

The Blue Abyss

English

Our little reporters will be exploring the seas with Oliver in 'Oliver and the Seawigs' and we will base all our English lessons around this book. We will write reports, newspaper articles and diary entries.

Science

Our marine biologists will explore ways to classify and organise living things and how animals are split into two groups.

Art

Our artists will be re-creating works from famous artists as well as painting, shading and creating our very own dioramas!

Maths

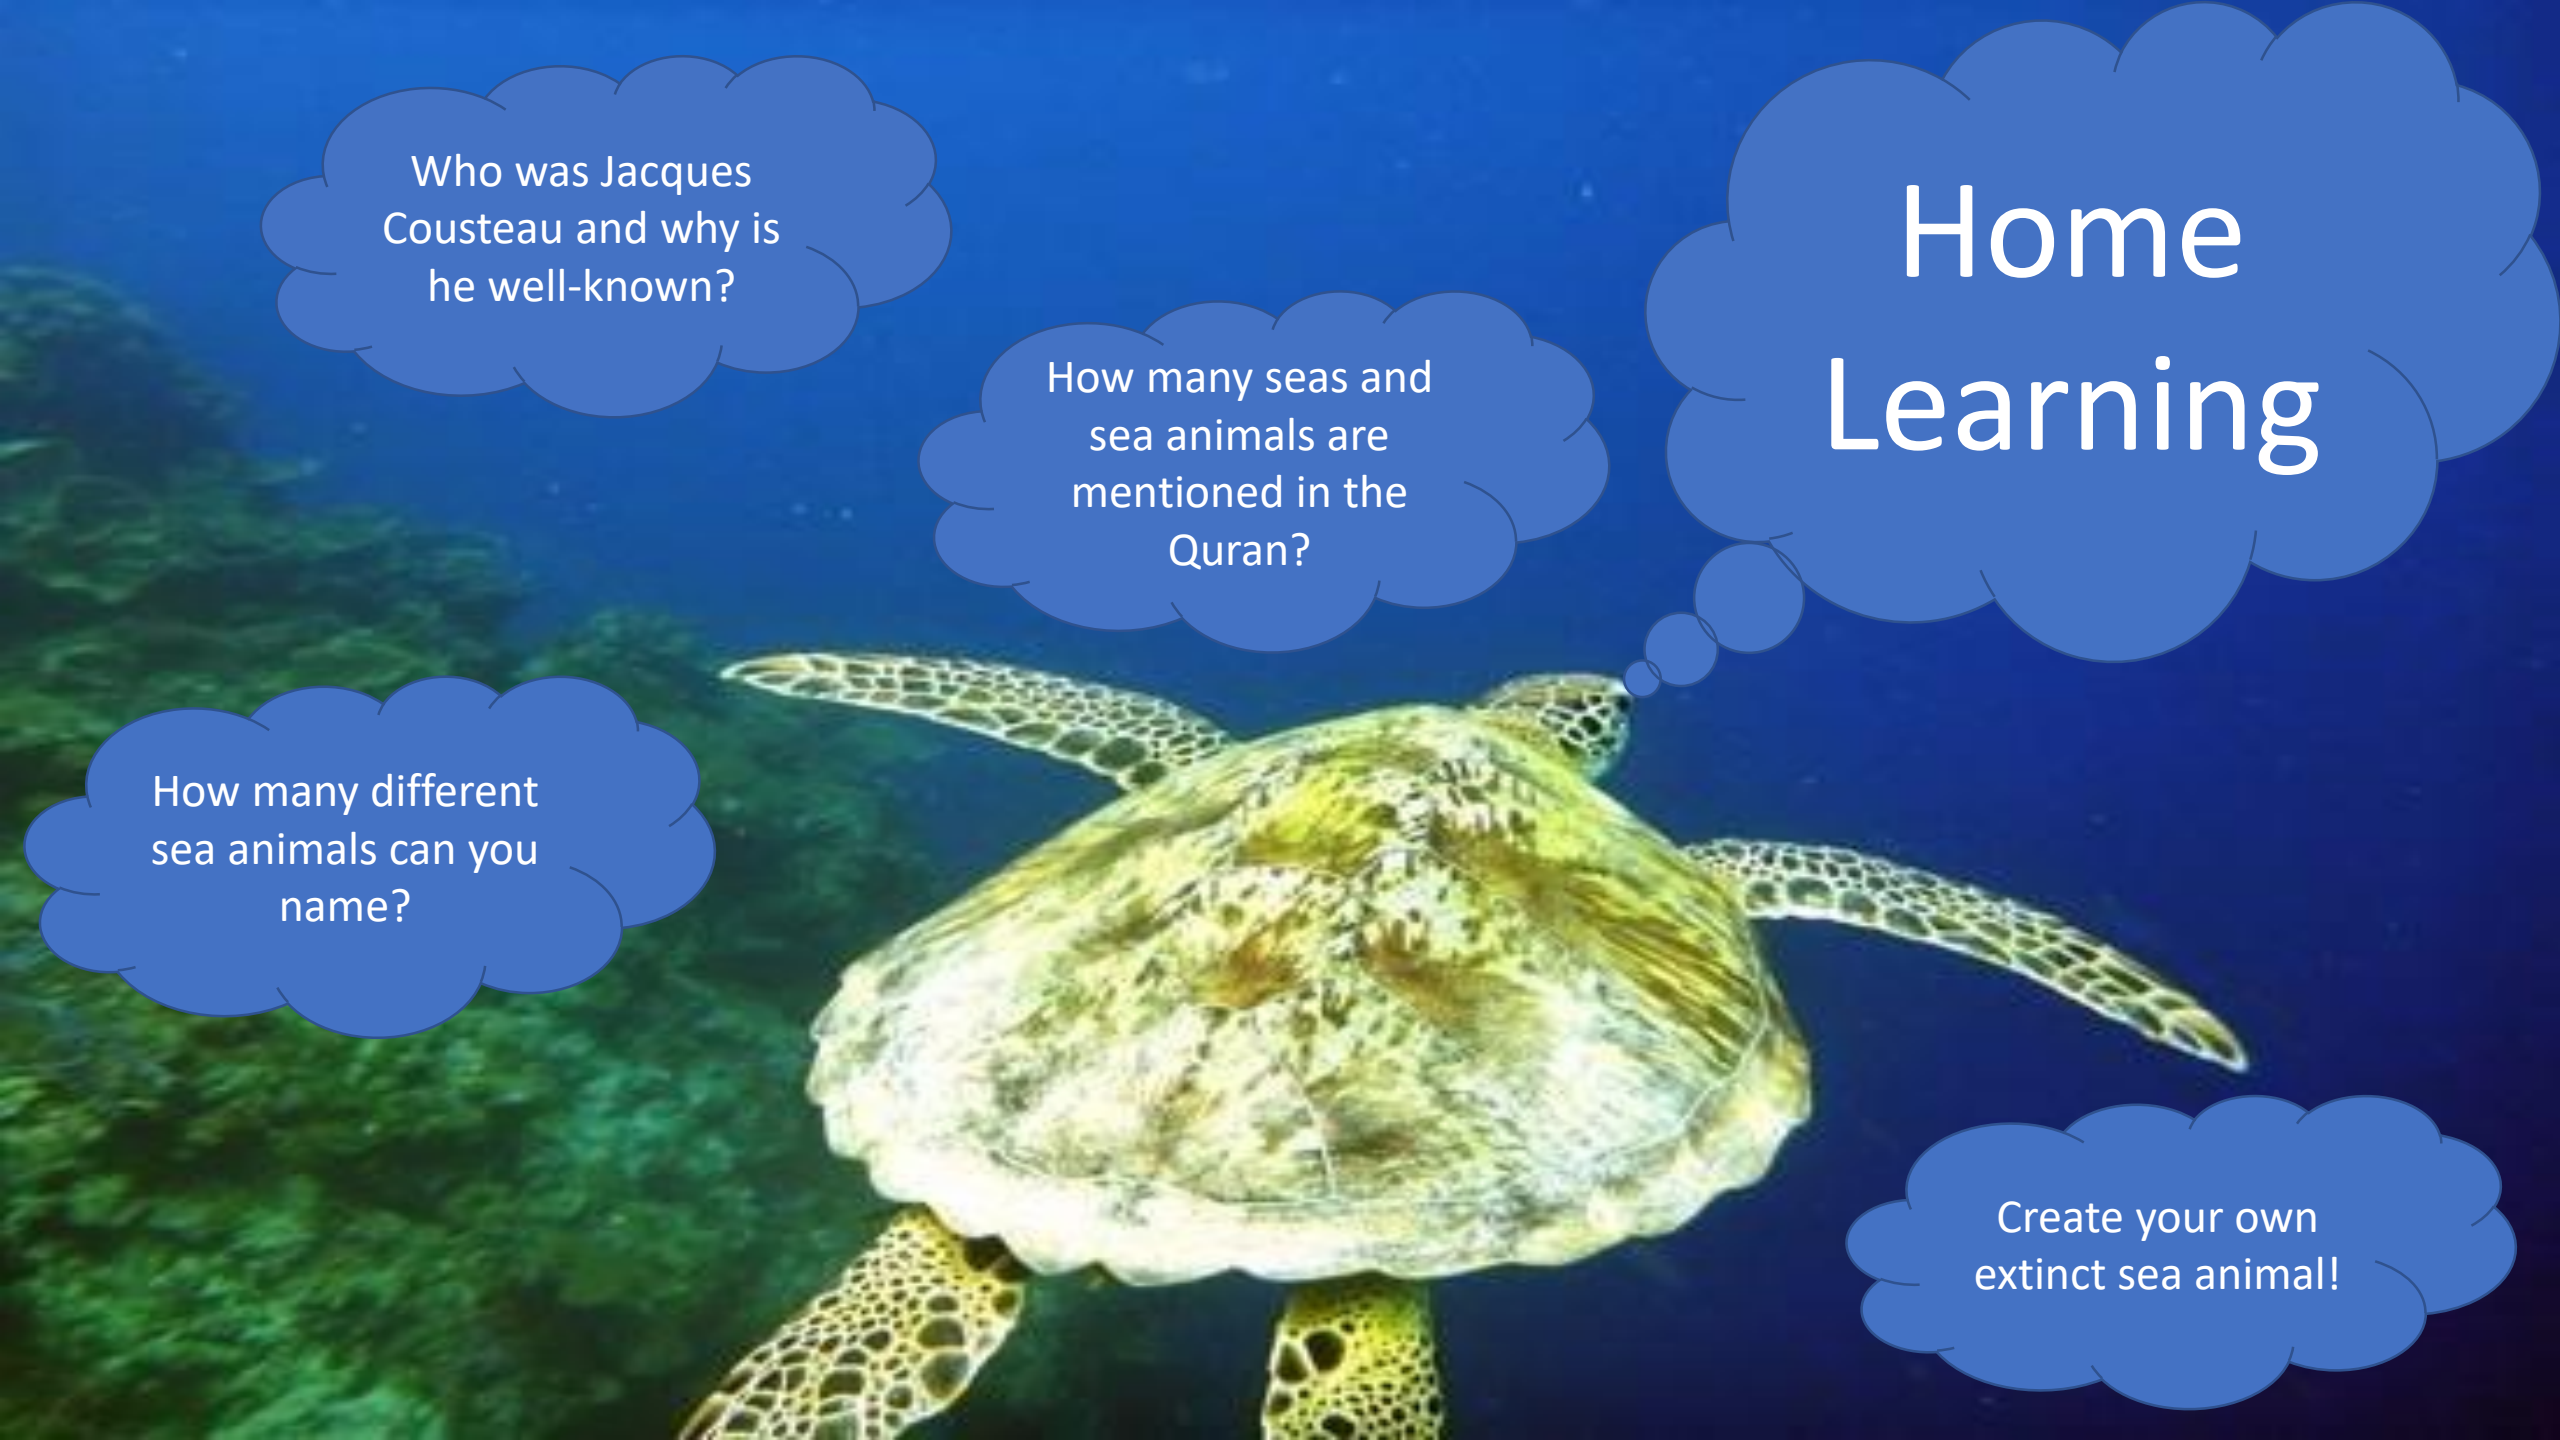

This half term we will learn how to multiply and divide by 6,7,9,11 and 12 as well as looking at graphs.

Geography

This half term we are going to be learning about the oceans and seas of the world as well as study The Great Barrier Reef in Australia.

Grab your scuba diving equipment because we are going to learn about all things wonderful and mysterious in the depths of the oceans around the world!

We will also learn about the environmental issues linked to the oceans.

Who was Jacques Cousteau and why is he well-known?

How many seas and sea animals are mentioned in the Quran?

Home Learning

How many different sea animals can you name?

Create your own extinct sea animal!
