### Welcome from NAIT's President

Dr. Stan Souch  
President of NAIT

On behalf of the entire staff, I would like to extend a warm welcome to both new and ongoing students.

Though NAIT is the third largest post-secondary institution in Alberta, it has managed to maintain a friendly, personal atmosphere. In part, that is because most students, whether they are located at Westerra, Westwood, Patricia, or Main Campus, have a strong identification with their

own program area and the students and staff within it. However, the key element in the atmosphere at NAIT is the supportive attitude exhibited by staff and students alike.

Both inside and outside the classroom our focus at NAIT is on involvement as a prerequisite to success. As a student, most of your time and energy will have to be devoted to studies; however, I hope you will take advantage of other opportunities on campus for involvement and personal growth. Become involved in the NAIT community through participation in student government, social and recreational activities, campus publications, or special projects. What you learn outside the classroom can be a valuable complement to what you learn in your program of studies.

I wish you an enjoyable and rewarding year at NAIT.

Over \$50,000 in prizes!  
Biggest NAITSA event of the Year

NAIT has been involved with Shinerama for the past 22 years. It's back this year bigger than ever!

Shinerama is a fund raiser where post-secondary students across Canada shine shoes in exchange for donations to Cystic Fibrosis. Cystic Fibrosis is the most common, life threatening, inherited disease of Canadian children. At present,

\*in conjunction with Grant MacEwan and U of A

## Shinerama

CF is incurable and the life expectancy is thirty years of age. The funds raised by Shinerama are used for researching a cure for CF. In August of 1989, researchers discovered the gene responsible for CF, and shortly thereafter learned to correct the gene under laboratory conditions. With the continued support of students like you, a cure will be found in the next two to ten years.

Now that you know what it's all about, here's what is in it for you:

**SATURDAY, SEPT. 14**

- free breakfast
- free t-shirt
- chance to win from over \$50,000 in prizes including a trip to Vancouver, VCR's, TV's, free party at Molson House
- free lunch
- wrap-up cabaret featuring Black-Water Jack and Steve MacGarret's Hair
- a great time
- much, much more!

Make sure you sign up now! Not much time is left! (Registration is in room E133C.)

### JOIN ACADEMIC COUNCIL

This committee requires five student members and needs two more to complete it.

This group is required by the Technical Institutes Act and exists chiefly to advise the

Board of Governors on academic matters. These include programs of instruction, academic awards, and stands and policy respecting the selection and admission of students.

Meetings of Academic Council typically occur on the second Monday or each month.

For further information contact Dan Lachambre, Academic VP in NAITSA E-133.

## NAITSA Bill 31 Response

*A bill that may result in a lack of bills for Alberta colleges and Technical Institutes*

Chris Horne  
NAITSA President

The colleges and technical institutes of Alberta have been put between a rock and a hard place with the Provincial Government. It is in the form of a new bill that is in the process of being passed through the Legislature. This is the new University Foundations Act and it gives the universities of Alberta an unwarranted edge on raising money for their institutions.

In the bill under section 6 it reads, "...the foundation is an agent of the Crown in right of Alberta." This is where the colleges and technical institutes of Alberta find their dilemma. The university Foundations will now be an agent of the crown, therefore any donations to the

Foundation will be given a 100 percent tax credit up to 100 percent of the donors income. Donors to our foundations will only get the tax credit up to 20 percent of their income. This may result in the large donations going to the Universities of Alberta because of the large tax credit donors will receive. An example of this kind of donation would be large one-time gifts from estates and donors who are disposing of large assets.

Minister of Advanced Education John Gogo has tried to reason this bills unbalanced charity by saying that this bill is primarily for research donations. While NAITSA agrees research is important to the organization of the universities, we feel in these rough economic times, all Alberta schools deserve a chance to enhance their own Foundations money making

potentials.

It is NAITSA's position that we are behind any venture to support post secondary institutions as long as it does not give advantages to particular groups. This bill does give that advantage to the universities, and our solution would be to include the colleges and technical institutes of Alberta in this Legislation.

Considering that most of the Colleges and Technical Institutes of Alberta have recently made cutbacks on their campuses, they are relying more and more on their Foundations to help them supplement their budget. Without the Government of Alberta increasing funds to post secondary education, this bill might result in some harmful effects.

See chart below.

These figures show that the Foundations of

colleges and technical institute's make up very little of the Institutes budget. However, it is better to raise money through the Foundations rather than passing the cost to students through auxiliary fees.

Nobody really knows what this new legislation will result in, but can we be satisfied by the "wait and see" mentality? It may have little or no

impact on NAIT because the Bill's target donations traditionally go beyond the scope received by college Foundations. But how long do we have to wait to see if there are any harmful effects? If one large donation is missed a college or technical institutes of Alberta because of this Bill, it is one too many. The Bill should be amended to include colleges and technical institutes.

### POLITICAL HACKER

A REGULAR  
WEEKLY COLUMN

Mr. Mulroney decided this past week that he is tired of hearing people whine about the situation our country is in. After all, whose fault is it that we are trying to recover from a recession? Whose fault if it that Canadians close to the American border are cross-border shopping like there is no tomorrow? Does anyone want to take the blame for how elitist our post secondary institutes are becoming? Let's for the sake of argument put the source of these problems on Mr. Mulroney and his Conservatives.

Now, instead of complaining let's try and help Brian with these problems. If the Conservatives need a place for their supposed GST windfall why not give it back to the provinces for post secondary education. An educated population in a productive population. A mentally and physically productive population might come up with better ideas than Canada-US Free Trade; and ideas brighter than Free Trade might help us out of this recession.

It is the minds educated at post secondary institutions that will come up with the economy moving ideas this country needs. Funding instead of cutting back programs institutes offer is one solution. So if the government will remove its ear plugs we could all sit down and do some brain (instead of Brian) storming.

## Locker Fees Initiated

Chris Horne  
NAITSA President

This year NAIT has initiated a new locker fee which will add to the financial burden the students undertake. This will now add another \$20.00 to full term students' costs. The idea of adding this auxiliary fee was officially conceived of in the middle of 1990 but was not incorporated until this year. The new NAITSA Executive was disappointed to hear that this would be the year to start this new fee.

It is unfortunate that this fee had to come into effect. The NAIT Administration must feel that this will help supplement their straining budget, but I feel auxiliary fees are not the answer. Students find it hard enough with the financial commitment they have right now, and nickel and diming

the students hurts the system more than it helps it.

Along with the new locker fees comes increased parking fees. Full time students will now pay \$7.00 more a month to have a parking spot. This is an increase of over 65% across the board. Last year's NAITSA Executive made a point of saying that the locker fees must not set a precedence with auxiliary fees; the higher parking fees shows that these costs will continue to mount. This will then deter many students from coming to NAIT because of higher costs. Student loans do not always take into account the auxiliary fees a student must pay, therefore these students will have

cannot continue to be stuck with these auxiliary fees. NAIT needs to find the extra money they need elsewhere. This money should be available from the Provincial or Federal Government but right now they do not make education a priority. If we want education to be a right and accessible to all people who want to make the effort, the government must reset its goals. The next Provincial and Federal elections could be the determining factor of where post secondary education is going in this country. It is imperative that this issue is at the top of the election mandates in the upcoming elections.

The future of Canada is lying in our hands. It is up to the government to direct it in the best possible way.

## "MEET US AT THE MALL"

As the Alberta Government puts more and more restrictions on Post-Secondary Education, the individual institutions must add this burden onto the students in tuition and auxiliary fees. But the NAIT Foundation is here to help NAIT's budget by their fund raising activities. The Foundation helps the institute by covering costs for projects that might normally be passed on to the students.

This is where we as students can and should help out. This year, as chair of the "Meet Us At The Mall" corvette car raffle, I want the students to be a determining factor in raising funds. Our goal this year is \$20,000 in student sales.

As the doors to the institute open for another academic year, one should not overlook the outstanding recreational and athletic opportunities at NAIT.

The Alberta Colleges Athletic Conference gives talented, hard working individuals the opportunity to excel against stiff competition. The quality of NAIT's athletic program is evident in the seven national titles brought home in team sports over the past decade.

The coaching staff at the institute is one of the best in the nation. Leading the way is NAIT Ooks hockey coach Perry Pearn who has guided the Ooks to five national titles and the Team Canada Juniors to two world championships. Ooks curling coach Jules Owchar coached Kevin Martin to Canadian titles at the junior men's and men's levels.

Athletes who compete in a sport which winds up the season with a

national championship are eligible for Jimmie Condon Athletic Scholarships. Presently, athletes participating in soccer, volleyball, and basketball are eligible.

For the recreationalist, NAIT offers facilities second to none. Racquetball and

squash courts, a swimming pool, a weight room, and a hockey arena are just a few of the places where the student can go to unwind.

While at NAIT, participate -- whether it be as an athlete or a fan. Continue the tradition in excellence!!!

# ABC'S ....

Here we go. Since many of us are not familiar with NAIT, I thought I'd throw in a little dictionary of terms. Some of these words and places will cross your pallet. Any ways here's the ABC's of NAIT. I hope you enjoy them.

**Activities Centre (n)** - location of the pool, ice arena, OOKS Hockey team, and all the sports coaches.

**Administration Offices (n)** - where teachers hide from students. Not to be confused with the NEST, where teachers hide with students.

**Bakery (n)** - located downstairs near the south cafeteria entrance, hours are posted weekly. Awesome baked goods, arrive early as they sell out fast.

**Bank Machine (n)** - location of the long line-ups at noon. Equally as long as cafeteria at noon.

**B12 Complex (n)** - Vitamin. Wonder drug of the nineties. Useful in controlling hangovers if you take about four (before you drink!).

**Bookstore (n)** - exactly like the LRC except more expensive. Location of the second longest line-ups at the beginning of the year.

**Business Tower (n)** - now complete with four operational elevators and houses the only smoking lounge with an airport view.

**Cabarets (n)** - a co-ed socializing event held either Friday or Saturday in a dimly light room, with loud music and copious amounts of spirits.

**Cafeteria (n)** - Good place to get a quick, inexpensive meal, unless you're there at noon.

**Cafetorium (n)** - also known as the North Cafeteria and the location of the Rock 'n' Talks every second Friday.

**Cashier (n)** - where you go when they find out you haven't paid your tuition. Location of the third longest line-up at the beginning of the year.

**Coffee Hound (n)** - 90 percent of the students who have eight o'clock classes. Coffee cup is surgically attached to hand. Need we say more.

**Comedy Night (n)** - held every Tuesday in the NEST, call for reservations.

**Dead (adj)** - adjective which most accurately describes students who have eight o'clock classes.

**Determination (n)** - anyone who leaves an assignment until the night before, or anyone who tries to convince their instructor that they *should* have passed must have plenty of this.

**Dissect (v)** - how you find out what they *really* put in your sub. See also Lab.

**Drink (v/n)** - what you think you really need while writing an exam (n). What you really need to do when the weekend comes (v).

**Essay (n)** - lengthy piece of your writing and your time which makes up a large portion of your mark. Often left until the last few days.

**Euphoria (n)** - feeling of elation or well being on Friday after the last class. Also can be felt somewhere above .08.

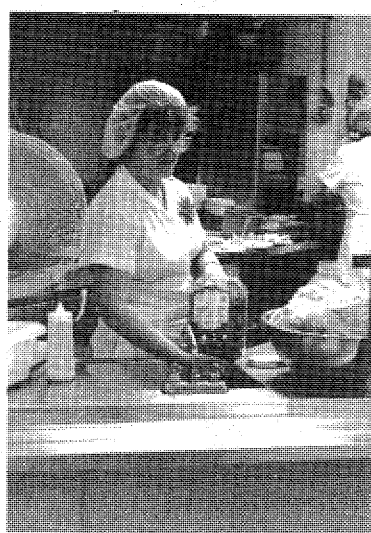

**Evidence (n)** - that feeling of euphoria that RCMP will use against you in a court of law, etc., etc. It's generally better to take a cab.

**French (n)** - opposite of English. This language is useful to politicians and peoples of Quebec. Some useful expressions: "*Comment ca va?*" (How goes it) and "*Ca va bien*" (It goes well). Now you can have a complete French conversation. See also Zut!

**Friday (n)** - last day of the school week. Day of relief and intoxication officially kicks off the weekend. Most Cabarets take place on Friday.

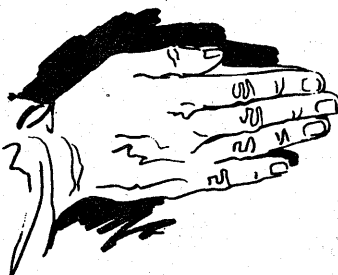

## GAMES ROOM

**Games Rooms (n)** - located in E-21 Main Campus, L-126 Plaza II and at Patricia Campus.

**Garnish (n)** - those pickles that stay on your plate long after the hamburger is gone.

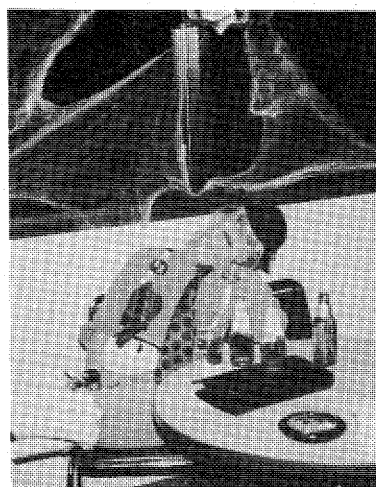

**Glenn, Susanne (n)** - Student Association Communications VP who has been known to say "I can do this" on numerous stressful occasions.

**God (n)** - Supreme Being worshiped by most people. Prayed to often at exam times - "God, help me pass this test."

**Grapple (v)** - to struggle with an idea. Often leads to procrastination, out of frustration. "Aghh, I'll do it later."

**Guts (n)** - see Lab.

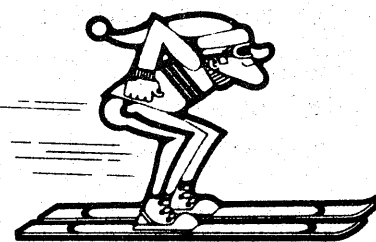

**Hangover (n)** - disagreeable physical effects following heavy drinking. See also B12 Complex.

**History (n)** - a chronological record of significant events with an explanation of their causes. ie. "The test on Friday was a real bitch, so I went out Friday night and got wasted. I had to work Saturday with a killer hangover."

**Horne, Chris (n)** - Student Association benevolent (single) President.

**Horizontal (adj)** - best position for sleep or for hangovers. Examples of this can be found in the lounges.

**Hypothesis (n)** - an assumption made based on logical consequences: ie. "Hmmm, I drank, therefore I am hungover."

**Infidelity (n)** - more fun than skiing!

**Infinity (n)** - length of time; as in amount of time left between now and summer '92.

**Intramurals (n)** - like a sports team with a shorter season and no practice schedule, for the regular John and Jane Doe student.

**Jail (n)** - generally a good place to avoid. If you want a record try A & A or HMV. See also Evidence.

**Job (n)** - human labour resulting in payment of money necessary for bills and beer. "Well, that's what we want out of this place right?"

**King (n)** - selected through the Royal Games every January to represent NAITSA at various events. Looks great in a tuxedo.

**Knowledge (n)** - understanding gained by actual experience. Refers to something kept in the mind: ie. innards of the fetal pig. Some things would rather be forgotten.

**LRC (n)** - the Learning Resource Centre. Lets not call it a library, no the LRC has so much more as it houses books and AV materials. Open about 84 hours a week.

**Labs (n)** - a piece of equipment for experimental study in a science. Generally not the most favorite part of any course. Let's refer once again to the dissection of the fetal pig.

Take these words with a new confidence that when someone asks you what exactly the NEST is like, all you've got to say is...

"TUNED IN"  
CONTEST

NAITSA is pleased to present its first contest of the year. It's really easy (sort of) and it will help you get acquainted with your student handbook.

HOW IT WORKS

Throughout the NAITSA student handbook (you got one at registration) are quotes from songs. The following are riddles about the quotes. Each riddle contains a clue about the quote or the singer and a clue about the location of the quote in the book. All you have to do is find the quote and fill in the blanks after the riddle. Then fill in you name, ID number and phone number and drop the whole thing off in The Nugget Submission Box at E-128.

WHAT YOU CAN WIN

We will draw winners after each edition of the paper in September. Then we will draw a grand prize winner at the end of September from all entries received. So, you have lots of chances to win neat stuff.

Grab a pen and a couple of friends and see if you can solve these riddles.

Around exam time you'll end up working like a mans best friend here and the nights won't be soft. Check the hours of the source and the answer will appear.

All John said was for us to give it a chance. All we are saying is know when to put a lit on it. The party animals should definitely become "aware" of this "week".

This Dutch band who were named after a yellow earlobe decoration blamed it on the devil. Light up a cigarette (but "only in a designated area") and solve this one.

BONUS

Oops! When putting the quotes in we goofed. One quote got in twice. This is a "Challenging" problem but if you "elect" to try it then think of "sports" and "democracy" (and read between the quotes too!)
