Let us inspire

FLINDERS RANGE LUXURY VINYL PLANKS

Created by leading interior designers, our Flinders Range of floor planks provides a modern twist on the classic and enduring appeal of timber.

With ingenious, micro-bevelled edges for seamless cohesion, this stunning range offers a truly authentic timber aesthetic in a myriad of tones to complement the style of your fitout. From crisp and cooling neutral tones to warm and rustic classic tones, the Flinders Range will inspire even the most discerning eye.

FLINDERS RANGE AUSTRALIAN STONE COLLECTION

The Flinders Range stone collection is an excellent alternative to the hard surface of polished concrete floors, offering comfort, warmth and affordable durability.

With a contemporary range of colours and tones, and a unique bevelled edge, this carefully curated range has been handpicked to support all forms of stylistic expression, from ample decadence to understated minimalism. Lending a distinguished finish to any project, this range is ideally suited to both residential and commercial environments.

60,000 tonnes of resilient flooring waste goes to landfill annually. Together, we can change that.

Resilient flooring in Australia contributes an estimated 60,000 tonnes of waste each year to landfill, 9,000 tonnes of which has never even been walked on!

ResiLoop has been designed as part of the local industry's pathway to a circular economy, by tackling this waste issue, starting with waste generated during the installation process.

ResiLoop is a commercially aligned, not-for-profit scheme backed by major suppliers in the resilient flooring industry to promote a circular economy for floorcoverings in Australia. Initiated by the Australian Resilient Flooring Association (ARFA) in 2021 and established independently in 2024, ResiLoop intends to recycle 30 tonnes/ month of flooring waste, delivering materials to our recycling partner for garden edging production. With a growing network of suppliers and expanding collection points, ResiLoop aims to increase R&D efforts to identify new applications for recycled materials, reducing landfill waste and advancing circularity across the industry.

At Inspired Floorcoverings, we work with our designer, architect and installer clients to help them to fulfil their creative vision. We are known for our attention to detail and our responsive and approachable service, delivering with the utmost timeliness from initial brief through to final completion.

Our range includes only the highest quality products, each designed for maximum style, flexibility and durability. Ideal for offices, hospitality, education, retail, healthcare and aged care spaces, our beautiful carpet and vinyl flooring products will transform your space to complement the aesthetics of your design project.
