins at 11 a.m. and is followed by the men's race at 11:30 a.m.

Soccer Oaks Unbeaten

The NAIT Soccer Oaks opened their regular season with a pair of victories. On Friday, September 18th, the Oaks blanked Grant MacEwan 4-0 and on Saturday, the 19th, the Oaks scored an 8-0 victory over Lethbridge.

In Friday's match, NAIT totally dominated the crosstown rivals. The Oaks had jumped out to a 3-0 lead at the half before adding one more in the second half. Charles O'Toole led the Oaks with three goals while Brian Daniels added a single.

In Saturday's game, the Oaks scored more goals in one game than any NAIT team had before. Charles O'Toole notched four goals, Scott Parsons netted three, and Kevin McCabe scored once.

The Oaks next home game will be against SAIT on Sunday, September 27th at the NAIT field. Game time is 12 noon.

Ooks Basketball: Is This The Year?

When coaches have inner confidence in the future of their team, there is a good possibility the team may outperform the expectations of most observers. N.A.I.T. men's basketball coach Dave Hoy is quietly confident about the prospects of his 1987-88 squad.

During his coaching tenure at N.A.I.T., Hoy has moved the Oaks from pretenders to contenders for the A.C.A.C. title. Last year, the Basketball Oaks entered the national rankings for the first time and were ranked as high as eighth in the nation. Last season, the Oaks dropped final to the S.A.I.T. Trojans in two games. It was the first

time since Hoy took over the coaching reins that the Oaks had reached the A.C.A.C. final.

Last season, three Oaks were named as second team all-stars (forwards Brian Lazaruk and Frank Mrkonjic, and guard Travis Heighington). Both Lazaruk and Mrkonjic will be back with the Oaks this year.

In addition, other returnees from last year are guards Kirk Jones and Adrian Toppin and forward Rob Molnar.

The rookies with the Oaks will ultimately determine the future of the team and, so far, Coach Hoy is pleased with the rookie talent in camp. One of

the keys to the Oaks will be how the newcomers adjust to the competition of the A.C.A.C.

One of the players Hoy predicts to take on a leadership role with the Oaks will be Dexter Amour. Amour is a 6'2" guard formerly with the M.E. Lazerte Voyageurs. Talking about Amour, Hoy stated "Dexter will have a real impact on this team."

The biggest coup for the Oaks may be the acquisition of Chris Mantley. Hailing from Queen Elizabeth High School in Halifax, Mantley is only 5'8", but he has great potential to become the point guard. Like Spud Webb of the Atlanta Hawks who is of

comparable stature, Mantley can dunk the ball easily.

Up front, 6'5" forward Wayne Grant should provide some strength on the boards. The former member of the Victoria Composite Redmen was selected as the most valuable player in the NAIT Blue-Gold Classic High School Division last December.

Chris Nielsen, a 6'0" guard, should help the Oaks with his shooting ability. Nielsen played the first half of last year with the Oaks.

The N.A.I.T. Oaks will participate in the A.C.A.C. Preseason Basketball Tournament in Camrose on Friday, October 30th and Saturday, October 31st.

Athlete of the Week

Dave Vriens
Technology: Air
Conditioning (2nd year)
High School: M. E. LaZerte
Height: 6'0"
Position: Defense-Sweeper
(Capt.)

ATHLETE OF THE WEEK

Dave is the captain of the N.A.I.T. Oaks soccer team. He has a very extensive soccer background touring England with Alberta's under 19 team and this summer he played with the Edmonton Brickmen in the Canadian Soccer League on an amateur contract.

He has provided great leadership on the field which resulted in the Oaks starting the season with two victories. His vast soccer experience is very beneficial to the 1987-88 Oaks soccer team.

Just say OV

SPORTS

Sports Comment

Over the past few years, the debate has been raging whether the University of Alberta or N.A.I.T. provide a higher level of athletic competition. There is no doubt that both post-secondary schools offer a level of competition that is unmatched by other amateur sport organizations in this province.

For years, the U of A has claimed to have superior sporting programs. However, the U of A did not boast so loudly when the N.A.I.T. Hockey Oaks reached the same level of performance as their counterparts at the U of A a number of years ago.

One advantage that the U of A has over N.A.I.T. in sporting programs is that the average length of a degree program at the university is four years. At N.A.I.T., most diplomas are obtained in two years. As a result, the job of recruiting is much more difficult at N.A.I.T. as their is a greater turnover of athletes.

One drawback to the university league is the tendency to regard their sports programs as tops in the nation. This attitude often leads to a state of complacency and a lack of desire to improve. However, clubs in the Canadian Colleges Athletic Association realize that only hard work will result in fair comparisons to the C.I.A.U.

Every once in a while, the pride of the league is on the line. Let's support the N.A.I.T. Hockey Oaks this weekend when they take on the University of British Columbia Thunderbirds at the N.A.I.T. Arena and see who wins.

Sports Quiz

Let's think about football. The USFL had the nickname of the United States Folding League. Below are the nicknames of a number of teams you tell me the city which they called home.

1. Gunslingers
2. Generals
3. Blitz
4. Express
5. Gold
6. Breakers
7. Renegades
8. Federals
9. Stallions
10. Bandits

Hockey Oaks Win One, Tie Another

The N.A.I.T. Hockey Oaks opened their pre-season this past weekend with one win and one tie. The Oaks competition was provided by two clubs from the tier two Alberta Junior Hockey League. The Oaks scored seven goals in the third period en route to a 10-3 triumph over the Hobbema Hawks on Thursday, September 17th. The following night the Oaks played to a 6-6 tie with the St. Albert Saints at Akinsdale Arena.

In Thursday's contest, the Oaks were led by Marty Volcan who netted a pair of goals in the third period. Allan Cherniwchan, Brian Powell, Murray Melnyk, Dean Rutledge, and Craig Cripps rounded the third period Oak scoring barrage. Hobbema's sole marker of the third came off the stick of Russ Clamp.

Don Jones and Vince Ashton gave the Oaks a 2-0 lead after the first period. Myron Feser scored the Oaks lone goal of the second period. Gilby Pasco and Darren Yellowaga replied for the Hawks in the middle period as the Oaks lead was narrowed to 3-2 following 40 minutes.

In Friday's game, the Oaks received two goal performances from Dean Rutledge and Allan Cherniwchan. Murray Melnyk and Kent Maltais added single markers for the Oaks.

The Oaks jumped out to leads of 4-3 after the first and 6-5 following two. The Saints scored the only goal of the third to make the final a 6-6 deadlock.

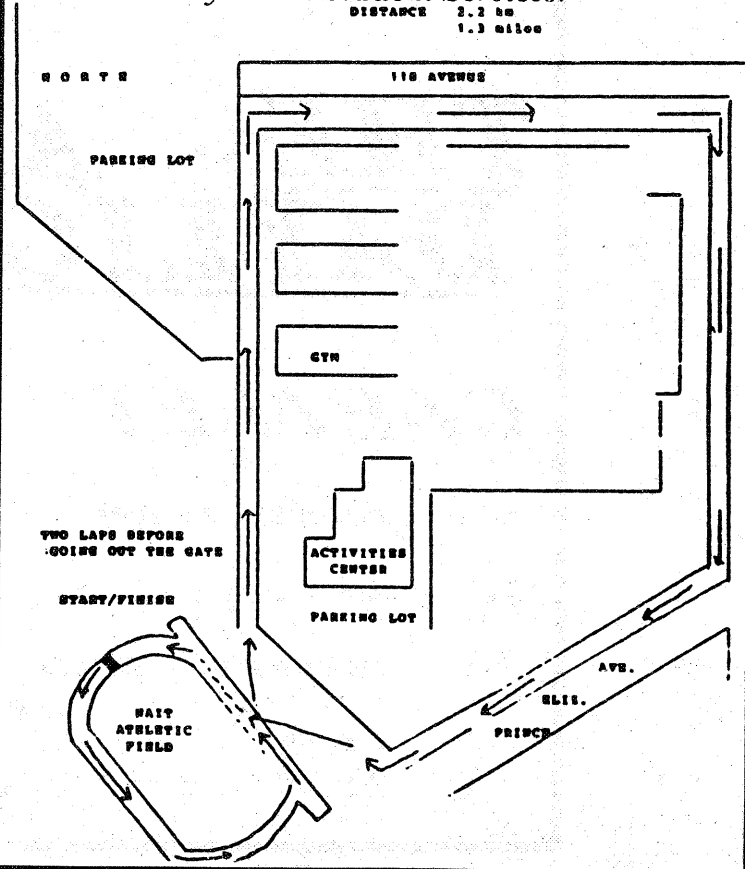

The Oaks now take a record of one win and one tie into this weekend's exhibition play. The Oaks will entertain the UBC Thunderbirds for a pair of games. Game time for action on Friday, the 25th, and Saturday, the 26th, is 7:30 p.m. at the N.A.I.T. Arena. Then on Sunday, the 27th, the Oaks will play their first game against an A.C.A.C. rival. The Red Deer College Kings are in town for a 1:30 p.m. match at the N.A.I.T. Arena.

The N.A.I.T. Oaks are also planning to host an invitational hockey tournament from Friday, October 2nd through Sunday, October 4th.

Indispensable

When you're feeling so important
And your ego is in bloom
When you simply take for granted
You're the wisest in the room
When you feel your very absence
Would leave a great big hole,
Just follow these instructions
They will humble any soul.
Take a bucket filled with water
Put your hand in to the wrist,
Pull it out, the hole remaining
Is how much you will be missed.
Splash wildly when you enter,
Stir a lot and splash galore,
Then stop, and in a minute,
It looks just like before.
The moral of this story
Is do the best you can
Be proud, but please remember,
There's no indispensable man.
