P.O. Box 1796  
Edmonton, Ab.

Dear Successors:

On December 10th of 1993 I will commence my 16th year with Grant MacEwan as the Executive Director for the Students' and Alumni Associations. My time here has been rewarding and at many times challenging but I would not change any of it and I still think it's the best job in the institution. Working with these young people has, in many ways, kept me young, but I don't think young enough to be there when you are reading this letter, but then who knows.

I hope that you will find the items contained in this capsule interesting and the explanations understandable. It has been fun doing it, although not without its moments of frustration I can assure you. One of the items we are giving you is a G.I.C. in the amount of \$1000.00. With interest based on a conservative 6% we estimated it will be worth \$5400.00 in 2021. How close were we? This money is to be used to establish a scholarship/bursary to be awarded yearly of which the criteria for winning or being chosen to receive it is to be determined by yourselves. We did not feel that we could anticipate what your needs might be, therefore we are entrusting you to make that decision for us.

I hope that this Association is continuing to be an integral part of the College, and that you and the administration are still working together to solve your problems. If I were present you can be assured I would raise my glass to all of you and toast "THE BEST COMMUNITY COLLEGE IN THE COUNTRY".

Yours truly

Joy Shaw  
Executive Director
