ROYAL RANGERS PATCHES

compiled & edited
by

ALAN GELL

ROYAL RANGERS-----a camping ministry for boys
Sponsored by: the Assemblies of God

FIRST EDITION: July 1976
SECOND EDITION: July 1978
THIRD EDITION: July 1984

ALL RIGHTS RESERVED. It is illegal and immoral to copy or in any other way, reproduce the contents of any portion of this book, or any of its separate pages without the written consent of the publisher.

PUBLISHED BY:
B & B Enterprises, 105 Silverwood, Ovilla, TX 75154

This is our third attempt, building on the first two editions, to list the many patches that have been utilized in the Royal Rangers ministry. Patches have been issued for many different reasons, but usually to commemorate a special event. With the special help of Dade Massey of South Texas and Butch Keifer of Pennsylvania, we started this very involved process a number of years ago. Many Royal Ranger Commanders, leaders, pastors, district staff officers, and other men have helped us by sending us information and sample patches. This information has helped to keep us up-to-date, but unfortunately, it is still very incomplete.

If you have any information that would help to "fill in the blanks" in this book, please send it to us. Give us as much information as you possibly can----date of issue, how many were made, the person who designed it----whatever you know about the patch. In some instances, we have the name of a section, but do not know which district it is from. Likewise, many patches we receive have only initials, but the person sending the patch to us doesn't enclose any information about what area the patch comes from.

We welcome any and all patches that are sent to us. It really helps add to the master collection. But if you don't want to do that, then please just make a xerox copy of the patch and send it instead.

We wish to thank all of you who keep us on your regular mailing list and send a sample patch each time you have some made for an event. Without your help, this job of compiling this book could not ever be possible.

-----Alan Gell

IMPORTANT NOTE-----PLEASE READ

The "worth" or "swap value" of a particular patch is only determined by two people---the person that has the patch and the person who wants to obtain it.

Obviously, some patches are valued much higher than others---due to many different reasons. Some things you might consider in determining your own "swap" value: colors, design, appeal, attractiveness, quantity made and distributed. You might especially consider the "age" of the patch or how old it is. Most patches issued in the 60's or early 70's are becoming extremely hard to obtain in a "swap". Also, most National patches are usually considered collector's items.

When you begin to "swap" or trade, use some HORSE SENSE---commonly called common sense. If you and the other trader are both happy with the trade, then good--it really doesn't matter what anyone else thinks about it--since the trade was only between the two of you to start with.

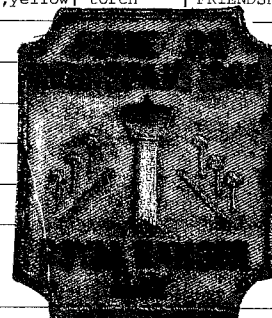

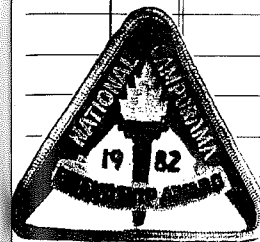

ABOUT THE AUTHOR:

Member of Royal Ranger National Executive Committee
Regional Coordinator, South Central Region
Wilderness Vigil member, F.C.F.
Well-known POW-WOW speaker
Widely recognized as having one of the most complete collections of Royal Ranger patches in the U.S.
