

Gnome Mines NFT BEP-20 GMINES Game

The GMINES is a BEP20 token built on Binance Smart Chain, which allows token holders to play, trade, invest, use to buy gnomes.

GMINES is a BEP-20 Token. GMINES, which is built on Binance Smart Chain, is the main money in the game, allowing token holders to play, trade, and invest in Gminers gnomes, among other things.

Come and have fun in a tavern ambiance where your gnomes drink nice beer and quality whiskey; the tavern has the function of storing the gnome and charging energy.

After a night of drinking, some rebellious gnomes create a conflict of interest, and things spiral out of control, resulting in fighting within the taverns.

Get organized

Organization is key to successful online learning. Creating a study plan will help you meet deadlines and work around your existing commitments and responsibilities.

The MOBARACK forest was recently invaded by a large Golem invasion, but fear not, your gnomes will attempt to protect this enigmatic land. The bravest among you will be rewarded with the Golem's defeat.

There are several traps in the MOBARACK forest; perhaps you might find one of the missing gnomes there.

The Gnome Mines is a Play 2 Earn game where players manage a team of gnomes working inside a mine full of precious ores, every day the gnomes wake up early to go to the mines to collect ores as much as possible during the day. You must gather your best team and send them to the mines, maybe your day will be more profitable than the day before.
