## Mentoring Future Men

*What are we trying to achieve.....*

*Who are we targeting.....*

*What is it going to take.....*

### COMMITMENT!!

*There has to be a group of men that are willing to dedicate and sacrifice time & energy for boys to become Christ-like leaders in furthering the Kingdom of God.*

#### START AN OUTPOST TODAY:

*The most important role a Royal Rangers group can play in its community is to share the message of Christ in a way that is clear, Biblical, and appealing to boys and young men. A Royal Rangers group can never accomplish its central purpose unless it is actively pursuing a plan to attract new boys through a diversified program of activities while sharing with them the gospel message.*

*Royal Rangers has long been one of the most effective tools for reaching boys outside the church community. Countless church leaders can testify of how Royal Rangers has attracted boys to the church who may never have come for any other program. But in order to be fully effective local group leaders must be intentional in their efforts in reaching boys*
