FRIDAY, FEBRUARY 22, 1991

## LET'S SELL THOSE CORVETTE CAR RAFFLE TICKETS

Once again, the NAIT Foundation's "Meet Us at The Mall" campaign is underway. This project is designed to create awareness for NAIT and the NAIT Foundation as well as offer a grand prize of a 1991 Corvette valued at over \$58,000 through a car raffle.

The "Meet Us at The Mall" display and car raffle travels to every major mall and trade

show in Edmonton and its surrounding area, and began December 20, 1990 and ends on August 24th, 1991 at West Edmonton Mall. It can easily be said over 1,000,000 people will have been exposed to the project.

This year's 1991 corvette is a beautiful medium, quasar blue convertible equipped with a 5.7 litre tuned-port-injection V8

engine. It also has over \$7000 in options, including a removable hard-top, leather reclining seats, and a deluxe AM-FM stereo package. As well, a matching mini-corvette valued at \$2,200 accompanies the grand prize.

On April 27th, 1991 there will be an early bird draw for a trip for two to London, England plus \$2,000 cash.

Tickets can be purchased at the student store, the cashier's office and NAIT Foundation office. Tickets are only one for \$3.00 or three for \$5.00.

The goal of the NAIT Foundation's "Meet Us at The Mall" project is to net \$100,000 of which \$90,000 plus a possible matching grant will be directed towards the General Endorsement Fund. \$10,000 plus a possible matching grant will be directed to capital equipment for Westerra Campus. To date the total amount of money raised by "Meet Us at The Mall" project exceeds \$640,000.

Students are encouraged to get involved with this worthwhile project by selling raffle tickets. NAITSA is offering cash prizes to the largest and smallest technology and to the individual student that sells the most tickets. A goal of \$25,000 worth of ticket sales has been set by NAITSA President, Roxanne Beaubien.

Based on that goal, it means \$2,500 in cash is up for grabs. The breakdown will be \$1,425 to the largest technology, \$712 to the

smallest technology and the balance (\$363) to the individual student who sells the most tickets. Sales are on a technology per capita basis.

Of course, if higher sales are achieved then the cash prizes will be higher. Ten percent of the total student sales is available in prizes from NAITSA.

In addition, prizes are available for the individual student who sells the most tickets in a two week period. A random draw every two weeks will also take place for those who have returned their cash and stubs from completely sold books. The sooner you sell and return the money and stubs the better chance you have of winning a prize. Prizes include Oiler tickets and various gift certificates. Remember, the more you sell the more you can win! NAITSA welcomes you to come down and visit their office to pick up your book of tickets. For more information and tickets, see Roxanne Beaubien or Lynda Hood at NAITSA (E133).

## Security Bulletin

During the past couple of weeks, NAIT Security has investigated numerous incidents where Women's handbags have been stolen and valuable personal property taken.

In most cases the handbags have been left unattended for a few minutes resulting in the handbags being taken and the property stolen. The handbags have been recovered nearby usually in a washroom or garbage container.

On Sunday, February 10, 1991, at about 5 p.m. an attempted theft of a purse in the Business Centre resulted in the following description of the thief:

White Male, Height 5'6" - 5'8" age 20 years old, black jacket and pants and white

sneakers and baseball cap.

Should staff or students see the person described above, anything suspicious, or someone who does not belong in a specific area please contact NAIT Security at 7477.

All students and staff should take the following precautions to prevent further incidents:

- ensure property is locked securely when not in use,
- handbags, back packs and other personal property are not left unattended,
- lockers are locked with good locks,
- office areas are locked when unattended.

The cooperation of all students and staff would be greatly appreciated.

## Citizens' Forum on Canada's Future

By Patricia McKinna  
Student Coordinator

When the Canadian Government announced the formation of The Citizens' Forum to allow Canadians the chance to have a direct impact on the country's destiny last November, sceptics lathered. Here, they said, was another royal commission--another weighty volume to gather dust in the parliamentary library. They were wrong.

When the twelve commissioners of the Citizens' Forum met to set their own rules, they decided not to have any. Canadians can make

their statements known in a variety of ways:

1) Organize a small discussion group or ask one of the campus clubs to which you belong to devote a part of their next meeting(s) to such a discussion. The Forum can provide you with Discussion Kits and advice on how to organize such a group.

2) Remember this number: 1-800-663-6786. This is a toll-free number to ask when the Commissioners will be visiting in your area, how to contact the provincial office of the Forum, or how to order Discussion kits that

contain discussion points, response forms, and other items for organizing meetings.

Make your views and opinions on Canada's future known directly by calling the toll-free number above, or write a letter to: Citizens' Forum on Canada's Future, P. O. Box 1991, Station B, Ottawa, Ontario, K1A 1A2.

**NO NUGGET NEXT  
WEEK DUE TO  
MIDTERM EXAMS.**

**WE WILL RETURN  
MARCH 7, 1991.  
SUBMISSION  
DEADLINE WILL BE  
MONDAY, MARCH  
4, 1991.**

## Future Employment?

By Brenda Manser  
Editor

The country's in a recession. No, this isn't something new.

The Alberta government is laying off personnel left and right and the unemployment rate is steadily rising.

What does this mean? Well, how about our chances for employment after Graduation? Graduation is

only 67 days away. Only 67 days to compile a perfect resume and cover letters and send them to prospective employers.

Two years of blood, sweat and tears to graduate into a world of war, few jobs, and lower paying jobs.

I will admit, I'm one of those people who still haven't compiled their resume and will rely on the last minute.

Whatever the future economy will bring, the best place to check out for job postings is the NAIT Placement Centre.

The Placement Centre (O-111) is also a great place to get information on resumes, interviews and job search techniques on an individual or group basis for full time students.

## Letters To The Editor

Dear Editor:

In response Farah I would like to point out that there IS proof that US did not cause the oil slick by bombing tankers, if you pause to think about it. The shape and sheer VOLUME of the skills could not be caused by bombing a couple of tankers. It would require bombing a tanker every other day for well over a week to achieve an elongated slick of this size.

About the bombing of innocent Iraqis, the US has spent millions of dollars developing and perfecting these smart weapons. I hardly think that they would have bothered if they were not concerned about killing non-combatants. The old way was MUCH cheaper.

In regards to the need for war, I hardly think moral integrity would have been much better off letting the "innocent Iraqis" rape indiscriminantly and murder at will in Kuwait. Sometimes war is the only answer when dealing with a madman who won't listen to reason, and also more humane than the alternative had the US done nothing as you seem to suggest.

Signed, Herman.

P.S. If you know a better way to win a war than dropping bombs on important targets, tell General Colin Powell.

(General Powell could do with some more suggestions on how to end the war limiting

the number of casualties).

Dear Assistant Editor:

I am writing with regards to your editorial to state that buying your kitten on impulse was a good and wonderful thing. Having a pet is a big responsibility and one that needs careful planning. The majority of people that buy pets on impulse do not stop to think about the implications of what they are doing. (Particularly students.)

You are not always going to live where you are now and when you move it may be very difficult to find a place that accepts animals. Then what do you do? Take it to the SPCA?

Most pets bought on impulse without previous planning end up at the SPCA. Sure it might get adopted, but 2 out of every 3 cats and one out of every 3 dogs brought to the SPCA are euthanized (put to sleep). Approximately 40 pets are euthanized everyday, that means 200 a week or approximately 10,000 a year, in the City of Edmonton alone. Not to mention the pets that are destroyed at the pound.

In my opinion pet stores should not be allowed to sell animals and should only be a source of pet supplies. Animals sold at pet stores are not required to be spayed or neutered. Not spaying or neutering your pet is very irresponsible as it

## Coffins By Convicts

By Jennifer Hawthorne  
Assistant Editor

What will they think of next? In a campaign to attract foreign investors The City of Drumheller has definitely hit on a rather different type of entrepreneurship.

A entrepreneur from Hong Kong has suggested a joint venture between himself and the federal department of correctional services to have inmates in Drumheller build

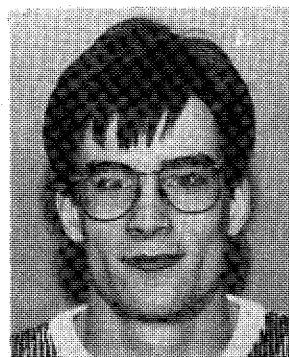

coffins. Yes, coffins! But not just regular, ordinary coffins. He would like to manufacture Asian caskets as well as traditional ones.

These convicts should be quite pleased with this proposal as they would be earning about \$4.50/hr compared to what they earn now (between \$3 - 6.35 a day). This can't look too bad to them, all things considered.

I've got to hand it to this Hong Kong entrepreneur for his ingenuity and creativity.

## Government Taxes and Cuts

By Dave Murray  
News Editor

Next week Michael Wilson will be bringing in this years budget. With his comments that it was the hardest budget he had to formulate it leaves no doubt in my mind that taxes will go up and vital services will be cut. This is his idea of bringing the national debt down.

Dick Johnston, Alberta's Treasurer, is going to wait to see what his federal counterpart does before he brings his budget down. Again, there is talk that taxes will rise and programs will be cuts.

My question is will the government, who have said education is their number one priority, cut funding to education?

just leads to the problem of pet over population.

Most unwanted kittens and puppies end up at the SPCA and most are destroyed. I would encourage anyone who is planning to get a pet adopt one from the SPCA. The cost is minimal as cats are \$35.00 and dogs are \$60.00. All animals have received initial vaccinations, and are entitled to a free veterinary exam within 10 days of adoption.

Another benefit to adopting an SPCA pet is

that there is now a very low cost spay and neuter program. So next time you see those eyes think of all the eyes at the SPCA.

Please be kind to animals and act responsibly when you adopt a pet.

Signed, Charlotte Baumann, Animal Health Technology student

(I wholeheartedly agree and DID take each and every point you mentioned into consideration).

# Opinions

## WAKE UP!!

Yes, you! There are only 67 days left of school and numerous things on the agenda for General Council to be passed, or discussed before the new executive take over. So if your technology is in BAD STANDING with NAITSA come to the next meeting on March 5, 1991 and let your voice be heard.

**NAITSA MEMBERS**  
(All Students)

Are you being represented at General Council Meetings?

The following technologies are in bad standing as of February 19, 1991.

- \*Avionics
- Baking
- Basic Banking
- \*Biomedical
- Equipment
- Chem. Tech.
- \*Commercial
- Signwriting
- Cooking
- Court Reporting
- \*Denturist
- Diesel Mechanic
- Dietary
- \*Electrical - Acc.
- Electrical
- Electronics
- Emergency Medical
- Earth Sciences
- Industrial Heavy
- Equipment
- Machine Shop
- \*Materials
- \*Medical
- Transcription
- \*Millwork
- \*Millwright
- Petroleum
- \*Power (POE)

Pre-tech  
\*Retail Meatcutting  
Radio and Television  
Arts  
Secretarial  
\*Surveying  
\*Tailoring  
\*Petrochemical  
\*Have not attended any meetings this year.

It is up to you, the students, to make sure that your technology is being represented. Your technology president or council is responsible to you.

Special recognition and thanks go to the following technologies for consistent attendance throughout the year:

- Air Conditioning
- Animal Health
- Architecture
- Business
- Building
- Construction
- Biological Science
- Civil
- Computer Systems
- Dental Assisting
- Engineering Science
- Forestry
- Hairstyling
- Med. Lab
- Medical X-Ray
- Mechanical
- Engineering
- Plastics
- Respiratory
- Telecommunications
- Westerra

## Student Speak

What do you think of Premier Getty's plan to decentralize the Alberta Government?

David Burnette - CST - I think that it would provide more access for people but I also think it would be more expensive.

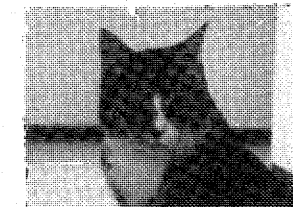

Pat Woods - Pre-Tech Acc. - I am still reserving judgement until I hear more of the facts. It's good and bad both ways.

Lorraine Gamache - Pre-Tech - I think he should leave it alone. He's spending more money to move things around and he's just looking for the rural vote.

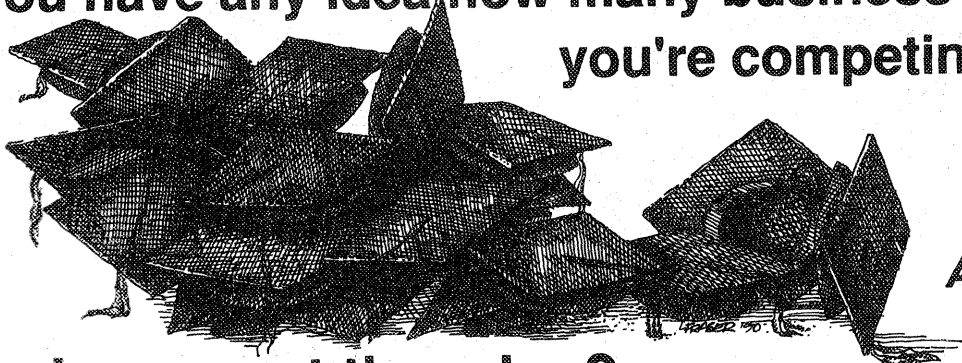

Paul Jobb - CST - If it causes people to move from Edmonton and if it's going to cost more, then it isn't a good plan.

Nixer - I think he's watched too many re-runs of "Green Acres".

Do you have any idea how many business grads you're competing against?

A lot.

How do you get the edge?

*Blend the strengths of your business degree or diploma with one of the most widely respected and sought-after professional credentials.*

In today's highly competitive employment market the Certified Management Accountant (CMA) designation will give you distinction. The new CMA Professional Program features a blend of advanced management accounting, management, professional studies and comprehensive practical experience. From analyzing complex managerial and financial information to executing strategic planning and policy development, the CMA's combination of management skills and accounting expertise is invaluable for decision-making in business, industry and government.

Are you a business graduate with an accounting concentration? You may qualify to write the Entrance Examination for the Professional Program in June 1991. For additional information and to request your registration package call the Society NOW. Application deadline is May 6.

## Photos•Fun•Photos

this year's Yearbook. We want to make this edition of the Northern Torch one to remember, but we can't if we don't get the photographs we need.

AND, if you don't have a camera yet, you know of a terrific event that needs covering let us know so we can send a photographer to capture the events for you. So, if you have any thoughts/ideas on how we can make a better yearbook for you, drop your suggestions, photos and photo requests in our mailbox outside E126 (please include your name, phone number and technology).

Our office hours are:  
Mon., 3:15-6 p.m.  
Tues., 2:15 - 3:10 p.m.  
Wed 11:15 to 1:10 p.m. and 2:15 p.m. to 4:10  
Thurs., 1:15 to 3:10 p.m.

Drop in and talk to us about your ideas, or even if you want to order your yearbook for 1990/1991. But remember, bring photographs of your friends (we want teachers too!!) with your name, phone number and technology so we can return them to you.

Do you want to be famous? If you want to be a "star" then drop off photos of you and your friends working and playing at NAIT. We can't be everywhere at once and who would

know better than YOU where the best parties are? This is the perfect time (midterms) to catch people in those never to be forgotten poses which can enhance the pages of

## Open House

By Dave Murray  
News Editor

NAIT's annual Open House is just around the corner! This year's event is built around the theme "NAIT Graduates get jobs and build careers!"

The past events have been a success because of the involvement from students. "Guests are more apt to talk to students than

instructors," says Blaine Thorsley, Co-ordinator of Open House.

This year's event will have two special functions. The first will be 23 mascots will be present to represent their individual technology in an attempt to win the "Spirit of NAIT" award, for the best mascot. Secondly, the

Hairstyling Program will be holding a reception to thank students, staff, and customers-both present and past.

This year, like past years, students are needed to make the event a success. Students are needed to judge the mascots and to be tour guides. Both would take about two (2) hours of your time.

## Student Feedback on Instruction

A new process for student Feedback on instruction has been developed.

The following schedules list the options available for both Instructors and students, if their interest or concern about the class or program.

1. This schedule is used whenever the Instructor wants to be informed on their progress. It is not required.
2. This schedule is one that will be used if

there are student complaints, or if the Program Head feels a need to request the feedback.

3. This form will be used for temporary or probationary Instructors to evaluate their progress.
4. This form will be used through the Continuing Education Department for their Instructors.

The new process of student feedback is one that will allow

Instructors to evaluate themselves and find out if more than one student has the same concerns.

Future plans for the committee on this project are to develop a format for longitudinal analysis of quality of instruction, and to work on developing a Peer Education Team for Instructors, if there is concern and need for personal development.

If there are any questions concerning this process, please see Crystal at NAITSA E133c or call 471-7603.

## Naitsa News

- Recent changes to the NAITSA Constitution, the Academic Council and Athletics Vice-President duties, have reached third and final reading.

The amendments to Academic Council have made it possible for 7 student representatives including Academic Vice-President to be appointed to academic council. Previously, NAITSA had 5 representatives. Also, the date they take office has changed.

The Athletics Vice-President is now assuming the duties of head referee.

- Students are asked to help out selling Car Raffle tickets. So far, only \$1,200 from student sales have been raised.

- The Constitutional Task Force for the Alberta government have released its findings to the public. Those interested in the findings can be picked up at the NAITSA office, E133.

- Those wishing to write letters to Canadian soldiers can do so. Please drop off your letters at the NAITSA Office, E133.

## Academic Council

There are six student positions to fill on Academic Council before April.

Academic Council is a committee of student representatives, staff representatives and Administration. Together this group passes information to the Board of Governors as well as works on issues which are important to the Institution such as tuition, student behavior, and Institute effectiveness. The group meets once a month to discuss issues,

and make recommendations.

Presently General Council is in the process at amending the NAITSA Constitution, so that the Academic Council members will not have to be part of the annual NAITSA elections. General Council cannot hold a forum on Tuesday, March 5, regular elections will occur.

The six positions are open for nomination for February 25-March 4. Please see Crystal in E133c for further information.

## ATTENTION: CONTINUING EDUCATION GRADUATES!

Graduation is fast approaching, and the preparation of the graduation book is underway. If you are a Continuing Education student who will be completing all of the necessary courses for your diploma this semester, you are eligible to have your name added to the graduation list and attend graduation ceremonies. WE NEED YOUR HELP... in order for you to be granted this honour, you must see your program head to make arrangements for having your name added to your program list. Without this step, you may be missed!

The deadline for ordering your graduation gown for this occasion is March 1, so act promptly, no time for delay. See you at graduation - April 13, 1991!

A friendly reminder from the Registrar's office.

# News

## Foundation Chairman Garner International Award

Ron Hodgson will receive a prestigious international award for his contribution to education. The NAIT Foundation Chairman is being honored with a Dealer Education Award from the Northwood Institute of Midland, Michigan.

In his six-year association with NAIT's fundraising arm, Ron has led the Foundation to accumulate over \$8 million for the support of the Institute's programs and services.

Among 16 North American dealers to win the recognition, Ron

will collect the award at the National Automobile Dealers Association's annual convention in Atlanta, Georgia.

Ron's involvement with NAIT has become deeper over the years as the Foundation's activities have grown.

In addition, he extended his service to the Institute in becoming a member of the Board of Governors in 1990. Earlier that year, he was presented with NAIT's Distinguished Friend of the Institute award.

Warmest congratulations, Ron Hodgson, from the entire NAIT community!

## Valentine Flowers

Thank you to everyone who sent Valentine flowers. As a result, \$149.53 will be donated to the Ronald McDonald House. This averaged to be 77¢ per flower donated rather than the projected 50¢ per flower.

193 Valentine flowers were delivered along with the following names to whom we could not locate:

No message with flower:

- Kristy Lloyd
- Desiree Stewart
- Cheryl Brewer

Message with flower:

- Anita Luszzak
- Mark Persuad
- David D'Haese

If you would like your messages, please see Crystal in E133C as soon as possible.

## Board Seeks Response to Consultants' "Vision"

The Board of Governors has received the report of the consultants retained to draft a "Strategic Institutional Plan" for NAIT. It is the Board's wish, expressed at its meeting of February

4th, that the report be given wide circulation at the Institute.

Accordingly, copies of the "Highlights and Immediate Priorities" section of the report, together with other documents relevant to

NAIT, are being provided to NASA, Local 38, and NAITSA; and made available to staff and students at large through the Library. (The other section of the consultants' production, the "Technical Report", because of its nature and size, is being made available only through the Library.)

A three-member committee has been struck to meet with interested individuals and groups to obtain their reactions to the report and other documents, to aggregate all reactions, and to make recommendations to the Board for

subsequent action. Comprising this trio are Board members Andy Jones, who will serve as Chairman, and Vicki Vaitkunas and staff member Bill Glanville, Dean of the Health Sciences Division. This committee will soon announce the ways in which it intends to carry out these tasks. Its work is expected to be completed by June 1991.

*"Our Board is firmly of the belief that all interested parties should be given ample time to read the report and respond accordingly."*

- Jim Shaw, Chairman, Board of Governors

## Youth Challenge International -Project Costa Rica

Youth Challenge International--a Canadian based youth and global development program--combines community service and environmental research in adventurous projects constructed by young volunteers between the ages of 17-25 years old.

During December 1991-March 1992 Youth Challenge will work with partner organizations in Costa Rica to coordinate dynamic projects. Sixty-five Canadians will be provided with the opportunity to live and work with 40 international youth from Costa Rica, Australia, Guyana and the Soviet Union.

### PROGRAM:

In urban and isolated locations across the country, the participants will work in teams to renovate school facilities, construct community buildings, conduct conservation and biological research, and work with disadvantaged youth.

In selected communities, participants will assist local health practitioners in the provision of basic nutritional and health care information. Working with professional Ophthalmologists, participants will assist in the pre- and post-operative care of cataract patients.

Venturers will be divided into groups of 8-12 with 1-2 staff members responsible for each group. Each

Venturer will participate on three different projects over the three month period. Some Venturers will be directly involved for periods in the administration of logistics and communications from headquarters in San Jose.

Youth Challenge works together with an extensive network of established development and philanthropic organizations, focusing their expertise and material resources upon manageable projects that encourage self-help and sustainable development. By coordinating technological assistance and international expertise with the enthusiasm and initiative of the participants, Youth Challenge's responses to local problems will be assured resounding success.

Participants make important personal contributions towards scientific endeavors, community development and the environment. In the process they acquire new skills, and learn the value of teamwork and international cooperation. Regardless of the program, Youth Challenge is sure to provide an unforgettable experience that will have a profound effect upon the lives of all who participate.

Application forms can be picked up from the NAITSA Offices E-133.

## Congratulations Corvette Raffle Tickets

Incentive Prize Winners for  
2 week period ending February 19, 1991

### Most tickets sold:

Brad Erickson (Business) - 2 Oiler game tickets donated by Foundation

### Random Draw:

Andy Demeter (Air Conditioning) - 2 Pita Pizzas donated by The Nest

### Total Sales Update:

#### Top ticket sales in each division

Large Tech - Business (13 books)  
Small Tech - Animal Health (8 books)  
Individual - Brand Erickson (8 books)

As you can see anyone and everyone still has a chance to win cash prizes for most ticket sales.

We are now at the point in this campaign that we desperately need your help. The goal set for student sales is \$25,000; to date students have sold approximately \$1,200 and we only have a month and a half left. If each student that reads this newspaper were to pick up and sell one book of tickets, we will reach and pass our goal. Please help us to help the students of tomorrow. Pick up a book of car raffle tickets in E133 from Lynda or Roxanne.

# NAITSA Elections Around The Corner

## PRESIDENT

**Roxanne Beaubien**

Do you like partying all the time? Do you want to have an office at school so all your friends can hang out? Do you want to collect an easy pay cheque? If you do turn the page right now because NAITSA isn't for you! But if you have a genuine interest in NAIT and in student life at NAIT you should consider running for the position of NAITSA President. The President has a number of responsibilities which include: Chair of Executive and General Council meetings; represent student concerns to NAIT administration, government and the general public; director on the NAIT Foundation; sit on a variety of committees; NAITSA Director on the Alberta Colleges and Technical Institutes Student Executive Council (ACTISEC); oversee general office duties and support Student Association activities.

As you can see, this job does require a big time commitment! It is a great opportunity to gain experience that will help you after graduation. It will also be a lot of fun.

There is some travel involved, and you will meet and learn from students across the province.

Being involved in student government is an opportunity of a lifetime and well worth the required investment of time.

## ACADEMIC VICE PRESIDENT

**Crystal Mechor**

Once again NAITSA elections are around the corner, and all of the executive are available

to anyone who has questions about the positions. This position has gone through some changes because of our new Constitution. The major change is the addition of Academic concerns, and issues of student life at NAIT. Since this is the first year of the change, the position has the opportunity to grow, and have a greater impact for students on an internal environment.

Academic Vice President works on issues such as Academic Council, Student Feedback on Instruction, as well as helps fund raisers, and charity organizations. The largest NAITSA project the Academic Vice President works on are Shinerama, and the NAITSA elections. Since the position is becoming more academic, the project of Royal Games will be handled by the Activities Vice President.

Some of the other committees, and projects I have worked on are the AIDS Committee, the Hire-A-Student Board of Directors, United Way Campaign, Blood Donor Clinics, as well as ACTISEC (Alberta Colleges and Technical Institutes Student Executive Council). On ACTISEC I was part of the Growth and Development Committee, and the ACTISEC Alumni Organizer.

This is a very challenging position, that allows you to learn new information, develop your skills, and meet new people in, and out of NAIT.

Being an active part of NAITSA has its rewards for these people who are dedicated, and committed to the advancement of student life. If anyone has any questions, or would like to discuss the position of Academic Vice President, please come see me--my door is always open to any student.

## ADMINISTRATIVE VICE PRESIDENT

**Scott Wheten**

What kind of education are you looking for? If you want to go to school, and study, then forget about it, you can stop reading now. If you're looking for an exciting memorable college experience, please keep reading. Looking back at my year as NAITSA Administrative Vice President, I have met a number of great people. I have learned a lot about office procedures, and I have learned a lot about myself.

As Administrative Vice President you will be responsible for cash management, signing all NAITSA cheques, all deposits, all the typing and fair representation of all NAITSA members. In order to fulfill these duties you should possess the ability to put the concerns of NAIT students ahead of your own, secretarial skills (make sure you can type 45 w.p.m.), and financial skills.

The elected candidate will receive a \$410 monthly salary, their own office, and a parking stall, and the possibility of making a difference. These are only a few items NAITSA offers you, and the list is too long to mention in this article.

Looking back at my year as Administrative Vice President of NAITSA, I don't know how college could be more enjoyable. I've gained a well rounded education and I am thankful and proud I have become a member of our college community.

## ACTIVITIES VICE PRESIDENT

**Archie Miller**

Well, election time is coming and you should be considering NAITSA as a challenging, rewarding addition to your second year of NAIT.

The position of Activities Director is described in the bylaws as being responsible for the coordination of all social and cultural activities of NAITSA. This means assisting the Technologies in planning and

organizing successful functions, booking movies, organizing beerfests, Rock 'n' Talk, and expanding the position to give students at NAIT the entertainment they want.

For contributing your time you will receive a small monthly income, paid tuition, travel and experience that cannot be duplicated. This experience can be an excellent attribute on your resume.

The position is one with responsibilities and rewards. The experience is well worth your time.

## COMMUNICATIONS

### VICE PRESIDENT

**Lisa Meilen**

The role of Publications Director takes on an entirely new challenge with the constitutional amendments made this year, which changed the title to Communications Vice President. Communications is defined as the conveyance of information, knowledge and news to and from. This being the main focus, the VP Comm. wears a number of hats: Sits as a voting member on the Executive Council, as a representative of Executive Council at General Council meetings, and as Chairperson of the Publications Board meetings. The Northern Torch yearbook, The Nugget newspaper and Photography are all under the auspices of this department. One of the major projects is the annual publication of the student handbook, "The Focus" and the activities calendar. This year also heralded the 1st ever Environmental Action Week, which was a tremendous success, bring about the age of pop can recycling at NAIT and all around awareness.

It is not all labour though, there is a wealth to be learned through active participation with the student executive. Goal setting is a priority and

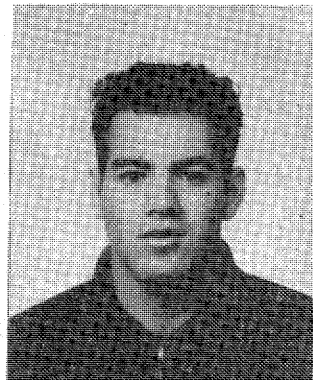

maintaining those goals is a challenge. ACTISEC (Alberta College and Technical Institute Student Executive Council) provides an excellent opportunity for networking and learning about advanced education within this province. The administrative contacts that can be made within the institution are formidable for preparing to enter "the real world".

There are many other aspects of this role which will complement a post-secondary education--the list is as long as one may wish to make it.

One of the most valuable lessons that I may take with me is that of "self-management" and now, facing the final months in office, perseverance and commitment to a good finished product.

I cannot say how enriching my time in office has been--as it is immeasurable... I invite you to accept the same challenge that helped me to realize my own potential.

## ATHLETICS VICE PRESIDENT

**Moe Rahall**

Do you know that you have an opportunity at the most vital and most demanding position in the Students' Association at NAIT? The fact is that physical education and athletics play a major role in the diversity of an individual.

The Athletics Vice President is the backbone that binds NAIT students with the athletics program; without the two the structure would become fractured. Responsibilities of Athletics Vice President include the following:

- promotion of intercollegiate athletics.
- coordinating and implementing student intramural programs.
- attending General Council, Executive Council and Athletic Board meetings.

- ensuring fellow NAIT students are aware of the ongoing events through weekly Nugget articles.

Now that I have mentioned the disadvantages the reality is that the

position provides a means of public relations, monetary aid (\$400/month), an office and paid tuition.

The decision is yours-- become a part of NAIT history and continue the legacy of Athletics Vice President.

## BOARD OF GOVERNORS

**Kirk Spence**

Are you interested in an exciting, challenging, sometimes overwhelming experience? Are you interested in personal growth and an education unobtainable in a classroom? Why not consider running for the NAIT Board of Governors?

As a "student" member on the Board you will be somewhat of an anomaly. That is to say; you will be elected by a group of constituents but you will not be a delegate of those constituents. Your role as a member on the Board will be to bring a student's perspective to the table and represent the interests of a particular group.

During your term on the Board of Governors you must be committed to the academic, financial and social well-being of this institution. You must keep yourself well informed in order to make responsible business decisions and formulate effective policy. A considerable time commitment is required in order to accomplish this.

**Carrie George**

Furthermore all members are expected to observe the confidentiality of matters discussed in-camera and avoid situations which may involve actual or perceived conflicts of interest.

On the lighter side, you may have an opportunity to attend the occasional social function, an education conference or an international reception. You will also receive a small honoraria for your services.

You can be one of two students which are part of the 16 member NAIT Board of Governors. You can be a member of a team of diverse individuals, all with something unique to bring to the table. All with the desire to continue NAIT's enviable reputation and high stature.

Are you intrigued? Want more information? Drop by E133J in the NAITSA offices. The current "student" members on the Board; Ms. Carrie George and myself, Kirk Spence, will be happy to answer your questions.

## PRESIDENT

- Preside over all meetings of NAITSA, General Council, Executive Council.
- Be responsible to the Student Association membership in so far as the activities of the Student Association are concerned, and shall exercise supervision over all officers in the discharge of their duties.
- Be responsible for the maintenance of proper procedures according to the Constitution and Policies; and the interpretation and revision of such when necessary.
- Act as the official representative of NAITSA to the President of NAIT, the Board of Governors and any body outside of the Student Association.
- Voting Director on ACTISEC (Alberta Colleges and Technical Institutes Student Executive Council); required to attend all meetings, share information, state concerns and make decisions representing NAITSA; may be required to participate in ACTISEC Committees.
- Is an ex-officio member of all NAITSA standing committees and special committees.

- Shall be a voting member of the Activities Committee and Publications Board.
- Responsible for presenting a budget for his/her division to the NAITSA Administrative Vice President.
- Shall be a signing authority in the absence of the NAITSA Administrative Vice President.
- Responsible for preparing an agenda for General Council and Executive Council meetings from submissions made by Council members and other items deemed important to the functioning of NAITSA.
- Establish any General Council ad-hoc and/or standing committee deemed necessary to the effective operations of NAITSA.
- Be registered in a minimum of three (3) and a maximum of fifteen (15) class hours per week.
- Keep regular posted office hours in order to do business of the position.

## ACADEMIC VICE PRESIDENT

- Perform all duties and assume the responsibilities of the NAITSA President in his/her temporary absence.
- Responsible for assisting students in academic related matters.
- Responsible for the organization of all Special and General meetings of NAITSA.
- Sit on Academic Council and report to Executive Council on its activities.
- Responsible for arranging bi-monthly caucus meetings for Academic Council student representatives.
- Responsible for all NAITSA elections and be the Chief Returning Officer; if running for re-election, shall appoint another Chief Returning Officer from the Executive Council.
- Be a voting member of the Activities Committee.
- Act as a liaison and work with an individual or group which is not a function of the student body; this includes outside charities.
- Responsible for presenting a budget for his/her division to the NAITSA Administrative Vice President.
- Keep regular posted office hours in order to do business of the position.

## COMMUNICATIONS VICE PRESIDENT

- Preside over all meetings of the Publications Board.
- Responsible for the supervision of all NAITSA publications; and hiring of necessary staff for such publications in compliance with the NAITSA Hiring Policy.
- Responsible for internal public relations of NAITSA.
- Official liaison between the Publications Board and the Executive Council and General Council.
- Responsible for presenting a budget for his/her division to the NAITSA Administrative Vice President.
- Keep regular poster office hours in order to do business of the position.

## ADMINISTRATIVE VICE PRESIDENT

- Shall be the Chief Financial Officer of NAITSA.
- Responsible for assisting the NAITSA Accountant in the administration of the office functions of NAITSA.
- Responsible for cash management of all social functions and other NAITSA events.
- Shall be the signing authority of NAITSA.
- Responsible for preparing and maintaining budgets.
- Responsible for maintaining a copy of the Bylaws or constitution for each technology club or student club.
- Assist the auditor in the annual audit and present to Executive Council and to NAITSA membership at the Annual General Meeting.
- Take and maintain minutes of all meetings of Executive Council, General Council and any other committees for which minutes are deemed necessary by the NAITSA executive.
- Keep regular poster office hours in order to do business of the position.

## ATHLETICS VICE PRESIDENT

- Responsible for hiring the Intramural Head Referee as defined in the Hiring Policy.
- Chair all meetings of the Intramural Council.
- Shall be a voting member of the Athletics Board.
- Responsible for internal promotion of athletics in conjunction with the Coordinator of Intramural and Intercollegiate Athletics of NAIT.
- Responsible for presenting the Athletic Board budget and financial statements to the NAITSA Administrative Vice President.
- Official liaison between the Athletic Board and the Executive Council and General Council.
- Shall ensure that Student Newspaper coverage is provided for Intramural and Intercollegiate Athletics.
- Shall coordinate all Challenge Cup activities.
- Keep regular posted office hours in order to do business of the position.

#### ACTIVITIES VICE PRESIDENT

- Responsible for the coordination of all social and cultural activities of NAITSA including Rock and Talks, Orientation Week and the Royal Games.
- Responsible to the NAITSA Administrative Vice President for the maintenance of the financial records of all social and cultural activities of NAITSA.
- Shall be a voting member of the Activities committee and the Athletic Board.
- Responsible for ensuring the necessary staff are hired for the social and cultural activities in compliance with the NAITSA Hiring Policy.
- Chair all meetings of the Intertech Activities Council.
- Responsible for presenting a budget for his/her division to the NAITSA Administrative Vice President.
- Official liaison between the Activities Committee and the Executive Council and General Council concerning social and cultural activities on campus.
- Familiarize themselves with ALCB regulations and procedure handbook; distribute copies of these regulations to all Intertech Activities Council members and take necessary steps to ensure that they are adhered to.
- Shall be a voting director on ACTISEC (Alberta Colleges and Technical Institutes Student Executive Council) Entertainment Committee; required to attend all meetings of the Entertainment Committee.
- Keep regular posted office hours in order to do business of the position.

#### REMUNERATION

- The President shall receive \$660.00 per month, payable on the last day of each month while in office.
- The Academic Vice President, Communications Vice President and the Activities Vice President shall receive \$410.00 per month, payable on the last day of each month while in office, excluding the months of May, June, July, and August.
- The Administrative Vice President shall receive \$410.00 per month, payable on the last day of each month while in office, excluding the months of May, June, July, and August. The Administrative Vice President shall be paid \$6.00 per hour up to \$410.00 total for the period of May to August.
- The Athletics Vice President shall receive \$410.00 per month, payable on the last day of each month while in office, excluding the months of May, June, July and August.
- Each executive Council member shall receive a bursary equal to NAIT tuition fees, excluding NAITSA membership fees.

## Elections:

**Nominations open February 25, 1991**

**Nominations close March 4th at 12:15 p.m.**

**Campaign Week - March 18-21**

**Voting Friday, March 22, 1991**

**If you are interested in any  
NAITSA position, please come  
and talk to us at any time.**

## Valentine's Day Poetry Contest Winners

**1st Prize - Rebecca Fischer**  
- Tickets for 2 to The Citadel

The night was filled with laughter,  
As dark as night could be.  
Light only from the dancing fire;  
Everyone, that night, happy and carefree.

Your face lit by a gentle flame,  
I saw you standing there.  
I asked a friend your name,  
I couldn't help but stare.

Your laughter as comforting as could be.  
You moved with style and grace.  
Your gaze then fell upon me,  
And my heart began to race.

Through the crowd about,  
You began to make your way.  
I froze with nervousness,  
I didn't know what to say.

As happy as I could be,  
We danced away the night.  
We talked very easily,  
It felt so good, so right.

Your touch was soft and gentle,  
And then came, so passionate, your kiss.  
You aimed your arrows carefully,  
And never seemed to miss.

Then how quickly, dawn was breaking.  
The sun began to rise.  
I knew I had found someone special,  
I could see it in your eyes.

You brought me three pink roses,  
You called me every day.  
You treated me like a queen,  
I had a feeling you would stay.

But that first night, a happiness I'd found,  
My heart sincere and true.  
Things only got much better,  
For soon after,....  
I fell in love with you!

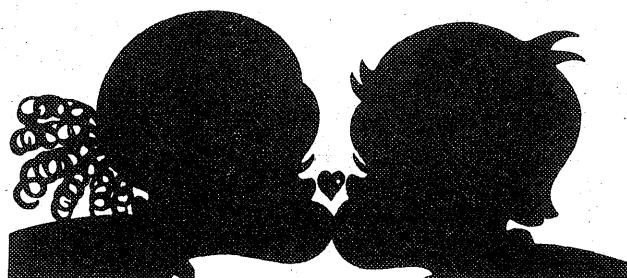

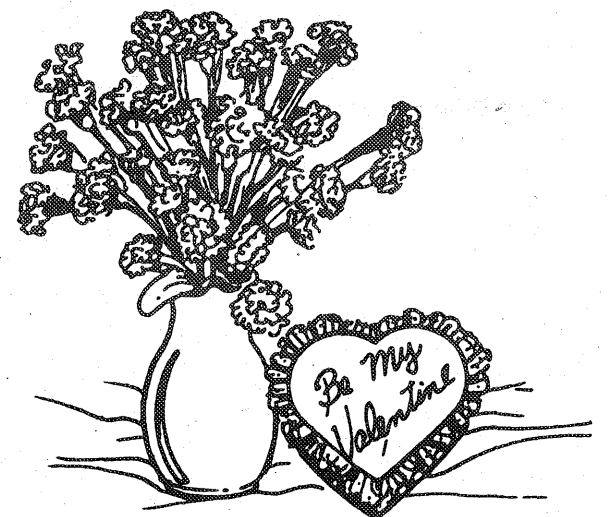

**2nd Prize - Jacqueline Smith**  
- \$30 Boston Pizza Gift Certificate

### *Letting go before it hurts*

For all the nights I slept alone,  
For the times you didn't phone.  
For all the times I kept the faith,  
If only in a private place.  
For all the times they played our song,  
For all the times the right seemed wrong.

With all the hurt and all the pain,  
What have I learned, what has been gained?  
We walk two separate paths alone.  
To find ourselves and see we've grown.  
And now I guess I realize, how lucky we can be,  
For finding love then letting go;  
Before it hurt the WE!!!

**Honorable Mention - Trina Hennig**  
- Movie Double Guest Pass

### *Special Hearts*

With a heart that glows,  
And it really shows,  
The beauty of your smile,  
And all the while,  
The twinkle in your eyes  
Makes me realize  
You're a special someone  
That I'm glad to know.

You care,  
And you share.  
Which brings to heart  
That it's Valentine's Day  
And you've captured my heart!

**Humor Honorable Mention goes out to -**  
Shawna Lindberg, Knadine Dmytrowich, Pat  
Chaney, and Sajida Kaba

Your Poem was humorous, but some what  
suggestive; therefore we were unable to print  
it.

## Playoff Preview On Friday Night

By Brian Stein  
Staff Writer

The NAIT Oaks (15-7-1) host the Mount Royal College Cougars (15-8-0) on Friday night at 7:30 p.m. in a game which could decide home ice advantage in their first round playoff series.

If the Oaks win the contest on Friday night at the NAIT Arena, they will clinch second place and home ice advantage in the best of three ACAC semi final series with the Cougars. If the Oaks lose, the chances of finishing second diminish as they would require a win over SAIT in a 7:30 p.m. matchup on Saturday night at the NAIT Arena and hope the struggling Camrose Vikings can tame the Cougars in a matchup also scheduled for Saturday night.

*"We wanted to concentrate on defence and allow one goal a game. We did that outscoring the Wolves 36 to 3."*

*-NAIT coach Rick Carriere on the team's goals in Grande Prairie.*

The Oaks now lead the Cougars by one point in the standings following a wild weekend in Grande Prairie where the Oaks

came away with six points as they outscored the Wolves 36 to 3.

On Thursday, February 14th, the Oaks reenacted the St. Valentine's Day massacre with a 12-0 shutout win over the Grande Prairie Regional College Nordic Wolves.

Ian McAmmond spurred the Oaks with five goals while Scott Melnyk and Doug Wadlow each netted a pair. Kevin Lovig, Randy Wong, and Corey Hastman rounded out the NAIT scoring.

The Oaks turned on the red light four times in the first, five times in the second and three times in the third en route to the victory.

Rob McKinley recorded the shutout in the NAIT net making 15 saves. Daryl Plantinga was tested 73 times in the Grande Prairie crease.

On Friday, February 15th, the Oaks routed the Wolves 10-1.

Kevin Lovig tallied twice for the Oaks while Corey Hastman, Bill Moody, Randy Wong, Ian McAmmond, Alex Bouma, Tim Murphy, Mark Hilton, and Mark Platzer added singles. Don Gaboury replied with the lone Wolfmarker.

NAIT held period leads of 2-1 and 5-1 before adding five goals in the third.

NAIT outshot Grande Prairie 60 to 18. Alec Sheflo received the call in the NAIT net while Mike Bell got the nod in the Grande Prairie crease.

On Saturday, February 16th, the Oaks closed the books on Grande Prairie's winless regular season with a 14-2 triumph.

Greg Geldart completed the hat trick for the Oaks while Jeff Wildeboer, Bill Moody, Ian McAmmond, and Corey Hastman each turned in two goal performances. Tim Murphy, Randy Wong and Scott Melnyk completed the NAIT scoring barrage. Jason Carleton and Rod Stearn replied for the Wolves in the losing effort.

The Oaks acquired a 4-0 lead after 20 minutes and a 7-2 advantage after two before finding the mark seven times in the final frame.

Chuck Edwards went all the way in the Oaks net blocking 12 of 14 shots. At the other end, Daryl Plantinga and Mike Bell stopped 66 of 80 drives in the Wolves crease.

NAIT coach Rick Carriere accentuated the positives of the weekend. "The team had set some goals going into the series. We wanted to concentrate on defence

and allow one goal a game. We did that outscoring the Wolves 36-3."

**ON THE BENCH:** While the Oaks and Cougars will meet in one first round playoff series, the opponents of the other best-of-three semi final have not been determined. The SAIT Trojans can clinch a playoff berth with a win over the Camrose Vikings on Friday

night. If the Trojans fail to win in Camrose, the Vikings could squeak into the playoffs.

### Off the Post

by Kevin Lovig  
#25

Name: Todd Kinniburgh  
Nickname: Kinni

Like most players who come to NAIT, Todd came because of the tradition and accomplishments that NAIT has achieved. The former WHL player who hails from Devon decided that school should be his first priority. After playing for such cities as Portland, Prince Albert and Saskatoon, hockey was his life. NAIT was one of Todd's first choices, since it was closest to home and the team is a perennial power. Kinni is a strong skating right winger who has always had a knack for letting shots go that Darren Duteshyn would love to announce. With Todd's hard shot and blazing speed, he has quickly become one of the top point getters on the NAIT squad and will definitely be a major factor in the playoffs.

Todd injured his shoulder and may not see action until the start of the playoffs. In order for the team to advance with authority in the playoffs, Kinni and linemates Greg Geldart and Corey Hastman will need to provide some much needed offence.

#### IN THE CREESE

Over the reading break, the team travelled up to Grande Prairie where it faced the pointless Wolves. Grande Prairie was 0-22 going into the weekend and coach Rico thought it would be a good chance to play defensive hockey in order to see Rob McKinley record his first ACAC shutout in his last regular season road game of his career. Rob's work load was not even enough to bust a bead of sweat, facing only 16 shots (mainly from outside the blue line). Because

of the huge offensive outburst, the stars were, of the total weekend series; Ian MacAmmond first star with 8 goals, Mark Platzer second

star and Greg Geldart the third star for his 5 minutes of play which he says he scored 3 goals on Saturday.

## Travel Weary Oaks Drop Third Straight Game

The NAIT Men's Basketball team, playing their fourth and fifth consecutive road games, lost games to Lethbridge Community College (76-58) and Medicine Hat college (90-76) last weekend. While undefeated at home, the Oaks have lost five of seven road games this year. Their record now has dropped to 9-5 and the team finds itself in third place.

In the game against the LCC Kodiaks, the Oaks played a strong

defensive first half, combined with balanced scoring, and found themselves down 38-37 at the half. In the second half the Oaks could only manage 21 points shooting a dismal 24% from the floor, as the Kodiaks pulled away to an 18 point victory. Norm Barthel led the Oaks with 12 points while Neil Vany and Rob Hansuk had 9 each.

One day later in Medicine Hat, the Oaks faced a charged up MHC Rattlers. The Rattlers,

who played great pressure defense throughout the game, forced the Oaks into an up-tempo game, resulting in a 90-76 defeat. The Oaks, down 23 points, could not take advantage of opportunities at the free throw line to take the lead. The Oaks shot a horrendous 19 from 47 on the line in the loss. Neil Vany led all NAIT scorers with 19 points, Rob Hansuk added 17 points, while Chuck Royer and Dan Grapentine each had 11

points.

The 9-5 Oaks are now tied for third place with Camrose Lutheran University College, who they host this Friday evening. The winner of this game will likely hold onto third place as the regular season winds down this weekend. The Oaks also host the Red Deer College Kings on Saturday afternoon. The Oaks will look to avenge an early season 2 point loss to the Kings as they close out the regular season.

## Draft for Dollars Kicks Off

The NAIT Foundation's 4th annual Hockey Draft, probably the largest of its kind anywhere, has kicked off.

Based on the 1991 Stanley Cup Playoffs, the Draft for Dollars campaign offers prizes totaling \$106,000. The first prize is \$50,000, the second \$10,000, and the third - ten prizes are all in four-figure amounts. There is also an Early Bird draw of up to \$5,000 cash for those who enter the Draft before March 3rd.

### HOW TO ENTER:

Purchase entry forms at: David's on Argyll; David's in Sherwood Park; The NAIT

Foundation Office, 11762-106 Street (8:00 a.m. - 5:00 p.m. Monday to Friday); West Edmonton Mall Service Centre, Phase II (during regular mall hours); or Journal Circulation Department, 9333-49 Street, (7:00 a.m. - 3:00 p.m. Monday to Friday).

Purchase of entry allows you to select forty (40) NHL players whose total points you feel will be the highest in the 1991 Stanley Cup Playoffs. Your accumulated point total will be your score. Highest score wins.

All completed entries must be received by the NAIT Foundation no later than 4:30 p.m. April 3, 1991.

## Volleyball Oaks Split

By Maury Bautz  
Sports Editor

In ACAC Volleyball action over the weekend the Men's and Women's Volleyball teams beat Lethbridge but lost to Medicine Hat.

The Men's team, playing with just a seven man roster, defeated the Kodiaks of Lethbridge three games to one. The Oaks started off slow losing the first game 16-14, but bounced back to defeat Lethbridge rather handily in three straight games.

The Oaks then came up against the strong Medicine Hat Rattlers (15-3). The veteran squad from Medicine Hat proved to be too much for the Oaks, handing them three straight losses. The Oaks are now 6-13 and in 8th place in ACAC standings.

The Women's team

continued their strong play during the second half of the season trouncing Lethbridge three games to none last Friday. The fired-up Oaks overpowered the Kodiaks, winning the match by a combined score of 45-18.

The Oaks wanted revenge on Saturday against Medicine Hat for an earlier loss in the season. In five seesaw, well played games, the Rattlers edged the Oaks three games to two. Stacey Miller (fourth in ACAC kills) played strong on the "offside attack" and Laura Jost continued her consistent skillful setting for the Oaks. The team is now all alone in fifth place in the ACAC where they will likely finish.

Both volleyball teams conclude their 1990-91 season in Olds this Friday.

## Slidin' With Sammy

### Bob Prince Speaks Out

by Bob Prince  
The Dean of Sports Columnists

Whenever the Edmonton Oilers play, one has the opportunity to listen to the tandem of Rod Phillips and Dave Semenko.

The funny thing is that if you have the chance to turn the audio down on the television and turn the audio up on the radio, it appears there are two completely different games going on.

Phillips in his role of play-by-play announcer, or rather blow-by-blow homer, puts on a worse front than Ed Whalen doing CNWA Wrestling.

The other half of this duo is Dave Semenko. If there ever was a hockey player with that

caveman mentality, it was Cementhead.

A color man should be articulate, insightful, and knowledgeable. Sammy is not. In the past few weeks, Sammy's slaughter of the English language continues as he mispronounces names like Hull, Daigneault, and Brind'Amour.

A complete sentence to Sammy is "Drop 'em." To hear him say something insightful during a game happens as often as a politician tells the truth.

When Ken Brown did the color on Oiler broadcasts, the atmosphere on the air was more plausible and more intelligent. Ken did his homework. Sammy, on the other hand, probably still does his stickwork.

It's unfortunate that the ability to be insightful, to be knowledgeable, and to be articulate doesn't mean a thing in sports broadcasting anymore.

## Wolves?

### Maur with Sports

by Maury Bautz  
Sports Editor

If you read the hockey article on page 10 you may have reacted in disbelief, wonder, or may be even laughter. But whatever the reaction, there were no misprints in the article, in fact it could have been even more lopsided.

The Oaks went into the game, not wondering if they were going to win or lose, but to key on defense, not offense. Keying on defense, still scoring 36

goals, and only allowing 3, their strategy was followed. But there is no competition here. Every team that plays the Grande Prairie Nordic Wolves boosts their goals for and statistics by substantial amounts. Grande Prairie's 0-25 record includes a 1.8 goals for average and an 11.5 goals against.

So why or how is this team in the league you say?

Last year, in the team's exhibition try out for the ACAC, they managed to fair well against ACAC competition and thus they were accepted. But, according to a source, the team was stacked with players in their senior league system who were not attending the college. So when only college

players were allowed on the team this year, their true colours showed. Sounds like a scam to me.

But, excluding Grande Prairie, the ACAC is very competitive this year. All other colleges have managed to build a system of recruiting and enticing players to be able to build a strong roster.

Whatever comes of the Grande Prairie hockey team, whether they build a competitive system, or drop out of the ACAC is unknown. It is known that there are good hockey players in the Grande Prairie region. It's just a matter of the college recruiting them. Until then, however, a team name with the spelling of L-A-M-B-S may be more appropriate.

Around here.

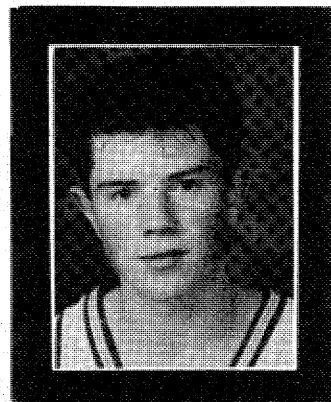

### Finance

There are several roles on a basketball team. One player who has been consistent in his contribution to the Oaks all season has been Mike Powell. Mike does not start, but comes off the bench to put in valuable minutes at the post position each game. If hard work and commitment are important roles to play on a team and individual drive for success, then Mike deserves the recognition as Athlete of the Week. Mike is a 6'3" post player who is a second year student in Finance.

### Men's Basketball

Mike Powell

Around here.

### Hairstyling

Debbie came to the Women's basketball program from Westlock without much fanfare, but she has quietly developed into one of the team's hardest working athletes. She quickly established herself as a strong rebounder, but unfortunately missed a month of Basketball due to illness. Despite this, she bounced back to lead the team in scoring her first game back, and has continued to work to the best of her ability. Debbie was instrumental in the Oaks big win over cross-town rival GMCC, with 14 points. Off the court she has kept everyone's attention with her wrestling prowess and has been know to body-slam the odd guard. Debbie graduates from Hairstyling in the fall.

## Out and About

by Cabaret Clairence

The 11th Annual Third World Film Festival will be held February 21-24 at the Tory Lecture Theatres on the U of A campus. Saturday, starting at 11:00 a.m., is a "Kids Fest" with crafts, music and stories from around the world. A family film session on Sunday at 3:00 p.m. highlights films like "Amazonia" about three South American Myths to encourage us to live in harmony with our environment and "Mwe Bana Bandi" about the songs and dances of children in Zambia. Other family activities include an international food fair; free music performances; craft sellers; and free child care.

There are many other films to be mentioned. My best advice to you would be to pick up a program and decide for yourself. (They are available at the NAITSA offices, Student Services, and The Nugget office.)

On the rock scene in Edmonton this week, watch for Click at the Beverly Crest; Barracuda at The Tap Room; Bobby Cameron at the Boiler Lounge; Johnny V and the House Rockers at the Sidetrack Cafe; Petting Zoo at the Continental

Inn; Witchazel at the Rock Central Station; Dave Ferguson at the Neighborhood Inn; The Flicks at the Ritz Diner; The Blue Meanies at the Ozone; and the Barely Legal Boyz at the Renford Inn on Whyte.

Hot jazz sounds around town this week comes from the Charlie Austin Trio playing Wednesdays at the Prince of Wales Old English Pub. P.J. Perry and Teddy Boroweicki are also playing Tuesdays and Wednesdays at the Strathcona Diner. Still to be found are the Tuesday Jam Sessions weekly at 9:00 p.m. at the Yardbird Suite.

For the R&B fans out there, look for Tacoy Ryde at Yesteryears on Whyte; Maurice John Vaughn at the 6th Street Bar; The Shroud of Memphis at the Power Plant; Allan Clark in the Bell and Court; Captain John at The Lion's Head Pub; Bob Shortt at Bob's Neighborhood Pub; Dino and the Cruisers at the Cromdale Hotel; Fenton Robinson at the City Media Club and the Professor's Blue Review is at the Commercial.

Now for the really fun stuff; Theatre Sports is back at 11:00 p.m. on Fridays at the Chinook Theatre. Also, The Russian Improv Troupe plays Thursdays at 10:30 p.m. in the Comedy West Club along with Gilligan's Island, the "Live TV" show which plays Fridays at 11:30 p.m. The Atomic Improv Company performs Saturdays at 11:30 p.m.

critics have a hard time seeing the humor in the portrayal of the characters.

The movie starts with a good enough premise, and carries for the entire length of the film. However, there are some moments when the plot becomes a little predictable. Sometimes you feel like you're watching "Ghostbusters" and there are some noticeable inferred moments throughout the show.

This movie will make money if they get it on video ASAP. The marketing of the movie will be fresh in everyone's mind. So, I say rent it when it comes out and save your money, it is worth renting.

## Cabaret Reviews

by Cabaret Clairence

### BCET Cabaret Review Feb. 8, 1991

The Boys from BCET definitely packed them in with their ladies night cabaret.

This technology has the right idea for attracting the female population of NAIT by admitting them for the low price of only \$1.00.

The cabaret however was reminiscent of a high school dance, with the men being on one side of the room and the women on the other.

The music was good and many prizes were given away. The prizes range from BCET mugs to a \$500.00 diamond ring.

So if you missed this cabaret ladies the boys are sure to have another one before the end of the year. Check it out!

## Coming Events

by Steve McGuire  
Entertainment Editor

Be sure to look for Celine Dion at the Jubilee Auditorium on Wednesday, March 6th. This young talent was discovered at the age of only 12 years. The now 21 year old darling of Quebec is poised to conquer the world with her new english language recording, *Unison*.

She has been dubbed by *Billboard* magazine as "the finest pop female vocalist in Canada now". She has to her credit a record of 15 Felix trophies (Quebec's Grammy equivalent), the 1982 gold medal at the Yamaha Song Festival in Tokyo, a 1983 gold album in France, four platinum albums in Canada, and the 1988 Eurovision song contest prize.

"Iron Maiden" with special guests "Anthrax" are being presented by Molson Canadian and Perryscope Concerts, in association with Coca-Cola Classic, at the Northlands Agricom on Friday, March 8th.

This eighth world tour marks the release

of their new album. When in Montreal and Toronto in January, the critics said:

"...came away instead with a volume hangover and fuzzy memories of a thoroughly entertaining evening of chordal carnage. Opening band Anthrax slashed and burned through a wicked set of speed metal." *Montreal Gazette*

Iron Maiden blasted its way into Maple Leaf Gardens last night with a sonic assault that had spirits soaring and ravaged ears ringing....delivered a 90-minute set of heavy metal mayhem that vigorously massaged the senses rather than mauled them." *Toronto Sun*

"Fates Warning" rolls in on a sonic boom of drums and percussion and the lasers and spot cannons combine to weave a dense web of light. The sound by now has been cleaned up a notch and every ironic macabre rake on Dickinson's lyrics ring clear and unavoidable. But, on this particular tune, it's the lights fantastic that bring on the cheers." *The Toronto Star*

On March 25th, INXS plays at the Coliseum. Don't forget to get your tickets NOW! They're almost gone.

## At the Movies

by Steve McGuire  
Entertainment Editor

By Stephen McGuire  
"Nothing But Trouble"

4 out of 8 bucks

Last weekend I went to a screening of "Nothing But Trouble" starring Demi Moore, Chevy Chase, John Candy and Dan Aykroyd, who wrote and directed this movie. This movie had a good chance of having some success, but too many

## FLUOR DANIEL

Fluor Daniel Canada, Inc.

**Contact:**  
Human Resources Department  
10101 Southport Road S.W.  
P.O. Box 8799, Station F  
Calgary, Alberta  
T2J 4B4

### THE COMPANY

There's tremendous potential if you demand a lot of your career. As the most diversified contractor in the world, Fluor Daniel (based in the USA) provides a broader range of technical services to more markets and industries than any other company in our industry. We're at home designing and engineering world-class petrochemical plants, or building resort hotels, maintaining nuclear power plants, and repairing military housing. Large or small, Government or private enterprise, our projects are diverse.

Fluor Daniel Canada, Inc., headquartered in Calgary, Alberta, is a fully integrated organization providing total responsibility engineering, procurement, construction management and maintenance (EP&C) services. We have established ourselves as one of the leading EP&C contractors in Canada. We have worked on more than 100 projects from British Columbia to Nova Scotia.

### ENTRY LEVEL POSITIONS

Careers exist for graduates from engineering drafting and technology programs including General Engineering, Electrical, Mechanical and Civil. Both manual and CADD drafting skills are used in our work and training is provided for employees where necessary.

### TYPICAL CAREER PATHS

In developing and maintaining our full-service engineering office, Fluor Daniel not only recruits qualified people but develops the skills of our current employees.

You have many options. Some individuals prefer to remain in their own academic disciplines and continue to develop technical expertise. Others choose to work toward management roles.

One of your challenges as a Fluor Daniel employee is to "add value" to our clients' projects. You add value by finding special innovative services or ways of doing the clients' work that increases efficiencies for them. As you add value to projects, you open the door to special recognition and reward opportunities for yourself.

# Grapevine

My dear Kevin:

When you started out,  
You were not in  
search of love.  
There was no need.  
You had chosen to  
live life alone.

This was your  
destiny,  
Or so you believed.  
Then something  
changed,  
Slowly your health  
deteriorated,  
And you required  
assistance from others.  
A dependence on  
others arose.

In this weakened  
state,  
You opened up your  
heart,  
And fell in love.

However when this  
period of suffering  
ceased,  
You were in shock,  
To see how deeply in  
love you were.

Being a warrior you  
fought venomously  
Against the one that  
penetrated your heart.  
This time you lost the  
fight...

But you really won.  
The destiny that you  
chose  
Did not come true.

Now you are willing  
To return all of your  
love back

There is a serene  
understanding of your  
feelings

You have tested the  
true meaning of love,  
With the one that you  
desire most of all.

The love is here for  
you,  
Forever, even in  
times  
When you sprint from  
it.

.....

To The Little Elf:

I thought your  
compliments were very  
nice, and they made my  
day, but I must be  
truthful and say that  
my heart belongs with  
someone very special to  
me. She is the only one  
for me so you and I could  
never be. But don't be  
shy, come say Hi!  
Signed, Grant.

.....

MaryAnn:

You better leave my  
husband alone or you  
will have to deal with  
me.

Don't call or ask him  
to go out or you will find  
out what Peurto Rican  
women are like when ya  
mess with their man.

Signed your  
Nightmare.

To the Babe in  
Forestry:

When we see you, our  
knees get weak,  
But unto you we dare  
not speak.

Your name is John,  
you have a hot bod.

Me and my friend  
think you're God.

The bush can be  
awfully lonely,

Take us along, we'll  
do the funky pony.

We love your  
absolutely beautiful  
smile,

Keep reading. You'll  
find us in a while.

Signed, 2 wild  
animals lost in the  
woods.

.....

To Tasha V:

You'll know who you  
are by the following  
clues.

You're in Bio  
Sciences.

And your friend  
walks in Karen's shoes.

The reason I write to  
you in such a discreet  
manner,

Is that when I am  
faced with your beauty,

My voice goes into a  
stammer.

It's not very often  
when I see you around.

But when I do happen  
to see you,

My heart starts to  
pound.

All sorts of thoughts  
fly through my mind!

What should I say,  
what should I do?

But the right words, I  
cannot find.

Soon, I will make  
myself known to you.

But only if you want  
me to.

I hope I will hear from  
you next week,

In the Grapevine,  
Where are destiny's  
may meet.

Signed, In the  
Shadows (for now).

CONGRATULATIONS!

We at The Nugget  
would like to extend  
our best wishes and  
congratulations to  
Christine William,  
graduate of RTA, and  
Garnet Wrenko, 2nd  
year business student,  
on their engagement.  
They met through The  
Nugget Grapevine.

To the Saskatchewan  
Bio Sci Hick:

Those HOT blue  
stripped sweats really  
turned my topsoil. My  
tastes are similar. I was  
wearing a plaid skirt,  
muscle shirt and rubber  
boots. Maybe we could  
get together and cross  
dress? I sure hope those  
sweats stretch. I've  
seen you in your  
Saskatchewan brown  
Chevy. I have followed  
you home on occasion;  
perhaps you've heard  
me mooing outside your  
7th floor balcony. Your  
manly muscles ripple  
when you paddle your  
canoe. When you left  
for the long weekend I  
spent many hours  
staring East hoping for  
your safe return from  
the land of dust and  
hay. To meet you at the  
water trough soon,  
With love, your  
Prairie Oyster.

.....

You are kind of small,  
About five feet tall.  
You drive a red jeep,  
And I think you are  
sweet.

You are usually with  
guys from EET,

But I'd really like to  
see you next to me.

I'd really like to meet  
U,

So don't make me  
blue.

It's all up to you then.  
Tell me where and  
when!

Signed, Someone who  
loves your dimples.

To Veronica in  
Hairstyling:

Hello, my name is Mr.  
Goodbar,

I came to offer  
champagne.

Later on maybe I'll  
tell you my real name.

But for now simply  
drink and be merry and

Be a nice girl and  
send me a CHERRY.

Me, I'll have a  
kahluah and milk

'Cause champagne  
always stains my silk.

You got a man?  
That's something we  
will talk about.

He's smart enough to  
have you,

But dumb enough to  
let you out.

I like your  
personality, and even  
your shoes,

Your hair style and  
your whole point of  
view,

The way you lick your  
lips and stare,

You tell me that's a  
habit....hmmm, yeah.

Honey coated legs  
with not one scar.

Your styling  
wardrobe is up to par.

Here's my number,  
call me in my car  
(466-????).

You deserve a visit  
from....

MR. GOODBAR

.....

To Richard Dool:

You came into The  
Nugget the other day  
with an article in hand.  
You wouldn't happen to  
be from Thorsby would  
you? If you are, please  
come back to The  
Nugget and meet a long  
lost friend.

Signed, Unsure.

To Tracey B.  
(Business):

If the sun refused to  
shine,

I would still be loving  
you.

When mountains  
crumble to the sea,

There will still be you  
and me.

From someone who  
loves you.

.....

To my poetic,  
romantic, secret  
admirer:

Thank you for the  
beautiful flowers. My  
Valentine's Day was  
made very special by  
your thoughtfulness.  
Now if you would please  
tell me who you are, I  
could thank you  
properly!

Sher

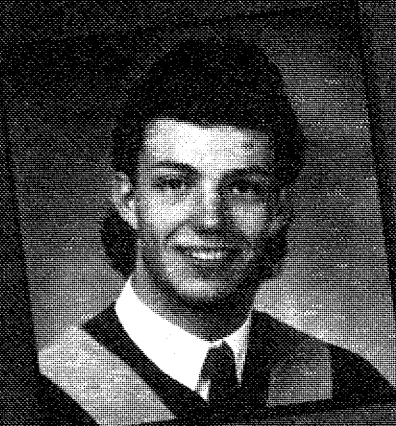

.....

CONGRATULATIONS!

The Nugget staff  
would like to  
congratulate David  
Omilgoitok, 1st year  
business student, and  
his wife Heather, on the  
birth of their daughter,  
Andrea.

Andrea was born  
February 13, 1991 and  
weighed 9 lbs 12 oz.
