

Come Join Us at LEAD19

January 17, 2019

The 2019 National LEAD Conference will soon be here, and preparations are underway to make this year's event a memorable experience for all. LEAD19 will take place in an entirely new venue at the [Crowne Plaza Hotel & Conference Center](#) in Dayton, OH.

This new location was selected as part of the ongoing process to host our annual conference in locations more accessible for different groups of organizational leaders. After being held in Springfield for many years, the conference moved to Dallas to enable more leaders from the south and southwest to attend. The new location in Dayton will now provide a similar benefit to leaders in the northeast.

This year's conference will include many of the features our organizational leaders have come to expect, such as functional breakaways, regional meetings, and general sessions. It will also include some new elements and content:

- A special orientation dinner for new district directors on Wednesday night
- All-new workshops on a variety of topics (Workshops this year will be district leader focused instead of outpost leader focused.)
- Kick-off of the 2020 National Camporama promotional process
- Release of the new 2019 Leader Manual
- Launch of the new BGMC Master's Toolbox Project for 2019-2020

Registration is open now via the [conference page](#). Attendees who register before February 1 will receive an exclusive commemorative conference pin. [Contact us](#) for more information.
