In 1963 the Pastor of the Assembly of God church in Galena, Kansas shook the hand of Fred Deaver as he exited the Sunday morning service. This Pastor knew Fred to be an avid sportsman and hunter, a patriotic veteran of World War II, a man of many talents including artwork. Brother Deaver you are our new Royal Ranger Commander .As he placed a manual in Fred's hands, God placed a hand on Fred's life and for nearly forty years Fred has traveled this country and several others teaching men to lead and reaching boys for Jesus Christ.

A tribute to Fred Deaver opens this book because Fred is the patch designer of many National Camporama patches, National FCF Rendezvous and numerous others.

I interviewed Fred about the history of many patches and which he designed and which Johnnie Barnes designed.

I also wanted to ask Fred for some design tips from an artist's viewpoint.

Fred replied, keep it simple! Don't clutter the design with too much artwork. Then test your colors to see which colors go well together.

As shown above Fred designed the National Rendezvous patches and the Territory set that has been named the fundraiser set. Eight animal patches for eight territories.

As a collector of patches I appreciate a good design and some of Fred's patches are among my favorites.

Thank you Fred for all that you do!

The National District Patch Directory is a tool for organizing many patches. Also a place to capture some history of Royal Rangers through the National events and Pow wows from every district.

I hope you find this useful and please feel free to help me keep this book complete and accurate.

I plan to update any patch that I don't have displayed and correct any data to keep this accurate.

Please direct any corrections and additions to:

This work so far has been a large project.

I would like to give thanks to many that have helped.

Thanks to Rich Mariott and Brian Hendrickson in the National Office for providing guidance on the layout and the cover design (by Rich Mariott).

I have scanned several large patch collections to gather all these old rare patches.

Without Dade Massey's collection to get me started I would not have had a complete enough product to continue. Thanks Dade for your continued help. I have also scanned several other collections from Bob Sederwall, John Brown, Rich Mariott, Art Braendel, Wayne Farrand, David Craun, Mike Valladares, Paul Walters, Skip Salmon, David Boyd, Mark Craft, Michael Crowley, Burt Weiner, Keith Brooks, Vance Harris, Jason Bone, Ted Schmidt, Lanny Watson, Mark Oliver, Ed Christiansen, Mark Blanchette, Drew Popovics, Andy Popovics, Bob Millstead, Doug Weiss, Ziggy, Sonny Green, Steve Benesh, Ken Fields, Brian Miller, Dennis Daniels, Roy Hanks, Norm Nethers Norm Miller, JR Whinery, Bill Whittnebeen and others.

Alan Gell's publication on patches is a very valuable source for identifying patches. It is a wealth of research and organization.

The best way to gather historical data is to read original documents and have face to face discussions with those who attended the events. I would like to thank Dade Massey for gathering data from numerous district Pow wows and camps he traveled to. This information has added a lot of accuracy to this work.

Thank you patch collectors and readers for joining me in this review of the thousands of patches that represent an outing where men and boys are drawn closer to God. What started as the vision of Johnnie Barnes has grown to an enormous work represented in one small way by a patch.

Interesting Patch Facts 228

Royal Ranger Emblem Design	Johnnie Barnes worked hard on an emblem design and had many ideas, then late one night Johnnie woke up at 1:30 AM and scratched out the emblem design, the colors, the names and meanings of the points,,, very quickly,, Johnnie always gave the glory to God ,, he felt inspired during that late night event and the Royal Ranger Emblem was born.
Early Ranger Emblems are Rare	The first production of the emblem from the vendor was a screen-printed emblem with square edges and a yellow star in between Royal * Rangers, I believe very few of these were made (200-400) estimate and they faded easily when washed. Sonny Green told me that some leaders would sew them on and take them off to wash the uniform. The next series of embroidered emblems had square edges and were in use until about 1970. The next embroidered patch had the Registered trademark "R"
Arrow Head Shape Reserved	At National Council in Executive committee the Arrow Head shape was reserved for National FCF events and Territorial patches. This has added distinction and value to these patches.
Diamond Shape Reserved	At National Council in Executive committee the Diamond shape patch was reserved for National Camporamas and special patches released by the National Office. This has also added value and distinction to these patches.
1998 Camporama Large Version	A promotional patch released at National Council in Limited supply, usually 1 or 2 loom runs of these are made 600-1000
1984 National Rendezvous	First loom run had a dark blue border; second loom runs had a more purple thread.
1992 National Rendezvous	There are 2 versions of the 1992 National Rendezvous; fully embroidered patch was distributed at the event. A canvas likeness was the promotional patch at National Council not fully embroidered.
1996 National Rendezvous	A 25% larger version was distributed at National Council
1980 National Rendezvous	A not fully embroidered version was distributed at National Council The fully Embroidered version was at the Rendezvous.
2000 National Rendezvous	A darker test design was made as a promotional patch at National Council.
2002 Camporama	A silver border version was distributed at National Council, 1000 made Also a Staff Patch was made
Misspelled	1983 Voyager Territorial "Rendezvous" 1999 Plainsman "Rendezvous" 1982 Tennessee "Camporama" host patch
FCF 20th Anniversary	First issue patches were fully embroidered later loom runs were partially embroidered
1972 National Rendezvous	The original 1972 FCF National Rend is very valuable, approximately 600 made, attendance was 200 and everyone received 2 patches, very few left over. There is no circle R trademark on the original. A remake was issued by the National office in brighter colors and with the circle R trademark.
First Pow wow patches	Some events and pow wows occurred in 1964 but the first patches commemorating a district event were New Mexico 1965 (handmade Very rare) and Northwest district pow wow 1965. Some early camporee patches were on felt but not considered district wide events.
Space Shuttle Atlantis	Astronaut David Hilmers carried a Royal Ranger emblem in Space aboard the Atlantis STS-38 (March 4,1990) and traveled 1.87 million miles. "Some of you may be blessed as I have to see what God has created from outer space." David Hilmers
How many different Patches	A crude estimate of 56 districts over 40 years is 3800 district pow wows, National patches 100, FCF districts 2000, Sectional patches 5000, Total USA approx 11,000 Australia 2000, other countries combined 1000, You can't have too many patches!
