Re: Campsite locations

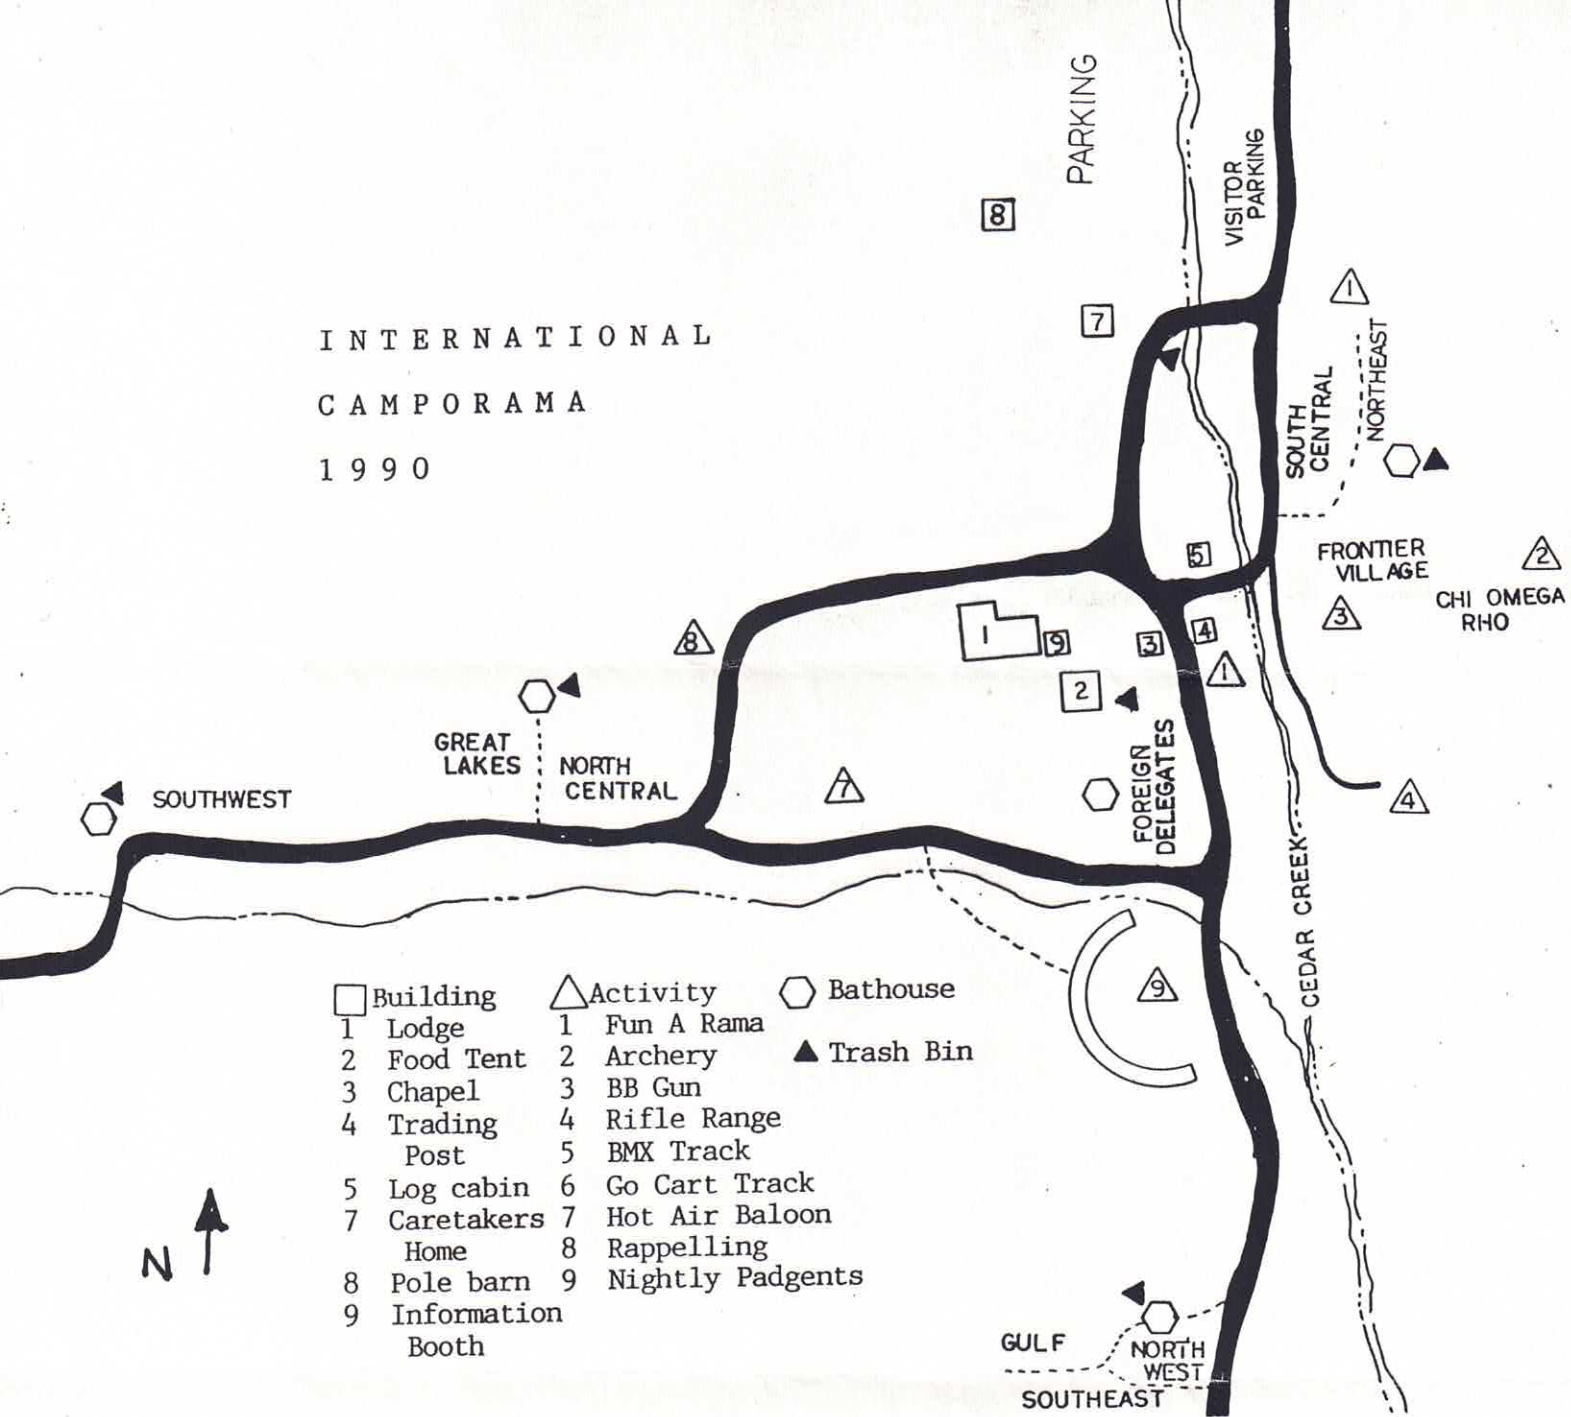

Greetings. Enclosed are some preliminary sketches to help you locate where your district/region will be during Camporama.

I will have the specific areas marked off for you when you arrive. The actual area for each district will be determined when we have the final registration numbers. We will fit in those districts that have not pre-registered. I will try to follow the sequence of Districts if at all possible so that you can inform your delegates where to find your campsite.

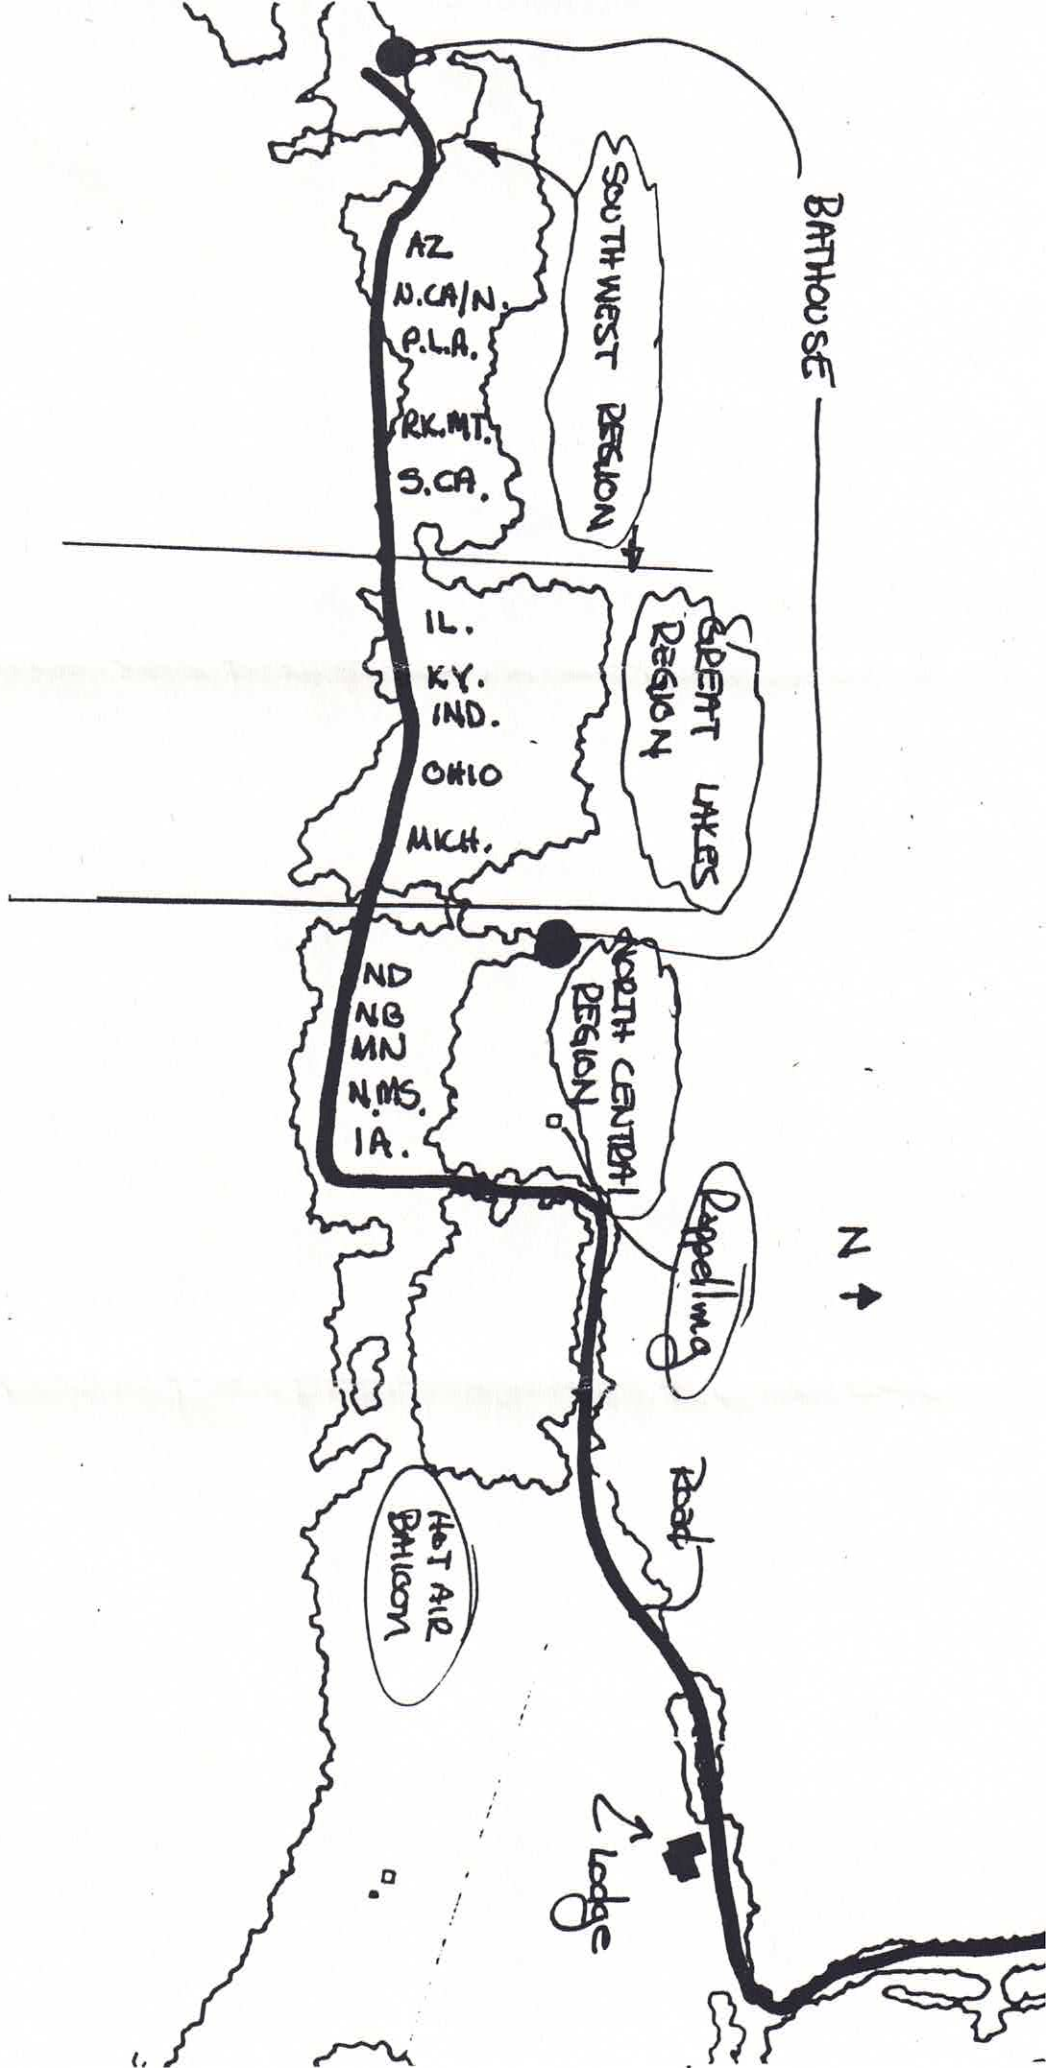

Regions will be setting up individual headquarters areas, probably as near as is practical to a bath house, where you will assemble your districts, by region, on Thursday and Friday mornings. If Regional Coordinators want to stake out their HQ areas on Saturday, I'll work around them when we layout campsites.

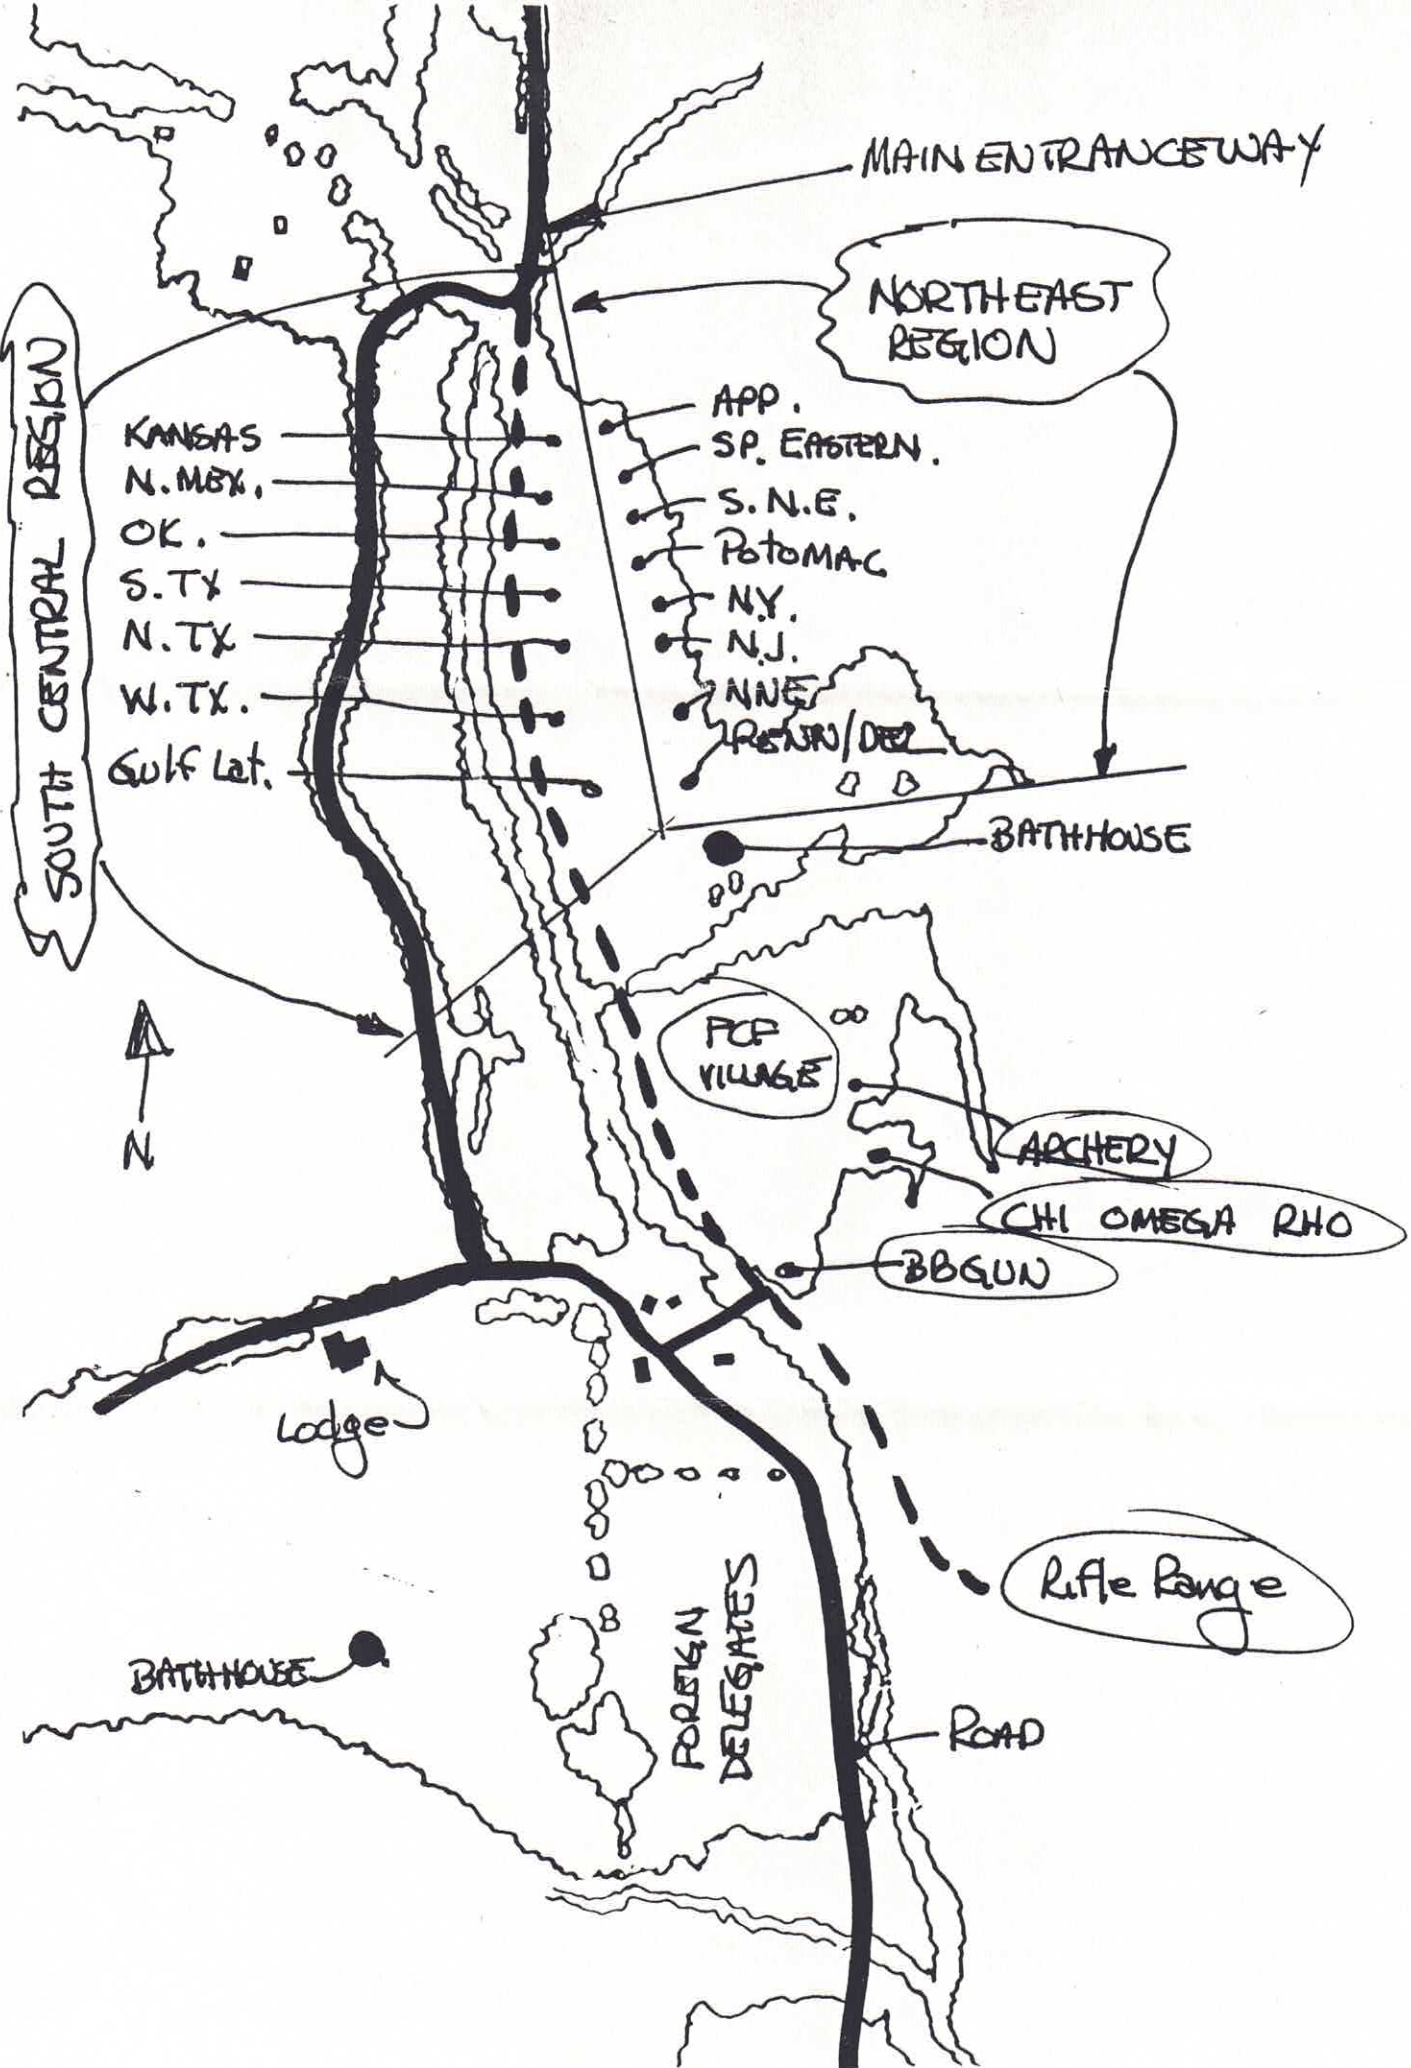

Looking forward to seeing you there, and a great Camporama!
