

## Geography

This term we are focusing on Earthquakes and Tsunamis. They are learning about how Earthquakes and Tsunamis occur and the impact of them on everyday life. They are concentrating on tectonic plates, layers of the Earth and many other key aspects of the topic.

# YEAR 4

## English

This term we are reading 'Journey to the River Sea.' The novel has memorable characters, a beautifully described setting and explores a number of themes including following your dreams, having a positive outlook and sense of responsibility, together with ideas concerning respect, prejudice, class and culture. Throughout these lessons Y4 will be writing diary entry's, taking part in role play and dancing, poetry and learning about play scripts.

## Maths

Year 4 are learning about decimals and money. This includes writing fractions, tenths, hundredths, equivalent fractions, rounding, dividing by 10 and 100 as well as exploring much more.

## PE

The focus for this term in PE is Hockey. The children are learning the fundamental rules of the sport, developing their skills with passing, travelling and shooting as well as much more.

## Science

In science the children are exploring Sound. This includes learning about pitch, volume and vibrations. The children are understanding how sound travels and reaches our ears and are doing experiments during class.
